1. Executive Summary

In May 1999, *S. B. Friedman & Company* was engaged by the City of Chicago (the “City”) to conduct a Tax Increment Financing Eligibility Study and prepare a Redevelopment Plan and Project (the “Redevelopment Plan”). This report details the eligibility factors found within the Central West Redevelopment Project Area (the “RPA”) Tax Increment Financing (“TIF”) District in support of its designation as a “conservation area” within the definitions set forth in the Illinois Tax Increment Allocation Redevelopment Act, 65 ILCS 5/11-74.4-1 et seq., as amended (the “Act”). This report also contains the Redevelopment Plan and Project for the Central West RPA.

The Central West RPA is located within the Near West Side community area and consists of 2,094 tax parcels on 110 blocks and contains approximately 463 acres of land.

Determination of Eligibility

This report concludes that the Central West RPA is eligible for TIF designation as a “conservation area” because 50% or more of the structures in the area have an age of 35 years or more and because the following eligibility factors have been found to be present to a major extent:

- Depreciation of Physical Maintenance;
- Deterioration;
- Structures Below Minimum Code;
- Inadequate Utilities; and
- Deleterious Land Use or Layout

Additionally, two other eligibility factors are present to a minor extent and demonstrate that the Central West RPA is in a state of gradual decline through disinvestment. Left unchecked, these conditions could accelerate the decline of the community and, combined with those factors that have been documented to be present to a major extent, could lead to more widespread and intensive disinvestment. These factors are:

- Obsolescence
- Excessive Vacancies

Redevelopment Plan Goal, Objectives, and Strategies

The overall goal of the Redevelopment Plan is to reduce or eliminate conditions that qualify the Central West RPA as a conservation area and to provide the direction and mechanisms necessary to create a cohesive and vibrant urban mixed-use community. Redevelopment of the RPA will reduce the number of underutilized properties within the RPA, improve the relationship between the area’s diverse land uses, and induce redevelopment opportunities. This goal is to be achieved through an integrated and comprehensive strategy that leverages public resources to stimulate additional private investment.

Objectives. Ten (10) broad objectives support the overall goal of area-wide revitalization of the Central West RPA. These include:

1. Facilitate the assembly, preparation, and marketing of vacant and underutilized sites for new retail, commercial, and residential development, as well as off-street parking areas;
2. Remediate environmental problems to provide additional land for new retail, commercial, and residential development and redevelopment, as appropriate;
3. Facilitate the preservation and/or rehabilitation of residential, commercial, industrial, and architecturally or historically significant buildings and encourage the adaptive re-use of vacant, underutilized, and obsolete buildings, where appropriate;
4. Support the development of a variety housing types to meet the needs of households with a wide range of income levels;
5. Replace or repair infrastructure, including sidewalks, streets, curbs, gutters, and underground water and sanitary systems, to improve the overall image of the neighborhood and support new retail, commercial, and residential redevelopment;
6. Provide resources for streetscaping, landscaping, and screening/buffering elements to visually link the area's diverse land uses and create a distinct identity for the area;
7. Facilitate the improvement and expansion of existing public facilities as needed, such as schools and parks, and facilitate the development of new public facilities in appropriate locations throughout the RPA as needed and in accordance with the Redevelopment Plan;
8. Support and complement the goals and objectives of other underlying redevelopment plans and planning studies, including the Central West Redevelopment Area, Madison-Western Redevelopment Area, the Madison-Racine Redevelopment Area, Enterprise Zone 4, West Side Empowerment Zone, the Near West SNAP, and the Near West Side Area Land Use Plan, and coordinate available federal, state, and local resources to further the goals of this redevelopment plan;
9. Provide opportunities for women-owned, minority-owned, and locally-owned businesses to share in the job and construction opportunities associated with the redevelopment of the Central West RPA; and
10. Support job training programs and increase employment opportunities for area residents.

Strategies. These objectives will be implemented through four (4) specific and integrated strategies. These include:

1. **Implement Public Improvements.** A series of public improvements throughout the Central West RPA may be designed and implemented to help define and create an identity for the

area, prepare sites for anticipated private investment, and create a more conducive environment for retail, commercial, and residential development. These improvements may include new streetscaping; street and sidewalk lighting; resurfacing of alleys, sidewalks and streets; improvements and repairs to underground sewer and water infrastructure; creation of parks and open space; and other public improvements consistent with the Redevelopment Plan. These public improvements may be completed pursuant to redevelopment agreements with private entities or intergovernmental agreements with other public entities, and may include the construction, rehabilitation, renovation, or restoration of public improvements on one or more parcels;

2. **Develop Vacant and Underutilized Sites.** The redevelopment of vacant and underutilized sites within the Central West RPA is expected to improve the overall image and value of property within the RPA;
3. **Encourage Private Sector Activities and Support New Development.** The City may provide financial and other assistance to encourage the private sector to undertake redevelopment and rehabilitation projects within the RPA. In order to facilitate private investment, the City may enter into agreements within the limits of the Act to facilitate and support projects that support the goals, objectives, and strategies of this Redevelopment Plan;
4. **Facilitate Property Assembly, Demolition, and Site Preparation.** Vacant and underutilized sites listed in Appendix 3 may be acquired and assembled by the City to attract future private investment and development. The consolidated ownership of these sites will make them easier to market to potential developers and will streamline the redevelopment process. In addition, assistance may be provided to private developers seeking to acquire land and assemble sites in order to undertake projects supportive of this Redevelopment Plan.

Required Findings

The required conditions for the adoption of the Redevelopment Plan and Project are found to be present within the Central West RPA.

First, while some market-based investment has occurred in the Central West RPA between 1994 and 1998, this investment has been minimal in scope and not part of any coordinated development strategy. Much of the growth in Equalized Assessed Valuation ("EAV") during this period of time was limited to a small number of high-growth parcels whose 1998 assessed values were greater than \$100,000 and whose assessments grew 30% or more during the study period. These high-growth parcels represent less than one percent (.7%) of all parcels within the RPA and account for approximately 26% of the RPA's total growth in EAV. An additional 3% of the parcels within the RPA grew in value as a result of public subsidy. These properties accounted for 13% of the total growth in EAV during this period of time. Combined, the high-growth and publically subsidized parcels have had minimal impact on the taxable value of surrounding properties. Excluding these parcels, the compound annual growth rate of EAV in the RPA was 2.88% between 1994 and 1998. This is 6% lower than the 3.06% growth experienced by the City of Chicago during this period and 23% lower than the 3.74% growth rate experienced by West Chicago Township.

As another method to examine the scope of new investment in the Central West RPA, *S. B. Friedman & Company* examined building permit data provided by the City of Chicago Department of Buildings for the period January 1994 to December 1998. This data revealed that 501 permits totaling \$67.7 million were issued within the Central West RPA. Approximately 90 of these permits were for building demolition and 32 were for Code Compliance. The remaining 379 were for new construction, rehabilitation, mechanical upgrades, or minor repairs not in response to code violations. Of these, approximately \$39.3 million (60%) was publicly initiated and \$13.4 million (21%) required some type of public assistance. Overall, it is estimated that approximately \$12.5 million of the \$65.2 million in new investment (excluding demolitions and code compliance permits) in the RPA (19%) was completed by the private sector on its own, without public mandate or subsidy. This represents \$2.5 million per year, or approximately 2.6% of the total market value of all property within the TIF district. At this rate, it would take a substantial amount of time to replace all of the existing value in the RPA.

