This project was supported by Grant # 2004-VA-GX-0046, awarded by the Office for Victims of Crime, Office of Justice Programs, U.S. Department of Justice, through the Illinois Criminal Justice Information Authority. Points of view or opinions contained within this document are those of the author and do not necessarily represent the official position or policies of the U.S. Department of justice, or the Illinois Criminal Justice Information Authority.

INTRODUCTION

CITY OF CHICAGO DOMESTIC VIOLENCE HELP LINE

The City of Chicago Domestic Violence Help Line operates 24-hours, 7 days a week, and is a toll free, confidential and multi-lingual telephone service that functions as a clearinghouse to domestic violence services in the metropolitan Chicago area. Established in 1998, the City of Chicago Mayor's Office on Domestic Violence contracts with the Metropolitan Battered Women's Network to staff the Help Line. Callers to the Help Line are provided with general domestic violence information, referrals to appropriate domestic violence services, and a three-way phone linkage between the caller and the domestic violence provider agency. Trained domestic violence advocates (Victim Information and Referral Advocates or VIRAs) provide victims with immediate information about their options, information on safety planning, and referrals to community based providers including shelters, counseling services, legal advocacy services, and civil legal services. Bi-lingual and bi-cultural Spanish speaking VIRAs are always available and operators can access the Language Line for over 140 other languages. A TTY is available for speech and hearing impaired callers. The Help Line operates on two centralized databases. The first database allows the VIRA to record case specific information (not victim identifying information) including demographic information and service need information. The database provides the caller with a unique call ID number to refer to during any subsequent calls to the Help Line. The second is a searchable database of domestic violence service provider programs in the Chicago metropolitan area. Callers are matched to services based on the ZIP code provided by the caller and their identified service need.

CHICAGO ZIP CODE AREA PROFILES

This is the fourth annual report of "Profiles" released on The City of Chicago Domestic Violence Help Line. This reports details the characteristics of victim callers to the Help Line in every ZIP code area of Chicago. The Domestic Violence Help Line receives calls from a wide variety of people across Chicago and surrounding communities. Callers request information or services not only for domestic violence but also on a wide assortment of topics. During the year 2005, the Help Line answered over twenty- thousand calls from persons in and around Chicago. Domestic violence victims represent 6,636 of the callers to the Help Line in 2005. Some victims provided ZIP codes for communities outside of Chicago city limits, for other calls a ZIP code was not provided. For this report, a particular group of callers, domestic violence victims in the Chicago area, are analyzed. This report is a summary of those 4,227 Chicago domestic violence victim callers.

The ZIP code profiles are intended for use at the community level for decision-making around the provision of domestic violence services. The purposes of the Profiles are to increase awareness and knowledge about the extent of domestic violence in the City of Chicago and to provide useful information to the domestic violence service provider community and their funding agencies to develop and refine domestic violence services in Chicago. To encourage community level responses to domestic violence this report is formatted to allow for ease in photocopying and distribution of particular sectors or ZIP code areas in your community. Calls are presented in three formats: at the City level, by Sector (North, South, Central), and by particular ZIP Code.

Data in this report reflect Chicago domestic violence victim's use of the City of Chicago Domestic Violence Help Line only and not the prevalence or incidence of domestic violence in Chicago. Many victims of domestic violence do not contact other persons about their situations. Therefore, the number of callers to the Help Line (or any other service) will be significantly lower than the actual number of victims of domestic violence in Chicago. Data for this report are obtained from the City of Chicago Domestic Violence Help Line for the year 2005. To place victim callers into context, population data were obtained from the 2000 Census. Generally, the age and race of the victim callers by ZIP code area is reflective of the age and race of all residents in that area and reflects the diversity of Chicago. The numbers of domestic violence service providers reported are those in the City of Chicago Domestic Violence Help Line in May 2006.

A variety of reports are produced from the City of Chicago Domestic Violence Help Line data. We invite you to peruse these reports on our website: http://www.cityofchicago.org/domesticviolence.

GLOSSARY/DEFINITIONS

Abuser Victim callers to the Help Line provide demographic information (age, sex, race) about their abusive partner.

