Subject: FLETC Leadership Class Summary

Hi Rich,

Just wanted to give you a rundown on the two weeks I was in Glynco, Georgia for the leadership class which provided content on different leadership skills and experiences and how to bring those forth to employ in their current jurisdictions. How to problem solve and collaborate with different agencies, how to foster a positive and not only physically but mentally safe work environment for their employees. Lecturers not only included experts on this topic but also Law Enforcement Officials who gave their personal experiences during critical incidents and how they were mitigated so the attendees could take those experiences, learn from them, and provide whatever training was necessary for their departments moving forward. This class was provided by the DHSLA (Department of Homeland Security Leadership Academy) which funded the tuition for the class, travel/flights, and lodging, My three 24 hour work shifts were also covered under DHS (Department of Homeland Security) which provides grants to local, state, and federal agencies for training under UASI (Urban Area Security Initiative). I attended from August 6th, 2023- August 17th, 2023. If you need any other info, Please let me know.

Thank you,
Kristin McCluskey
Chicago Fire Department