Second, without the support of public resources, the redevelopment objectives of the Central West RPA will most likely not be realized. Because of the extensive scope of area-wide improvements and development needed to re-establish the Central West RPA as an active and vibrant mixed-use district, the private market would not likely be able to absorb these costs without assistance. TIF assistance may be used to fund land assembly, site preparation, infrastructure improvements, improvements and expansions to public facilities, and building rehabilitation. But for creation of the Central West RPA, these types of projects, which would contribute substantially to area-wide redevelopment, are unlikely to occur without the benefits associated with the designation of the Central West RPA as a tax increment financing district.

Third, the Central West RPA includes only those contiguous parcels of real property that are expected to substantially benefit from the proposed Redevelopment Plan Improvements.

Finally, the proposed land uses described in this Redevelopment Plan will be approved by the Chicago Plan Commission prior to its adoption by the City Council. The redevelopment opportunities identified in earlier area planning initiatives will be substantially supported and their implementation facilitated through the creation of the Redevelopment Plan.

2. Introduction

The Study Area

This document serves as the eligibility study (“Eligibility Study”) and Redevelopment Plan and Project for the Central West Redevelopment Project Area. The Central West RPA is located within the Near West Side community area of the City of Chicago (the “City”), in Cook County (the “County”). In May 1999, *S. B. Friedman & Company* was engaged by the City to conduct a study of certain properties in this neighborhood to determine whether the area containing these properties would qualify for status as a “blighted area” and/or “conservation area” under the Act.

The community context of the Central West RPA is detailed on Map 1.

The Central West RPA consists of 2,094 tax parcels on 110 blocks and contains approximately 463 acres of land. The RPA is irregularly shaped and is generally bounded by W. Madison and W. Lake Streets on the north; S. Peoria Street and N. Ogden Avenue on the east; W. Van Buren Street on the south; and Western Avenue on the west.

Map 2 details the boundary of the Central West RPA which includes only those contiguous parcels of real property that are expected to substantially benefit from the Redevelopment Plan improvements discussed herein. The boundaries encompass a mixed-use area containing commercial, residential, industrial, and public/institutional land uses that serve the surrounding neighborhood. As a whole, the area suffers from inadequate utilities, depreciated and deteriorated buildings and infrastructure, and incompatible land uses that lack adequate buffering and screening elements. Without a comprehensive approach to address these issues, the RPA could fall into further disrepair, thereby minimizing future development opportunities. The redevelopment plan addresses these issues by providing resources for repairs and improvements to the area’s infrastructure and public facilities, streetscaping, and screening/buffering elements. These area-wide improvements will benefit all of the property within the RPA.

The United Center and its associated parking lots were not included within the boundary of the RPA because they do not qualify according to the eligibility criteria set forth in the Act.

Appendix 1 contains the legal description of the Central West RPA.

The Eligibility Study covers events and conditions that exist and that were determined to support the designation of the Central West RPA as a “conservation area” under the Act at the completion of our research on August 11, 1999 and not thereafter. These events or conditions include, without limitation, governmental actions and additional developments.

This Eligibility Study and Redevelopment Plan summarizes the analysis and findings of the consultant’s work, which, unless otherwise noted, is solely the responsibility of *S. B. Friedman & Company*. The City is entitled to rely on the findings and conclusions of the Redevelopment Plan in designating the Central West RPA as a redevelopment project area under the Act. *S. B. Friedman & Company* has prepared this Redevelopment Plan with the understanding that the City would rely

(1) on the findings and conclusions of the Redevelopment Plan in proceeding with the designation of the Central West RPA and the adoption and implementation of the Redevelopment Plan, and (2) on the fact that *S. B. Friedman & Company* has obtained the necessary information including, without limitation, information relating to the equalized assessed value of parcels comprising the Central West RPA, so that the Redevelopment Plan will comply with the Act and that the Central West RPA can be designated as a redevelopment project area in compliance with the Act.

History of Area¹

The Central West RPA is located within the Near West Side Community Area which is generally bounded by Kinzie Street on the north; 16th Street on the south; the Chicago River on the east; and the Baltimore and Ohio Chicago Terminal Railroad (located between Western Avenue and California Street) on the west.

Development in the Near West Community Area began in the early 1800s as a manufacturing center, with lumber yards, foundries, and flour mills on the east bank of the Chicago River. During this time, small wooden cottages were built along the river to accommodate the growing immigrant population. The area was annexed by the City of Chicago in 1851, and throughout the 1860s the population of the area tripled to over 160,000 people. After annexing the Near West Side, the City bridged the river at Polk Street and laid sewer and gas lines farther west to Western Avenue. This facilitated new residential development west of Ashland Avenue to accommodate workers of the industrial and manufacturing businesses to the east. During this time, mansions were built along Jackson Boulevard, Adams Street, and Ashland Avenue. These actions, coupled with the large influx of refugees from other areas of the City that had been displaced by the Chicago fire in 1871, caused the area to reach its peak population of 200,000 in the late 1870s.

By the early 1900s, the Near West Side community was built to capacity. However, the area also was badly overcrowded and its residents were poorly housed. The poverty and deterioration that had emerged in the area led to population loss and further deterioration throughout the 1910s and 1920s. These trends continued into the 1930s and 40s, ushering in a new period of public housing construction in the area to provide quality low-income housing for area residents. From 1930 to 1960, several large-scale public housing projects were built in and around the Central West RPA including Jane Addams Homes, Grace Abbott homes, and Henry Horner Homes. Today, twenty percent of the Near West Side's housing stock is publically-owned, one of the highest percentages in the City.

By 1950 Madison Street had become established as the commercial center of the Near West Side, particularly the mile between Halsted Street and Ashland Avenue. However, throughout the 1950s, transient hotels, cheap restaurants, and taverns moved into the area and Madison Street soon became known as "skid row." Also during this time, the aging mansions along Ashland Avenue were converted to boarding houses or business uses due to population loss.

¹Information on the history of the Near West Side community was derived from the Local Community Fact Book Chicago Metropolitan Area 1990, edited by the Chicago Fact Book Consortium, (copyright 1995, Board of Trustees of the University of Illinois) at pages 95-97 and 98-99 respectively.

Change has characterized the Near West Side during the second half of the Twentieth Century. In the 1940s, the Illinois State Legislature approved the development of the area immediately south of Harrison Street as a central medical district for the City. Cook County Hospital, a Veteran's Administration Hospital, and RUSH medical center all would eventually locate to the area, followed by the University of Illinois Chicago Campus. This new institutional community took over land previously occupied by the Hull House Complex and an older immigrant community. During the 1950s and 1960s, the growth of the medical campus and later the university, and the construction of the interstate highways displaced many area residents, causing a reduction of the Near West Side's population.

In 1968, after the assassination of Reverend Martin Luther King, a series of riots occurred in cities across the United States. In Chicago, the center of these riots was the West Side. Several fires were started in the northwest corner of the community, particularly along Madison Street between Damen Avenue and Ashland Avenue. Not only did these fires displace the population of the Near West Side, but they created large tracts of vacant land which still remain today.

