Cohort

Organization: Rush and UIC

Co-led by faculty
from Colleges of
Medicine and
Nursing

Staffing evolved
with time and
needs

Coordinate site
scheduling with
CDPH and Rush
University

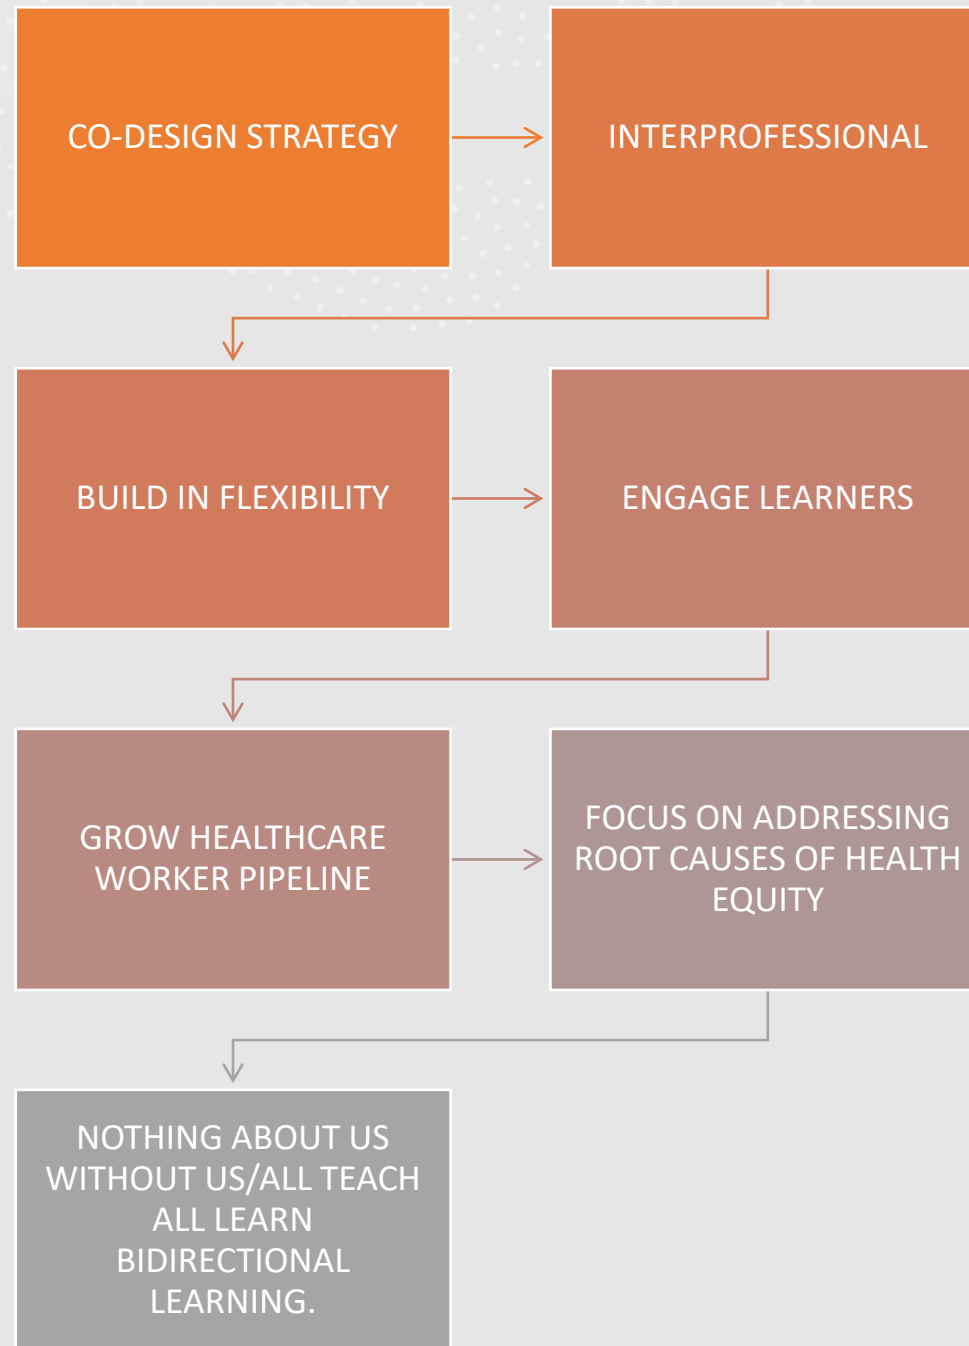

Collaboration

Key components of public health – academic medical center partnerships

Mpox response

- Over **9000 people** vaccinated
- **Partnerships** with over ten community organizations
- **Collaboration** between Chicago Dept of Public Health, UIC, and RUSH

TaskForce Prevention & Community Services
The premier organization serving LGBTQ+ youth on Chicago's West Side

