Pilsen/Little Village (LV)	\$208,447 P /\$117,320 LV	\$213,204 P /\$119,998 LV	-	-	-	-

Calculation and Timing of Payment of ARO In-Lieu Fees

The ARO includes a requirement that the in-lieu fee be adjusted annually, beginning on January 1, based on the United States Department of Labor, Bureau of Labor Statistics Consumer Price Index (CPI) for all Urban Consumers for the Chicago metropolitan area. Between September 2022 and September 2023, the CPI index increased by 2.28%.

The in-lieu fee amount will be calculated at the time the Affordable Housing Profile (AHP) is signed by ARO Project Manager, using the fee that is effective at that time. However, if payment is not made before the fee has been annually adjusted, the fee will be recalculated to the updated in lieu fee amount.
