

Prenatal care and attendant-at-birth data reported in the Birth Outcomes and Infant Mortality, 1993–2002 were found to be incorrect and have been corrected in the online edition of the report.

Executive Summary points 4, p. ii, should read:

- ✓ Timely initiation of prenatal care in the first trimester improved overall from 70.8 percent in 1993 to 80.2 by 2002. However, early initiation of prenatal care for non-Hispanic Blacks by 2002 (80.2 percent) has not reached the level of non-Hispanic Whites in 1993 (83.6 percent) (Table 3.2).

Table 3.2 and Table 3.3, p.15, should read:

<b>Table 3.2 Percentage of Births with Early Initiation of Prenatal Care, Chicago Residents by Maternal Ethnicity, 1993– 2002</b>								
Year	NH Asian	NH Black	NH Native American	NH White	All Hispanics	Mexican	Puerto Rican	Total Population