Statistics suggest that the Near West Side's population continued to decline throughout the 1970s and 1980s. The 1990 population for the Near West Side community area was 46,197, less than one third of its 1950 population. Twenty percent (20%) of the resident workforce was unemployed in 1990, with a majority of families living below the poverty level. Within the Central West RPA specifically, 58% of families live below the poverty line, with some census tracts having rates of up to 87%.

The physical condition of the community also has deteriorated over the years. Many of the industrial and warehouse buildings in the area are outdated and economically obsolete, large tracts of vacant land are interspersed with buildings in the northwest portion of the RPA, and many of the buildings and the infrastructure throughout the redevelopment area have depreciated and are in need of repair. The age of most of the water mains and all of the sewer lines is greater than 100 years. Much of this infrastructure even predates the Chicago Fire of 1871. In addition, there is little or no buffering or screening between residential, commercial or industrial uses east of Ashland Avenue. Designating the area as a tax increment financing district will provide resources to address these issues.

Existing Land Use

Based upon *S. B. Friedman & Company's* research, seven (7) land use patterns have been identified within the Central West RPA:

- Residential;
- Commercial;
- Public/Institutional (including public facilities, social services, religious buildings);
- Parks and Recreation;
- Industrial/Warehouse;
- Vacant Land; and
- Mixed Uses

The existing land use pattern in the Central West RPA is shown in Map 3. This map represents the predominant land use in the area on a block-by-block basis. The predominant land use displayed is not necessarily the only land use present on a given block. Almost all blocks within the RPA contain more than one land use. The mixed-use designation is used in those areas where no one land use category predominates. These areas contain two or more of the following land uses: residential, commercial, institutional, industrial/warehouse, or vacant land.

The Central West RPA contains a mix of land uses. There are three distinct land use areas that can be defined, each with its own land-use mix and character. In the area west of Ashland Avenue, the predominant land use is residential, containing single-family homes, duplexes, and two-flats, and several publically-subsidized housing developments. Publically- and privately-owned parking lots also are located in this area around the United Center and several large institutional buildings are located south of Adams Street, including Malcolm X College and hospital-related office buildings. The central portion of the RPA from Ashland Avenue to Throop Street contains a cluster of institutional land uses. East of Throop Street, the RPA contains a mix of larger mid-rise warehouse and distribution facilities, and commercial land uses. Many of these buildings offer opportunities for rehabilitation or redevelopment.

Residential. Residential uses are predominant on the west side of the RPA, particularly in the areas west of Damen Avenue and those properties located northeast of the United Center between Wolcott Avenue and Ashland Avenue, north of Washington Boulevard. Residential development in the RPA consists mostly of duplexes, two-flats, and brick bungalows. There are a few scattered multi-family residential buildings east of Throop Street as well as several large publicly owned or publicly assisted housing complexes, which include Henry Horner homes, Washington-Hermitage Housing Project, West Point Plaza Senior Housing, Damen Courts Apartments, St. Stephen Terrace Apartments, Van Buren Park Apartments, and Sullivan Senior Housing.

Institutional Uses. A cluster of institutional uses is located in the center of the RPA between Throop Street and Ashland Avenue. This area contains Whitney Young High School, the Chicago Police Academy, the Salvation Army complex, and Skinner Elementary School. Malcolm X College, located along Adams Street between Damen Avenue and Wood Street, also has a major presence in the RPA. Additional institutional uses, including public facilities, schools, churches, and social service agencies, are distributed throughout the RPA. The public schools within the RPA are Whitney Young High School, Skinner Elementary School, Crane Tech High School, Suder Elementary School, Spalding Elementary and High School, Brown Elementary School, Best Practice High School, Dett Elementary School, Foundations Elementary School, Herbert Elementary School, Nia Elementary School, and Wilma Rudolph Learning Center. All public facilities within the RPA are shown in Map 7.

