**RE: Sewer Main Replacement Project #7013**

Dear Neighbor,

In coordination with Mayor Rahm Emanuel's "Building a New Chicago" infrastructure improvement program, and at Alderman Burnett's request, I would like to provide you with information about an upcoming sewer main construction project in your neighborhood.

In May, Department of Water Management crews will begin work to install a new sewer main in W. Jackson Boulevard, from California to Francisco. The old sewer dates back to 1882 and needs to be replaced.

This project will require the full continuous closure of the intersection of Jackson and California for approximately one week while we replace the existing sewer. California Avenue traffic will be detoured via Madison - Western - Van Buren (southbound) or Harrison (northbound). Following the intersection work, Jackson will remain closed for approximately three additional weeks between Jackson and Francisco. Jackson Boulevard traffic will be detoured via Western - Madison - Sacramento. Otherwise, when we are working in the street, we may close it to traffic for safety reasons, but you will always be able to reach your home or business. Outside of working hours, a travel lane will be left open for local traffic only.

We will post our work area for "No Parking" as needed during work hours (generally 7am-4pm). We are agreeable to parking outside of those hours, but cars will need to be moved by the start of the next workday. We will try to preserve as much parking as possible.

We know that construction always involves inconveniences and noise. We will do everything possible to maintain your quality of life throughout these projects, and conducting ourselves as good and thoughtful neighbors in the course of our presence on your street.

Should you have any questions or concerns, you can either ask the construction foreman during the project, or call any of the following numbers:

- 24-Hour Service and Information Line: 311
- 27th Ward Office: 312-432-1995
- DWM Office of Public Affairs: 312-744-6635

Lastly, if you don't already have one, I ask you to consider the installation of a water meter in your home to help you save money on your water bill. For more information on this free program, go to [www.metersave.org](http://www.metersave.org).

Thank you in advance for your patience and cooperation during this important infrastructure improvement project.

Sincerely,

Thomas Powers  
Commissioner
