Subject: RE: Partnership for Healthy Cities Air Quality Surveillance Workshop – London

Hi Steve,

I left Chicago Sunday, July 9, and returned from London last Friday, July 14, 2023. The workshop started on July 11 and ended on July 13. I flew back to Chicago the next day at 11:00 am, London time. I gave a presentation but was not compensated for it nor received anything for attending the workshop. The accommodation included free breakfast and we were provided lunch on workshop days. Also, on one of the days, the sponsor gave us an all-day bus/train pass for free as we had to travel to a community center several miles away. I bore all other meal and travel expenses. I also elected not to receive a per diem for the trip.

Please let me know if you have any questions or require additional information.

Thank you.