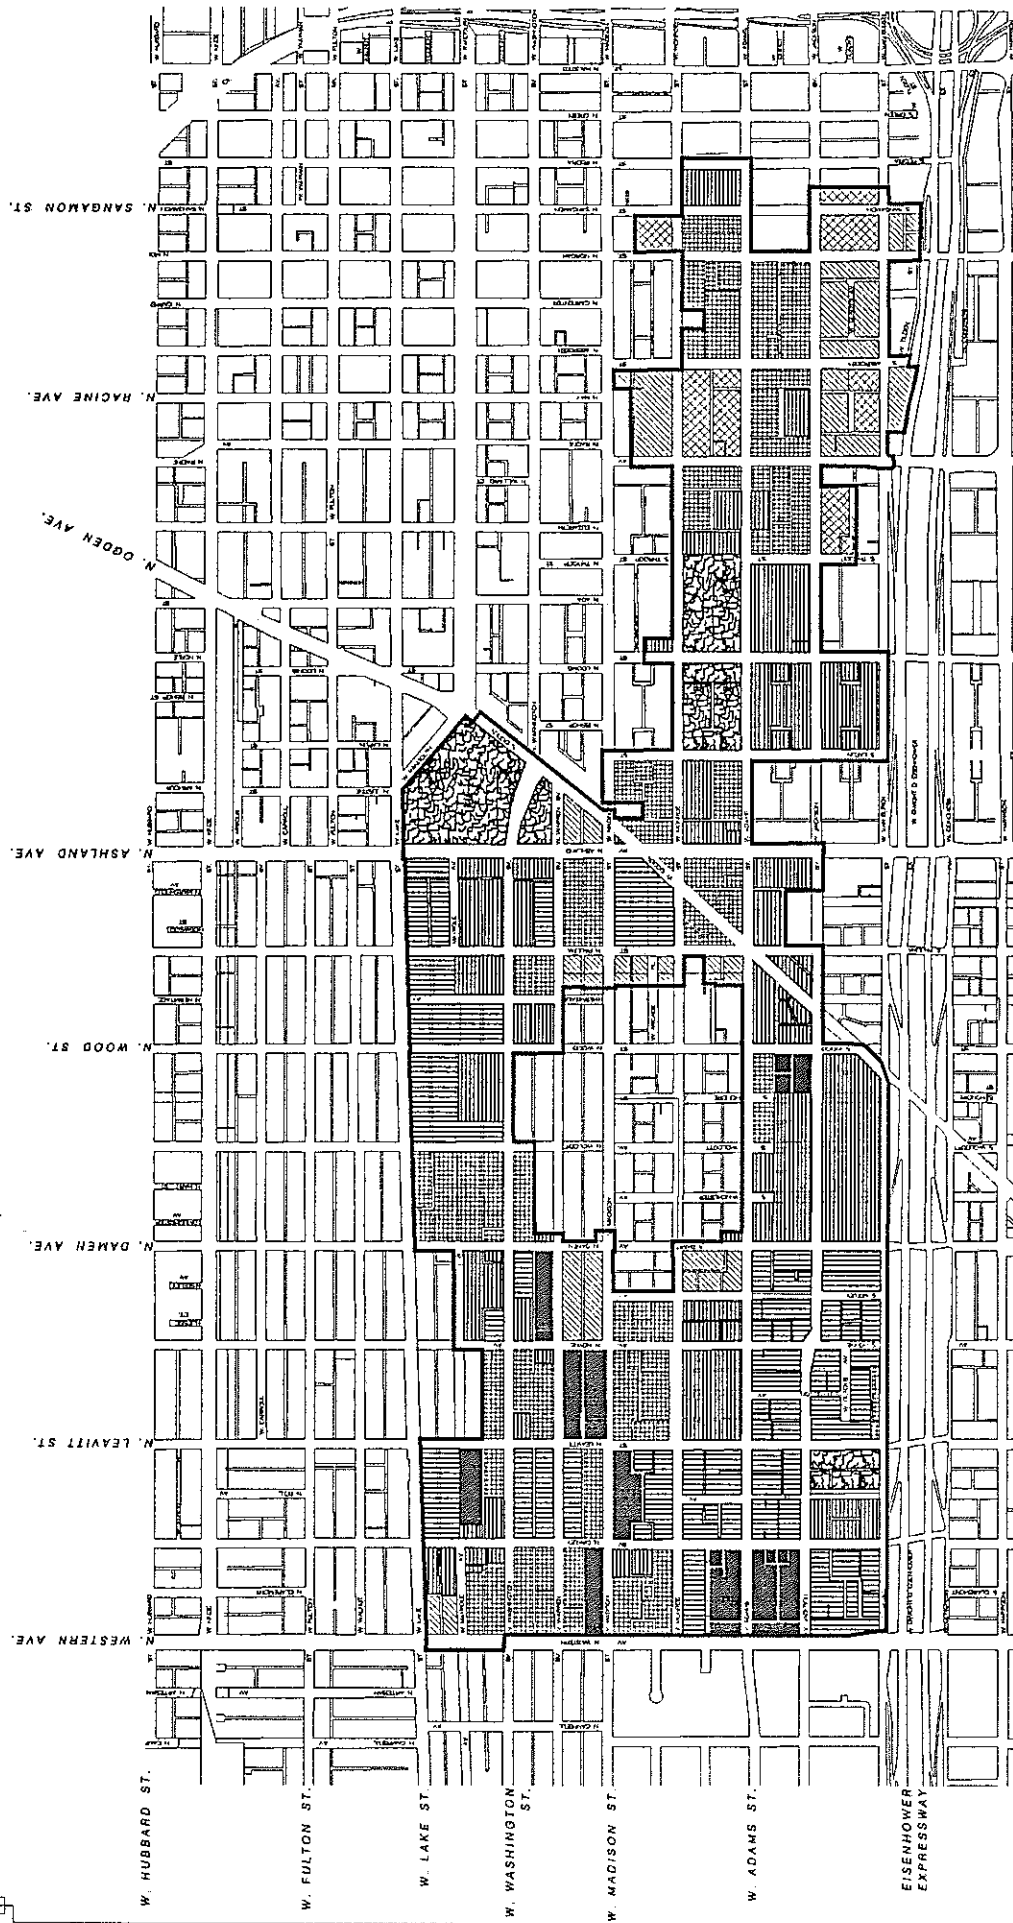

Parks and Recreation. The major open spaces within the RPA are Union Park on Randolph Street and Young/Skinner Park. There also are smaller recreational areas associated with schools throughout the west side of the RPA.

Commercial. Commercial development in the form of small office buildings and neighborhood restaurants is interspersed with industrial development on the east side of the RPA. A limited

amount of retail development is located west of Ashland along Washington Boulevard and Madison Street, as well as along Western Avenue.

Warehouse/Industrial. Warehouse/Industrial development is concentrated in the area east of Throop Street. The large Fannie May complex, located on Jackson Boulevard between Aberdeen Street and Throop Street and the Chicago Auto Works complex on Monroe Street between Racine Avenue and Aberdeen Street are two of the larger industrial developments in the area.

Vacant Land. Approximately 320, or 15 % of the 2,094 parcels within the RPA are vacant. The majority of these parcels are located on the far west side of the RPA, along Washington Boulevard, Madison Street, Adams Street, and Jackson Boulevard. While several blocks in the RPA are predominantly vacant, none are entirely vacant. Therefore, all of the blocks within the RPA were looked upon as improved for designation purposes.

3. Eligibility Analysis

Provisions of the Illinois Tax Increment Allocation Redevelopment Act

Based upon the conditions found within the Central West RPA at the completion of *S. B. Friedman & Company's* research, it has been determined that the Central West RPA meets the eligibility requirements of the Act as a conservation area. The following outlines the provisions of the Act to establish eligibility.

Under the Act, two (2) primary avenues exist to establish eligibility for an area to permit the use of tax increment financing for area redevelopment: declaring an area as a “blighted area” and/or a “conservation area.”

“Blighted areas” are those improved or vacant areas with blighting influences that are impacting the public safety, health, morals, or welfare of the community, and are substantially impairing the growth of the tax base in the area. “Conservation areas” are those improved areas which are deteriorating and declining and soon may become blighted if the deterioration is not abated.

The statutory provisions of the Act specify how a district can be designated as a “conservation” and/or “blighted area” district based upon an evidentiary finding of certain eligibility factors listed in the Act. These factors are identical for each designation with the exception that “abandonment” is an added eligibility factor under “conservation area” designation.

According to the Act, “blighted areas” must have a combination of five (5) or more of these eligibility factors acting in concert which threaten the health, safety, morals or welfare of the proposed district. “Conservation areas” must have a minimum of 50% of the total structures within the area aged 35 years or older, plus a combination of three (3) or more additional eligibility factors which are detrimental to the public safety, health, morals, or welfare and which could result in such an area becoming a blighted area.

The factors are listed at 65 ILCS 5/11-74.4-3 (a) and (b) and are defined for purposes of this Redevelopment Plan (these factors are not defined in the Act) as follows:

Age of Structure. Age presumes the existence of problems or limiting conditions resulting from normal and continuous use of structures and exposure to the elements over a period of many years. These problems and conditions negatively affect building condition, adaptability, re-use, and value.

Deterioration. This is the process of basically sound structures worsening in quality due to deficiencies in primary and secondary building components. Primary components include exterior walls, foundations, roof structure, etc. Secondary components include window and door units, porches, exterior surfaces, etc. Buildings in this category generally contain defects which seriously impair the usefulness of the structure.

Deterioration of site improvements refers to physical deficiencies or disrepair to roadways, alleys, curbs, sidewalks, parking areas, and other site features which require treatment or repair beyond that

of normal maintenance.

Dilapidation. Dilapidation is an advanced stage of deterioration. Structures or improvements in this category contain critical deficiencies in structural components which are virtually uncorrectable and present a safety hazard for the occupants of the building.

Obsolescence. This is the condition or process of becoming out-of-date or non-functional for the use or uses the structure or improvement was originally designed for as evidenced by such factors as insufficient width and size, irregular shape, and random additions. Buildings are obsolete when conditions limit the use and marketability of such buildings. Site improvements are obsolete in terms of their relationship to contemporary development standards.

Illegal Use of Individual Structures. Illegal use is the presence of land uses or activities which are contrary to law and/or not permitted by municipal ordinances.

