Utilizing JOC For City Construction Projects

Household Hazardous Waste Facility
1150 N. Northbranch

Project No: JTP619.C

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3,4 and 5. Attach to MOA (JOC Approval Letter)

1 Please describe the major features of this project.

paint existing steel to weather proof to avoid rusting & removal of steel plates to inspect condition of existing floor

2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.

Project is extremely time sensitive and JOC represents the quickest procurement method. By having the Hazardous Waste Facility up and running in 2005, the City of Chicago will save a lot of money in the long run. The state EPA has set money aside in 2005 for the disposal of all hazardous materials collected at this facility. The state EPA will continue to pay the disposal costs as long as the facility is in operation. However, if the collection facility is not operational during 2005 and none of the state money is used, it is feared that the money will not be available in the following years and the City of Chicago will have to pay all applicable disposal costs.

3. If the project is a one trade project, please provide additional explanation of why it would not be in the city's best interest to do the project under JOC.

even though this phase of the project is two trades, project as a whole is multi-trade.

4. If it is anticipated that over 25% of the project will consist of Non-prepriced items, please provide an explanation on why JOC should be used.

all items should be prepriced out of book

5. If some elements of the proposed JOC Project scope of work are covered by city term agreements, these elements should be removed from the JOC Project.