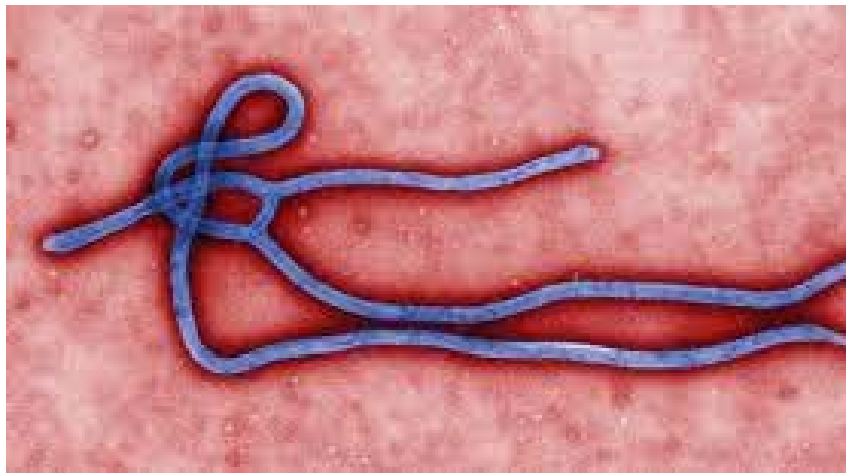

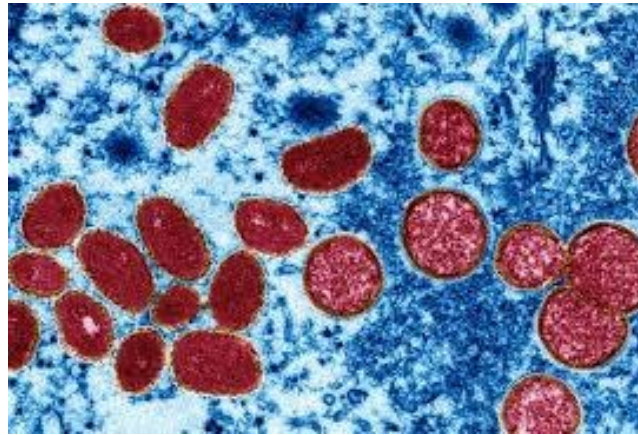

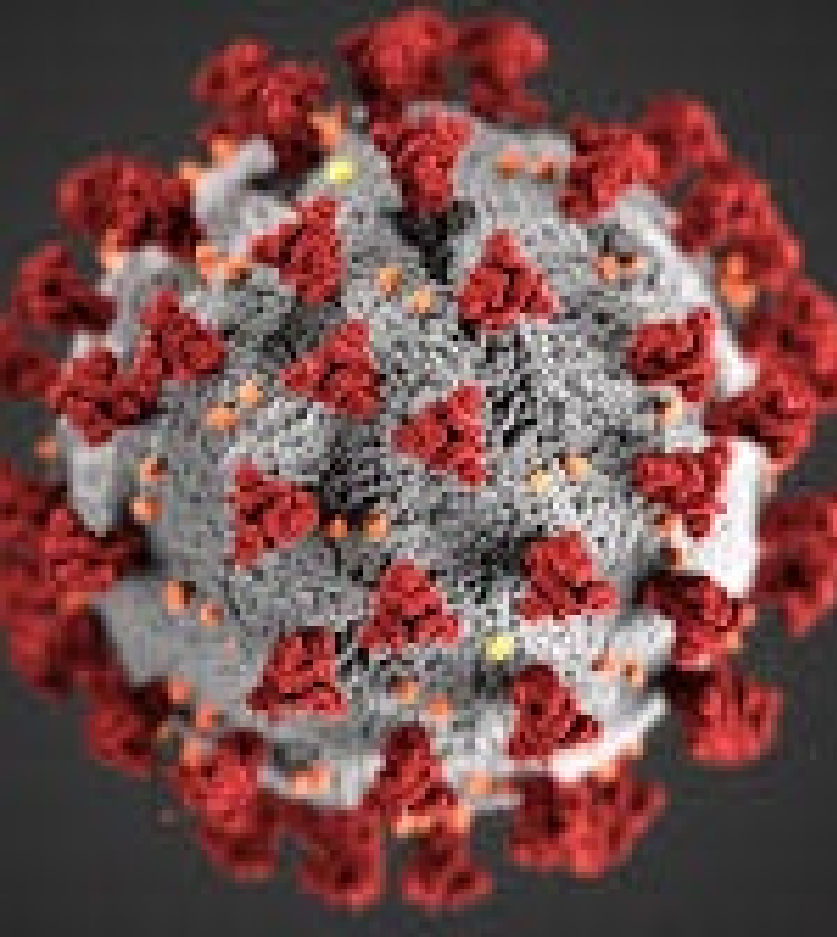

CENTER
ON 3656 N.
HALSTED
15 YEARS OF PRIDE

SWOP-Chicago

NEFUSE

Expansion of Services

- 2020-July 1, 2022: Focus on Covid-19 response in congregate settings
- July 2022-present
 - COVID-19
 - Influenza
 - MPOX
 - Shigella
 - Ebola
 - MDRO testing

Looking to the future

Public health – academic medical center partnerships create **infrastructure** to rapidly respond to public health crises

Through **collaboration**, partnerships address root causes of health inequity

As educational institutions, academic medical centers grow the **healthcare worker pipeline** and develop future public health leaders