Structure Below Minimum Code. This factor represents structures containing conditions that are less than the accepted minimum standards of zoning, subdivision, fire, housing, building, or other governmental codes applicable to the property.

Excessive Vacancy. Excessive vacancy is a condition evidenced by vacant buildings or portions of buildings which are not being utilized which have an adverse impact on the area.

Abandonment. Abandoned properties are those in which the property owner has relinquished all interest and in which it is apparent that no effort will be directed toward future utilization.

Overcrowding of Structures and Community Facilities. This refers to over-intensive use of buildings, facilities and properties beyond that permitted by ordinance or capacity.

Lack of Ventilation, Light or Sanitary Facilities. These are considered to be substandard conditions which are below minimum code standards that adversely affect the health, safety and welfare of building occupants.

Inadequate Utilities. Inadequate utilities could include those that are of insufficient capacity to serve the uses in the Redevelopment Project Area, those that are deteriorated, antiquated, obsolete, or in disrepair, or those that are lacking in within the Redevelopment Project Area.

Excessive Land Coverage. Excessive land coverage is the over-intensive use of property evidenced by inadequate yards, setbacks, open space, and the crowding of buildings and accessory facilities onto a site which is out of character with the neighborhood and community as a whole and could have an adverse effect on use of a building.

Deleterious Land Use or Layout. Deleterious land use or layout refers to the configuration of lot and/or improvements which minimize opportunity for redevelopment on a particular parcel, as well as surrounding parcels, thereby minimizing redevelopment opportunities on a more area-wide basis.

Specific problems include inappropriate land use, inadequate lot frontage, irregular lot shape, insufficient vehicular access, fragmentation of ownership, and other blighting conditions which discourage development and redevelopment.

Depreciation of Physical Maintenance. This is the lack of normal maintenance of building components, but not to a degree of structural deficiency or inadequate provision for upkeep of site features and landscaping.

Lack of Community Planning. The absence of an effective planning program at the time the area was originally developed which results in physical obstacles to redevelopment, or failure to implement approved plans for the community is considered to be lack of community planning.

As explained, “blighted areas” must have a combination of five (5) or more of these eligibility factors and “conservation areas” must have a minimum of 50% of the total structures within the area aged 35 years or older, plus a combination of three (3) or more additional eligibility factors.

Under the provisions of the “blighted area” section of the Act, if the land is vacant, a combination of two (2) or more of the following factors also may be identified which combine to impact the sound growth in tax base for the proposed district.

Obsolete Platting of Vacant Land. Obsolete platting of land is the arrangement of parcels of land which is not conducive to supporting contemporary land uses evidenced by layout which is inconsistent with accepted site planning standards and development trends.

Diversity of Ownership. Diversity of ownership is when adjacent properties are owned by multiple people. This complicates the assembly of small parcels to a size that is large enough to accommodate modern types of development.

Tax and Special Assessment Delinquencies. Evidence of delinquent tax payment.

Flooding on All or Part of the Vacant Land. Poor drainage of the soil or the location of the property within a special flood hazard area makes financing or insuring the property impossible or more costly and may hinder redevelopment.

Deterioration of Structures or Site Improvements in Neighboring Areas Adjacent to the Vacant Land. Evidence of structural deterioration and area disinvestment in blocks adjacent to the vacant land may substantiate why new development had not previously occurred on the vacant parcels.

Additionally, under the “blighted area” section of the Act, eligibility may be established for those vacant areas that would have qualified as a blighted area immediately prior to becoming vacant. Under this test for establishing eligibility, building records may be reviewed to determine that a combination of five (5) or more of the 14 “blighted area” eligibility factors were present immediately prior to demolition of the area’s structures.

The vacant “blighted area” section includes five (5) other tests for establishing eligibility, but none of these are relevant to the conditions within the Central West RPA.

Methodology Overview and Determination of Eligibility

Analysis of eligibility factors was done through research involving an extensive exterior survey of all properties within the Central West RPA, as well as a review of building and property records. Property records included building code violation citations, building permit data, and assessor information. Our survey of the area established that there are 705 buildings within the Central West RPA. In addition, to verify the age for the area buildings, aerial photographs were compared to structure base maps.

The areas located within the Central West RPA are predominantly characterized by commercial, institutional, residential, and mixed-use structures of varying degrees of deterioration. All properties were examined for qualification factors consistent with either “blighted area” or “conservation area” requirements of the Act. Based upon these criteria, the properties within the Central West RPA qualify for designation as a TIF Redevelopment Project Area as a “conservation area” as defined by the Act.

To arrive at this designation, *S. B. Friedman & Company* calculated the number of eligibility factors present on a building-by-building basis and analyzed the distribution of the eligibility factors on a block-by-block basis. The eligibility factors were correlated to buildings using Sanborn Maps, property files created from field observations, and record searches. This information was then graphically plotted on a block map of the Central West RPA to establish the distribution of eligibility factors, and to determine which factors were present to a major or minor extent.

Major factors are used to establish eligibility. These factors are present to a meaningful extent on most of the blocks and evenly distributed throughout the RPA. Minor factors are supporting factors present to a meaningful extent on some of the blocks or on a scattered basis. Their presence suggests that the area is at risk of more extensive deterioration and disinvestment.

Conservation Area Findings

As required by the Act, within a conservation area, at least 50% of the buildings must be 35 years of age or older, and at least three (3) of the 14 other eligibility factors must be found present to a major extent within the Central West RPA.

Establishing that at least 50% of the Central West RPA buildings are 35 years of age or older is a condition precedent to establishing the area as a conservation area under the Act. Taking into account information obtained from architectural characteristics, building configurations, information from the Cook County Assessor’s Office, aerial photographs, structure base maps, and the historic development patterns within the community, we have established that of the 705 buildings, 495 (70%) within the Central West RPA are 35 years of age or older.

In addition to establishing that the Central West RPA meets the age requirement, our research has

revealed that the following factors are present to a major extent:

- Depreciation of Physical Maintenance;
- Deterioration;
- Structures Below Minimum Code;
- Inadequate Utilities; and
- Deleterious Land Use or Layout