- Age The VIRA records the actual age of the victim and their abuser from which the median ages are calculated. The median represents the middle point in the range of ages. This method is chosen to be consistent with the Census Bureau reporting of age. For presentation purposes, age groups were created for the Citywide and the Sector profiles.
- Census 2000 Demographics To provide context for the victim callers in the area, demographic information for the city of Chicago and each ZIP code area was obtained from the U.S. Census Bureau, Census 2000. Data was extracted using American Fact Finder on the Census Bureau website: http://www.census.gov.
- Children Victims are asked to provide the age and sex of all children living with them. Calculated for this report are the total number of victims that reported having children "Have Kids" and the total number of victims who did not report that children lived with them "No Kids." Information about children may not have been obtained or recorded therefore the number of victims without children may be slightly higher than actual. Of the victims who have children, "Total Kids" represents the total number of children of all victims in that area. The Range shows the fewest and the greatest number of children of victims in the area. The Mean N represents the average number of children per victim in this area, excluding victims without children. Finally, Kids 0-5 yrs represents the total number of children who were between the ages of 0 and 5 when the victim called the Help Line.
- **DV Providers** Many domestic violence service providers or agencies offer a variety of services to domestic violence victims. For presentation the services are grouped into broad categories based on their program's primary service provision focus. The number of programs within each geographic area is presented for the city, the three sectors, and each ZIP code (excluding shelters). Any program that was in operation for at least one month during 2002 is included. For confidentiality, shelters are only presented citywide.
- **Language** Most of the calls received by the Help Line are conducted in English, Spanish or Polish. When callers speak a language other than English or Spanish, the Language Line is utilized.
- **Loop** Included in the Loop area are all ZIP codes that are assigned by the Post Office to the area of the Loop. Also included are Post Office Boxes and ZIP codes assigned to particular buildings/businesses.
- N Represents the total. For each ZIP code area the total number of victim callers received within the ZIP code area is reported.
- Race VIRAs ask victims to select the racial category that they most identify with: Black/African American, White, Latino/Hispanic, Middle Eastern, Asian, Multi-racial, Native American or Other. Percentages for each category are reported in the Citywide and Sector profiles but because of the small numbers are grouped Black, White, Latino and Other within specific ZIP code areas.

Referral By Callers are asked who referred them to the Help Line or how they learned about the Help Line. Up to two sources of referral are recorded for each victim and the first source is reported in the profiles. For presentation, the sources of referral are grouped into seven broad categories.

Relationship Callers are asked to identify the relationship of the abuser to the victim. Callers are asked to further identify the family relationship (parent, child, uncle etc.) for relationships described as a non-intimate partner family or blood relation.

Sectors Three geographical divisions of the city based on ZIP code area were created for reporting.

Central

The central sector approximately represents the middle portion of the city. ZIP codes in this sector are 60601, 60602, 60603, 60604, 60605, 60606, 60607, 60608, 60609, 60615, 60611, 60612, 60616, 60622, 60623, 60624, 60632, 60644, 60651, 60653, 60654, 60665, 60668, 60673, 60680, 60684, 60685 and 60693.

North

The North sector approximately represents the North side of the city. ZIP codes in this sector 60613, 60614, 60618, 60625, 60626, 60630, 60631, 60634, 60639, 60640, 60641, 60645, 60646, 60647, 60656, 60657, 60659, 60660.

South

South sector approximately represents the South side of the city. ZIP codes in this sector are 60617, 60619, 60620, 60621, 60628, 60629, 60633, 60636, 60637, 60638, 60643, 60649, 60652 and 60655.

Service Need VIRAs work with victims to identify the type of service needed. For presentation purposes, these services are grouped into four broad categories. Up to two services are recorded for each victim, the Primary service need is presented in this report.

Victim

Any person who called the Domestic Violence Help Line as the result of experiencing domestic violence is considered a domestic violence victim caller. Domestic violence includes all forms of abuse including physical, emotional, mental, psychological and sexual violence. The focus of the Help Line is primarily toward intimate partner violence (current and former) however; calls are also accepted from non-intimate partner domestic violence victims (sibling, roommate etc.).

ZIP Code Callers are asked for the ZIP code of the neighborhood for services. Calls are placed into ZIP code area based on the US Postal Service listing and are geographically mapped using ARC View software. Profiles are created for each ZIP code area that received any victim calls.
