#### Utilizing JOC For City Construction Projects

Project Number: 05-84-7-010 Department: Transportation  
Project Manager: Chris Rothstein Telephone #: (312) 742-3518

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3,4 and 5.  
Attach to MOA (JOC Approval Letter)

**1. Please describe the major features of this project.**

There are faulty system panels at the job site. The Metasys security system and the ETS 2 fire panel are malfunctioning. The scope of this job has drastically changed from original thoughts that it was just a troubleshooting issue. The panels now need to be replaced, as well as additional technologies added to properly ensure the system will be up and running and functioning properly. This is why the proposal amount has risen to a much higher dollar amount.

**2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.**

The scope of work is difficult to define and the project itself is too small to be preformed in a traditional billing method.

**3. If the project is a one trade project, please provide additional explanation of why it would be in the city's best interest to do the project under JOC:**

Multi-trade

**4. If it is anticipated that over 25% of the project will consist of Non-prepiced items, please provide an explanation on why JOC should be used.**

N/A

**5. If some elements of the proposed JOC project scope of work are covered by city term agreements, explain why they are included in this JOC project instead of being procured through the term agreements.**