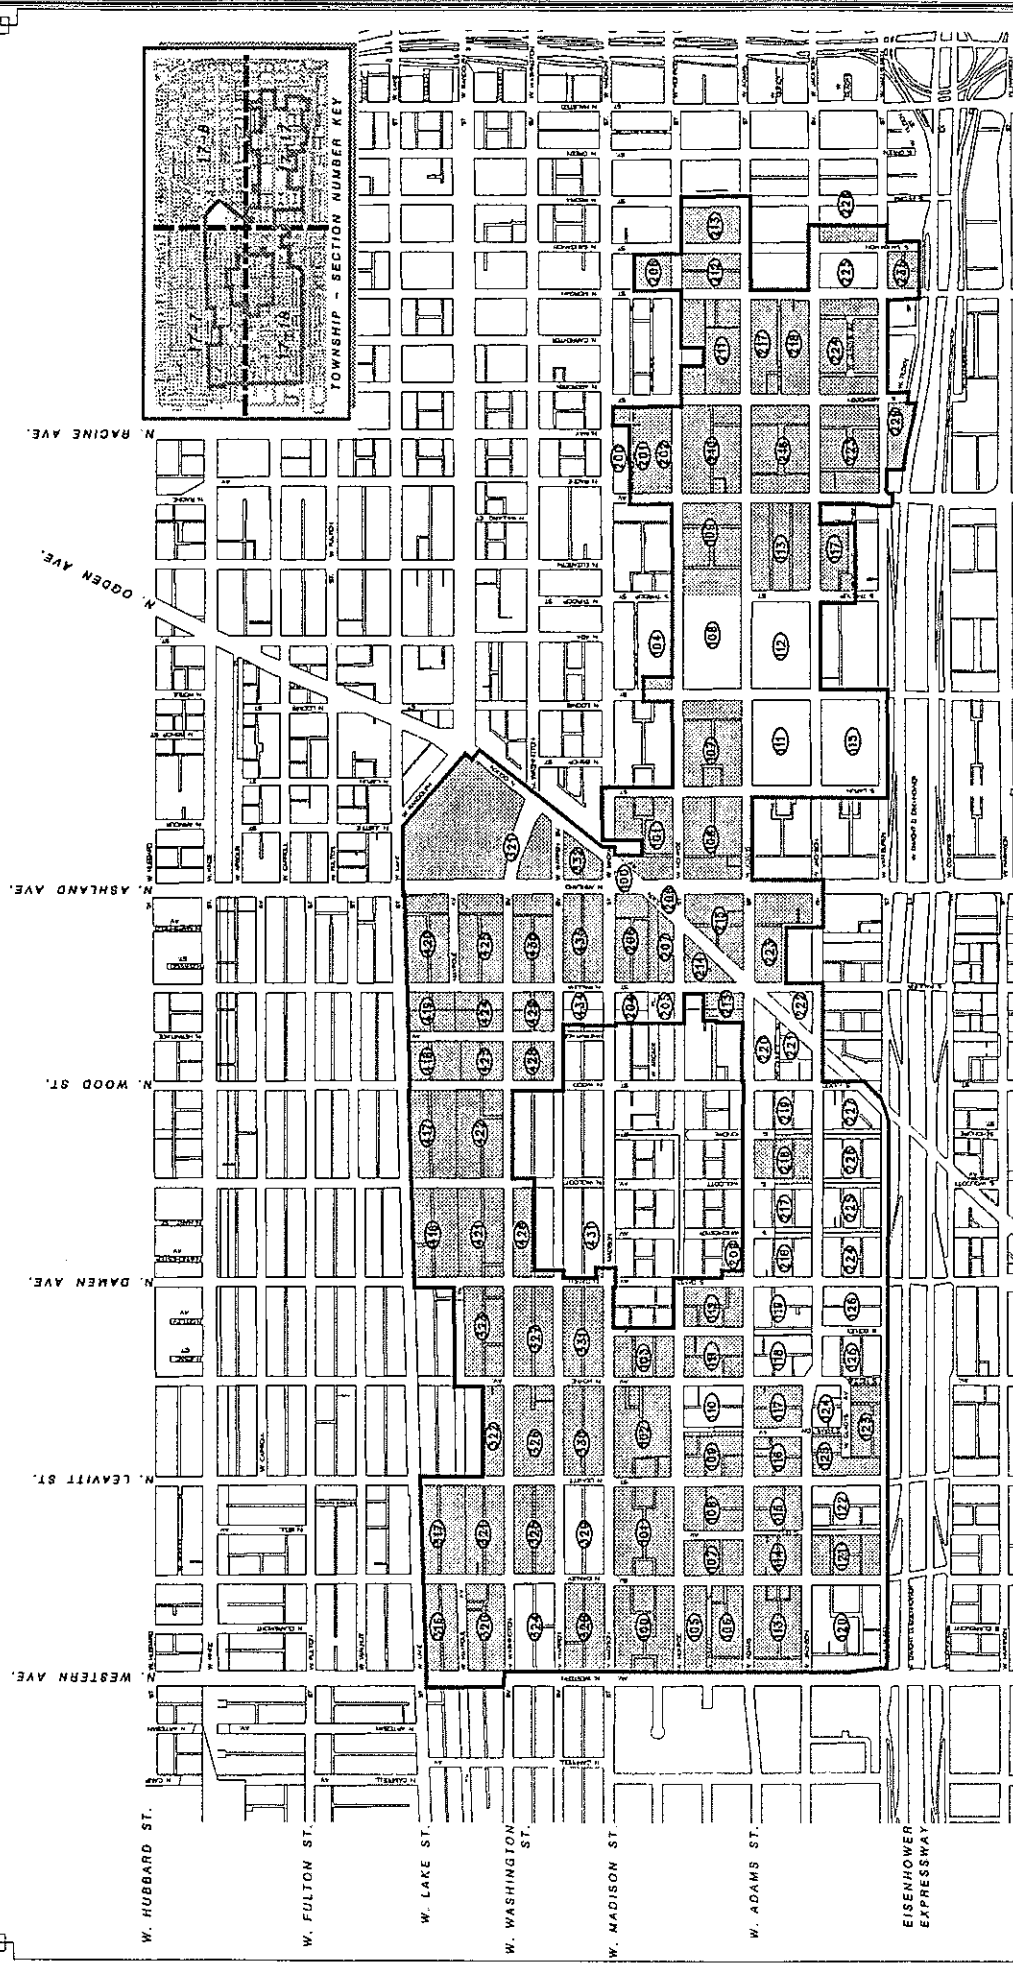

The widespread presence of both depreciation of physical maintenance and deterioration of buildings illustrates the level of building deficiencies within the Central West RPA. Of the 705 buildings within the RPA, 61% (431) exhibited one of these factors and an additional 4% were deemed to be dilapidated; this represents a total of nearly two (2) out of every three (3) buildings throughout the area with some level of deficiency in building components. In addition, code violation citations have implicated 36% of the buildings within the Central West RPA between 1993 and 1998. This further underscores the documented physical depreciation and deterioration of buildings throughout the RPA.

Much of the surface infrastructure within the RPA also is deteriorated or depreciated. Of the 79,475 linear feet of right-of-way in the RPA, 44,150 (56%) exhibit depreciation of physical maintenance and 8,375 (11%) exhibit deterioration; this represents a total of 67% of the infrastructure in the RPA. Combined, the presence of depreciated buildings or infrastructure affects 79% of the blocks within the Central West RPA and deterioration of buildings or infrastructure affects 56% of the blocks. In total, 93% (102) of the blocks are affected in some manner by either depreciation or deterioration.

The condition of underground utilities within the RPA is largely inadequate. Of the 110 blocks within the RPA, 71 (65%) are serviced by antiquated water mains that are scheduled for or overdue for replacement due to insufficient capacities or age and 100% of the blocks are serviced by sewer lines that 100 years old or older, with many of them predating the Chicago Fire of 1871. Because of this, every block within the RPA is serviced in some manner by inadequate sewer or water lines.

Deleterious land use and layout was found to affect 629 (30%) of the 2,094 parcels (PINs) in the Central West RPA. The entire area east of Ashland Avenue exhibits deleterious land use or layout. Overall, this factor was found to be present to a meaningful extent on 42 (38%) of the 110 blocks in the RPA.

