

## APPROVED VEHICLES FOR CITY LICENSED LIVERIES

Updated October 24, 2013

The following is a list of approved vehicles that may be used as a City of Chicago licensed livery. BACP recommends that livery licensees FIRST confirm that the vehicle is on the most current approved list for use as a licensed livery vehicle BEFORE buying the vehicle.

► NOTE: this list is frequently updated and a vehicle not listed on the most current approved list will not be licensed as a livery even if it may have been listed on an outdated list.

If a vehicle is not listed below and meets the following criteria, submit a **Public Passenger Vehicle Review Application for Liveries** form available at [www.cityofchicago.org/bacp](http://www.cityofchicago.org/bacp). Vehicles shall be subject to all applicable provisions of Chapters 9-104, 9-112, and 9-114, as applicable, of the Chicago Municipal Code as well as all rules and regulations properly promulgated pursuant to Chapters 9-104, 9-112, and 9-114.

Effective June 5, 2013, BACP will use the following criteria to determine which make, model, and year of vehicle may be licensed as a livery:

1. No vehicles having a manufacturer's rated seating capacity of ten or more persons, including the driver, shall be licensed as liveries.
2. A "large car" or "luxury car":
  - a. "Large car" is defined as having an interior passenger volume index greater than or equal to 120 cubic feet.
  - b. "Luxury car" is classified and published by the United States Department of Energy / United States Environmental Protection Agency at the Web page [www.fueleconomy.gov](http://www.fueleconomy.gov).
3. Vehicles modified beyond manufacturer's original wheelbase must have the modification performed at a certified manufacturer's modification shop and must meet the specifications of the vehicle's manufacturer.

MANUFACTURER	MODEL	YEAR	HYBRID OPTION
Acura	MDX	2011-2014
