UTILIZING JOC FOR CITY CONSTRUCTION PROJECTS

For the proposed projects please complete items 1 and 2 below. As appropriate, complete items 3, 4 and 5

(Attach to the MOA)

1. Please describe the major features of the project:

The expansion joints in the Irving Park Road bridge over the Chicago River need replacement. Due to restrictions of the waterway below, specialized equipment is needed to access the joints. This can not be performed by City Forces and is not covered by an existing term agreement. It is for these items that we are requesting the use of a Job Order Contract.

2. Please explain why this project could not be bid using the City's traditional bid process and the need to use the JOC procurement system:

The project entails a relatively small scope of work. It would not be time or cost effective for us to perform the work through the City's traditional bid process.

3. If this project is a one trade project, please provide additional explanation of why it would be in the City's best interest to do the project under JOC:

N.A.

4. If it is anticipated that over 25 % of the project will be non-prepriced , please provide an explanation on why JOC should be used:

N.A.

5. If some elements of the proposed JOC project scope of work are covered by City Term Agreements, these elements should be removed from the JOC project scope of work. If it is not desirable to do so, please explain:

N.A.