The Factors-By-Block Table in Appendix 2 details the conservation eligibility factors by block within the Central West RPA. Maps 4a through 4f illustrate the distribution of those conservation eligibility factors found to be present to a major extent by highlighting each block where the respective factors were found to be present to a meaningful degree. The following sections summarize our field research as it pertains to each of the identified eligibility factors found within the Central West RPA.

1. Depreciation of Physical Maintenance

Widespread lack of maintenance for properties within an area is a strong indicator that the area is beginning to fall into disrepair and exhibits blighting conditions that need remediation. Two hundred ninety (290) of the 705 (41%) buildings within the Central West RPA exhibit significant deferred maintenance of building components, including missing roof materials, rotted window and door frames, missing brick mortar in exterior walls, peeling paint, or unfinished surfaces.

In addition to depreciated buildings, many of the public rights-of-way also were found to be depreciated. Sidewalks, curbs and gutters, and street surfaces throughout the RPA were in poor condition, with irregular, cracked, and patched surfaces. In addition, many of the parkways were overgrown, strewn with litter, and generally not maintained. Of the 79,475 linear feet of right-of-way within the RPA, 44,150 (56%) were found to be depreciated.

Depreciation of physical maintenance of buildings and/or infrastructure was found to be present to a meaningful extent on 79% of the blocks within the Central West RPA.

2. Deterioration

One hundred forty-one (141) or 20% of the 705 buildings within the Central West RPA demonstrate a significant level of deterioration. Cataloged deterioration included the occurrence of major defects in building components including collapsed or missing gutters and down spouts, cracked, broken or missing windows, evidence of roof leaks, building foundation problems, and cracked exterior wall surfaces. These are structural conditions not readily correctable through normal maintenance. Structural deterioration, coupled with depreciation of physical maintenance, are indicative of an area that is at risk of becoming blighted without direct intervention.

In addition, deterioration was documented for much of the surface infrastructure within the RPA. Surface infrastructure was found to be deteriorated if damage to the sidewalks, curbs, parkways, or street surfaces was so severe that significant repairs would be needed to restore them. Of the 79,475 linear feet of right-of-way in the RPA, 8,375 (11%) were found to be deteriorated.

Overall, deterioration was considered to be present to a meaningful extent on 56% of the blocks within the Central West RPA.

3. Structures Below Minimum Code

Relying upon data provided by the City's Department of Buildings, code violation citations were issued for 254 different property addresses within the Central West RPA between 1994 and 1998. This continuing problem underscores the documented depreciation of physical maintenance, and in more extreme cases, deterioration of the area's buildings. The code violation citations have implicated 36% of the buildings within the Central West RPA over this five-year period.

This eligibility factor was present to a meaningful extent on 66% of the blocks with buildings within the Central West RPA.

4. Inadequate Utilities

A review of the City's water and sewer atlases found that inadequate underground utilities affect all of the blocks within the RPA. Seventy-seven percent (77%) of the blocks within the RPA are serviced by antiquated water mains that are either scheduled for or overdue for replacement. Some replacements are required because the water lines have reached the end of their 100-year useful service lives and others are needed because the water mains are of insufficient size to comply with modern capacity requirements.

In addition, all of the blocks within the RPA are serviced by sewer mains that are 100 years old or older. Most of them were built before the Chicago Fire in 1871 and cannot be precisely dated because the City's records were destroyed. Most of the sewer lines have not been modernized or upgraded to current construction standards. Their age and outdated method of construction increases the risk of maintenance problems and structural deficiencies.

Due to the age and condition of the sewer and water lines, inadequate utilities was found to be present to a meaningful extent on 100% of the blocks within the Central West RPA.

5. Deleterious Land Use or Layout

Deleterious land use or layout can exist even when there is no structure present on a parcel. Therefore, this factor was evaluated on a parcel-by-parcel basis and an area-wide basis. Deleterious land use or layout generally refers to problems with the use or configuration of a parcel or building in relation to surrounding parcels or traditional standards. This factor was found to be present throughout the RPA, particularly in the area east of Ashland Avenue. There are many ways that deleterious land use can be caused. Some of these include:

- **Non-Conforming/Incompatible Land Use.** Non-conforming and incompatible land use can have a negative impact on the marketability and redevelopment of property in the area, and in some cases may cause health and safety concerns. Non-conforming land uses exist when one or more of the parcels on a block do not conform to the City's zoning ordinance. An example of this is the location of several residential buildings near the Racine Avenue and Jackson Street intersection in an area zoned for manufacturing. In this instance the use in place was neither compliant with the area's zoning requirements nor was it aesthetically or physically complementary to neighboring uses.

In some situations, a parcel's use is technically compliant with current zoning but is still aesthetically or functionally incompatible with surrounding uses. An example of this is the industrial building located on the south side of Monroe Street, adjacent to Skinner School. The two uses coexist with no buffering or screening between them. Despite the fact that both the school and the industrial development are legal uses, the potential for parking, access, and traffic conflicts is high, especially in light of the residential development occurring immediately north of these two uses.

- **Street Layout.** The design or configuration of some of the streets in the RPA also leads to

deleterious layout. Potential problems caused by the design of some of the streets in the area were identified in the Near West Side Area Land Use Plan prepared by the Lakota Group. Ashland Avenue, which is a major thoroughfare running north-south through the middle of the RPA, is one example. The width of the street is irregular, varying from two to three lanes in each direction with on-street parking provided sporadically in certain locations. This configuration causes confusion and traffic flow problems, and potentially could be dangerous for drivers and pedestrians.

Another example is the stretch of Washington Boulevard which cuts across Union Park. This portion of Washington Boulevard serves as a link between Randolph Street, Ogden Avenue and Ashland Avenue and is part of a complex intersection that no longer supports a high volume of traffic. In addition to confusing motorists, this segment of Washington Boulevard divides Union Park in half, making the southern half isolated and less accessible to users. While the roadway may not be able to be eliminated all together because of its high traffic volume, it could be reconfigured to allow for more efficient use of the green space.

A third example of the difficulties relating to the RPA's streets is the intersection at Adams Street and Laflin Street near Whitney Young High School. North and southbound Laflin Street traffic is controlled only with stop signs. Adams Street traffic is not required to stop at Laflin Street at all. However, pedestrian traffic from the high school often crosses Adams Street at this location, posing a potential safety risk. Further study of this and other area intersections is needed to assess whether or not traffic controls correspond to current area needs.

