RE: JOC Project Number: 11-84-9-012
Project Title: N Lake Shore Drive Emergency Access
Estimated Cost: \$200,000.00
P.O. Number: MQ Construction Company - 15878
Contractor: MQ Construction Company
Funding Source: TBD

DATE: October 12, 2011

Division of Engineering recommends the above referenced project be contracted under Job Order Contracting (JOC) method.

Description of JOC Project:

OEMC is in the process of finalizing the Lake Shore Drive Emergency Closure Operations Plan. CDOT is responsible for the installation of two (2) emergency vehicular access points on North Lake Shore Drive (between Oak Street and Fullerton Parkway). The purpose of these emergency access points in the median is to provide two locations where emergency vehicles can change direction to better respond to emergencies rather than having to go to the next exit to get off/get back on to go in the opposite direction.

The potential emergencies include extreme weather conditions, multiple-car traffic accidents or significant events or incidents. Limiting emergency vehicle access could be detrimental to ambulance, fire, OEMC or other mobilization.

The work would entail the removal of existing median or planter, possible reroute of utilities, restoration of pavement/adjacent concrete, and installation of emergency access barriers (specialized gates).

Is this additional work on an existing JOC Project - Yes or No:

No

Has the work been completed for this JOC Project? - Yes or No:

No

Method of Selection for JOC Contractor:

N/A

Prior approval to start JOC work:

N/A

Did work start prior to submission of Memorandum of Authorization - (MOA):

No

Project Manager: Charlene Walsh

Telephone #: (312) 742-3244

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3,4 and 5. Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.

OEMC is in the process of finalizing the Lake Shore Drive Emergency Closure Operations Plan. CDOT is responsible for the installation of two (2) emergency vehicular access points on North Lake Shore Drive (between Oak Street and Fullerton Parkway). The purpose of these emergency access points in the median is to provide two locations where emergency vehicles can change direction to better respond to emergencies rather than having to go to the next exit to get off/get back on to go in the opposite direction.

The potential emergencies include extreme weather conditions, multiple-car traffic accidents or significant events or incidents. Limiting emergency vehicle access could be detrimental to ambulance, fire, OEMC or other mobilization.

The work would entail the removal of existing median or planter, possible reroute of utilities, restoration of pavement/adjacent concrete, and installation of emergency access barriers (specialized gates).

2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.

In-House forces do not have the crews immediately available to complete this work to coincide with OEMC's implementation of the Lake Shore Drive Emergency Closure Operations Plan in October 2011. Additionally, work needs to be completed in a short time span from start to finish reducing the impacts to traffic on Lake Shore Drive and minimizing any safety concerns. This work is not covered by an existing term agreement.

3. If the project is a one trade project, please provide additional explanation of why it would be in the city's best interest to do the project under JOC:

N/A

4. If it is anticipated that over 25% of the project will consist of Non-prepriced items, please provide an explanation on why JOC should be used.

N/A

5. If some elements of the proposed JOC project scope of work are covered by city term agreements, explain why they are included in this JOC project instead of being procured through the term agreements.

To: O'Reilly, Beth

Cc: Yonan, John

Subject: Funding Request

Two situations we are requesting funding to address with emergency JOC contracts.

North Lake Shore Drive - Emergency (whiteout) evacuation provisions:

1. Provide a removable barrier in the median between North Ave and Fullerton.
2. Remove a section of planter and provide a removable median barrier between Division and North Ave.

Estimate \$200K

Notes: Directive per Mayor's Office, OEMC and Streets and San.

Michigan and Randolph Metra Station:

We received a notification from Metra of water pouring in the station. The expansion joint between Grant Park Garage and the Station and some of the surrounding pavement are failed and allowing rain water to drain directly into the station. We checked the Parking Agreement and we have the maintenance of the joints.

Estimate \$200 K

Notes: This is a mess. 20K people per day walk thru there. It's closing down vendors and part of Michigan Ave underpass. We can't reasonably defer this.

(I know, our timing is terrible)

Thanks
