Key Facts

The Department of General Services (DGS) is the City of Chicago's facility manager. In this capacity, it operates and maintains approximately 425 City facilities, including libraries, senior centers, police and fire stations, and health centers. The department provides in-house carpentry, painting, and other professional trade services. Large renovation projects, security, landscaping, and custodial services are provided by outside contractors.

DGS purchases approximately \$100M of citywide natural gas and electricity annually, monitors energy consumption, and develops policies to reduce energy consumption.

DGS is also responsible for managing the City's office, warehouse, and leased space. Our goal is to maximize the use of city-owned space and reduce the use of leased space.

DGS has a fully equipped in-house graphics agency which provides design, copy, print, finishing and photographic services to more than 80 City departments and Sister Agencies.

Goals

- Continue to reduce energy costs by maximizing contractual opportunities and implementing policies to reduce energy consumption.
- Implement an inventory control system for the Bureau of Trades & Engineering to expedite projects.
- Continue to maximize the use of city owned space and reduce leased space.
