Dear Service Provider:

2011 marked the 30th year that HIV and AIDS has been part of our lives. HIV prevention and treatment efforts throughout Chicago have led to a 40% reduction in the number of HIV infections since 2000.

This is in part due to collaborative efforts between the Chicago Department of Public Health and many local and national community partners, such as yourself, all committed to preventing the spread of STIs. While we have come a long way, there is still work to be done.

One of our top priorities in *Healthy Chicago*, the City's public health agenda, is HIV prevention. One of the many prevention efforts, is providing free training courses throughout the year. The courses listed in this booklet are offered to educate and empower providers who offer STI /HIV services to at risk populations in Chicago.

I thank you for your participation and collaboration in spreading the message that STI /HIV's are preventable. Together with our community partners, we can reduce the number of reported cases and make Chicago a healthier city for residents in every neighborhood.

Sincerely,

A handwritten signature in black ink, appearing to read 'Bechara Choucair'. The signature is fluid and stylized, with a large loop at the end.

Bechara Choucair, M.D.

Commissioner

Chicago Department of Public Health

How to Register for a Class

1. Read the course descriptions enclosed and determine what courses best meet your needs. Please note that some courses have a prerequisite requirement.
2. Use the course registration form enclosed in this booklet. Registration forms are also available online <http://goo.gl/BpC6H>. Tiny url. Complete one form per person to register for classes.
3. Registration forms can be e-mailed or faxed.

Email registration forms to: Idell.Brunt@CityofChicago.org

FAX registration forms to: 312-413-5309

4. Once you register, you will receive a confirmation letter via email or fax two weeks before the training.

There are a limited number of training participants per course, so it's important to register before the course dates. You must receive a confirmation to ensure you are properly registered for the course.

About the Training Courses

Course Instructors:

Courses sponsored by the Capacity Building, Training & Technical Assistance Unit are taught by experienced professionals that are nationally certified instructor trainers. Participants will receive the most up-to-date facts, skills-building activities, and appropriate supplemental materials.

Certification:

For more information on which courses offer letters of attendance and certificates, refer to the course of interest inside this booklet. In addition, we are very proud to offer you the American Red Cross courses, which offer national certification. Please note that none of our courses offer Continuing Education Units (CEU's) or are meant to count towards any higher/continuing education requirements.

Prerequisite Requirement:

The American Red Cross Education and Prevention Courses (African American, Basic or Hispanic) **MUST** be successfully completed before registering for the following courses: HIV Prevention Counseling/Partner Services and Comprehensive Risk Counseling & Services.

Failure to Attend a Course:

Program supervisors will be notified of participants' failure to attend a course after confirming participation. If a participant confirms and cannot attend, it is expected that they call to cancel at least 24 hours in advance.

First Come First Serve Basis:

Registration is on a first come, first serve basis, with priority going to organizations currently funded by CDPH's Division of STI/HIV. Registration does not mean confirmation. There is a limited number participants per training course; therefore, it is important to register before the course dates.

Cancellation:

Capacity Building, Training & Technical Assistance Unit reserves the right to cancel classes due to insufficient registration. In such cases, notice will be given to reschedule.

To ensure the integrity and optimal delivery of our programming the following protocols have been established. Our goal is to consistently and appropriately uphold each protocol below to ensure you get the most out of classes.

Training Registration:

- Agencies Funded by CDPH's STI/HIV Division are given priority in course registration.
- Registration is on a first come, first served basis.
- Participants must meet all course prerequisites identified.
- Course (i.e. multi-day trainings) registrations **MUST** be confirmed in writing via CDPH training staff in order to secure a space.
- Workshop (i.e. single day educational sessions) registrations will be confirmed according to varying criteria (i.e. room capacity, topic, etc.).

Time & Attendance:

- Participants must attend all sessions of each training to receive letters of attendance. It is expected that no participant shall register for a course with prior knowledge of inability to complete a course in its entirety.
- Participants must arrive to each course session on time. It is expected that participants arrive a minimum of 20 minutes prior to start time on the first day.
- Participant who arrive late will not be admitted.
- Confirmed participants who fail to complete a multi-day course will have their supervisor and/or Executive Director notified.
- Confirmed participants who are unable to participate in a given course are expected to cancel their confirmation by telephone or in writing (via email or fax) at least 24 hours in advance. Failure to comply will result in notification to the immediate supervisor and/or Executive Director.

Participation:

- Participants who disrupt and/or otherwise impair the learning process of others will be asked to leave a workshop or training as well as have their immediate supervisor/Executive Director notified.
- Participants who are unable to actively participate in a given course will be asked to reschedule when they are able to do so.