- **Property Design or Condition.** The design or condition of the property itself also can have a deleterious effect on neighboring parcels. In several locations throughout the RPA there are vacant buildings that are boarded up and not maintained. In addition, there are large industrial/warehouse buildings that have no windows, an exterior of corrugated metal, exposed shipping and receiving bays, or shallow setbacks. Because the area lacks adequate buffering between uses, the appearance of these buildings often contrasts sharply with neighboring office and residential buildings. In many instances the condition and/or quality of construction of buildings is so out of context that it negatively impacts the overall image of the community and the marketability of surrounding property.
- **Irregular Parcel Size, Shape, Orientation, or Configuration.** When a parcel or building has an irregular size, shape, or orientation that is inconsistent or out of context with surrounding parcels or buildings, private redevelopment of the site and surrounding property can be deterred. This condition, particularly when the building itself is irregular, is often coupled with functional or economic obsolescence. For example, a building with shallow lot depths and inadequate receiving and shipping bays may have truck loading and unloading patterns that interfere with traffic or neighboring properties. Such a configuration would discourage and deter the development of surrounding parcels.
- **Configuration of Vacant Land.** Some blocks also exhibit deleterious land use and layout due to the configuration of vacant parcels of land. This is a problem on five blocks on the

west side of the RPA where there is a high proportion of vacant land. On some blocks, several small and/or irregular vacant parcels are interspersed between buildings. Often the parcels are too small to be developed individually. On other blocks there are larger tracts of vacant land owned by multiple parties. This diversity of ownership coupled with the size and irregular configuration of these parcels creates a situation where land assembly is difficult and the likelihood of successful redevelopment is decreased.

Overall, deleterious land use and layout affects 629 (30%) of the 2,094 parcels (PINs) in the Central West RPA. Overall, it was found to be present to a meaningful extent on 42 (38%) of the 110 blocks in the RPA.

Minor Supporting Factors

In addition to the factors that previously have been documented as being present to a major extent within the Central West RPA, two additional factors are present to a minor extent: obsolescence and excessive vacancies. These two additional factors demonstrate that the Central West RPA is gradually declining through disinvestment. Left unchecked, these conditions could accelerate the decline of the community, and combined with those factors that have been used to qualify the RPA as a conservation area, could lead to more widespread and intensive disinvestment.

1. Obsolescence

An appreciable amount of functional obsolescence exists within the Central West RPA. The vast majority of the buildings within the Central West RPA were built at least 35 years ago and the floor layouts of these buildings were designed for business operations that have become outmoded, or were designed to accommodate specific types of businesses. Reconfiguration and rehabilitation of such structures would result in substantial cost to any future user and therefore would render the structure functionally obsolete. This functional obsolescence directly inhibits the redevelopment of these properties due to the enormous practical disadvantages faced by potential new users.

In addition to functional obsolescence, the economic obsolescence of many area properties is demonstrated by the stagnant, or in some cases declining, assessed valuation (other than routine increases attributable to the effect of inflation upon triennial reassessment values), and lack of viable tenants for commercial space. The high incidence of excessively vacant buildings further indicates economic obsolescence, as disuse is a strong indicator of obsolescence.

Often, the economic disadvantage of an area's buildings is the direct result of their functional obsolescence. Many of these buildings cannot compete in the market without some intervention or correction of obsolete factors. Economically obsolete buildings and properties have an adverse effect on nearby properties and detract from the physical, functional, and economic vitality of the surrounding community.

Obsolescence, either functional, economic, or some combination of both, has been documented for 97 of the 705 (14%) buildings within the Central West RPA. This eligibility factor was found to be meaningfully present on 28% of the blocks with buildings within the Central West RPA.

2. Excessive Vacancies

A building was judged to be excessively vacant if it appeared to be at least one-third vacant. One hundred five (105) of the 705 buildings (15%) within the Central West RPA were documented as suffering from an excessive level of vacancy. This finding, coupled with the high age of structures in the area, corresponds with the declining population trends the Near West Side has seen during the past century. This eligibility factor was considered to be present to a meaningful extent on 28% of the blocks with buildings within the Central West RPA.

4. Redevelopment Project & Plan

Redevelopment Needs of the Central West RPA

The existing land use pattern and physical conditions in the Central West RPA suggest six redevelopment needs for the area:

1. Property assembly, demolition, and site preparation;
2. Infrastructure improvements, streetscaping, and buffering/screening between land uses;
3. Commercial and residential development and rehabilitation;
4. Rehabilitation and adaptive re-use of vacant, underutilized, and obsolete buildings;
5. Improvement and expansion of public facilities and other supportive land uses; and
6. Job training assistance

The Redevelopment Plan identifies the tools that the City will use to guide redevelopment in the Central West RPA to create a cohesive and vibrant mixed-use community. Currently, the Central West RPA is characterized by deteriorated infrastructure, conflicting land uses, vacant and underutilized parcels, depreciated buildings, and obsolete structures.

The goals, objectives, and strategies discussed below have been developed to address these needs and facilitate the sustainable redevelopment of the Central West RPA. The proposed public improvements outlined in the Redevelopment Plan will help create an environment conducive to private investment and redevelopment within the Central West RPA. To support specific projects and encourage future investment in the RPA, public resources, including tax increment financing, may be used to: facilitate property assembly, demolition, and site preparation for redevelopment activities; support building rehabilitation; modernize, improve, or repair RPA infrastructure; provide streetscaping, landscaped buffers, and screening elements between land uses; create new, and improve and/or expand existing public facilities.

Goals, Objectives, and Strategies

Goals, objectives and strategies designed to address the needs of the community form the overall framework of the Redevelopment Plan for the use of anticipated tax increment funds generated within the Central West RPA.

Goal. The overall goal of the Redevelopment Plan is to reduce or eliminate conditions that qualify the Central West RPA as a conservation area and to provide the direction and mechanisms necessary to create a cohesive and vibrant mixed-use community. Redevelopment of the RPA will reduce the number of underutilized properties within the RPA, improve the relationship between the area's diverse land uses, and attract private redevelopment. This goal is to be achieved through an integrated and comprehensive strategy that leverages public resources to stimulate additional private investment.

Objectives. Ten (10) broad objectives support the overall goal of area-wide revitalization of the Central West RPA. These include:

1. Facilitate the assembly, preparation, and marketing of vacant and underutilized sites for new retail, commercial, and residential development, as well as off-street parking areas;
2. Remediate environmental problems to provide additional land for new retail, commercial, and residential development and redevelopment, as appropriate;
3. Facilitate the preservation and/or rehabilitation of residential, commercial, industrial, and architecturally or historically significant buildings and encourage the adaptive re-use of vacant, underutilized, and obsolete buildings, where appropriate;
4. Support the development of a variety housing types to meet the needs of households with a wide range of income levels;
5. Replace or repair infrastructure, including sidewalks, streets, curbs, gutters, and underground water and sanitary systems, to improve the overall image of the neighborhood and support new retail, commercial, and residential redevelopment;
6. Provide resources for streetscaping, landscaping, and screening/buffering elements to visually link the area's diverse land uses and create a distinct identity for the area;
7. Facilitate the improvement and expansion of existing public facilities as needed, such as schools and parks, and facilitate the development of new public facilities in appropriate locations throughout the RPA as needed and in accordance with the Redevelopment Plan;
8. Support and complement the goals and objectives of other underlying redevelopment plans and planning studies, including the Central West Redevelopment Area, Madison-Western Redevelopment Area, the Madison-Racine Redevelopment Area, Enterprise Zone 4, West Side Empowerment Zone, the Near West SNAP, and the Near West Side Area Land Use Plan, and coordinate available federal, state, and local resources to further the goals of this redevelopment plan;
9. Provide opportunities for women-owned, minority-owned, and locally-owned businesses to share in the job and construction opportunities associated with the redevelopment of the Central West RPA; and
10. Support job training programs and increase employment opportunities for area residents.

Strategies. These objectives will be implemented through four (4) specific and integrated strategies. These include:

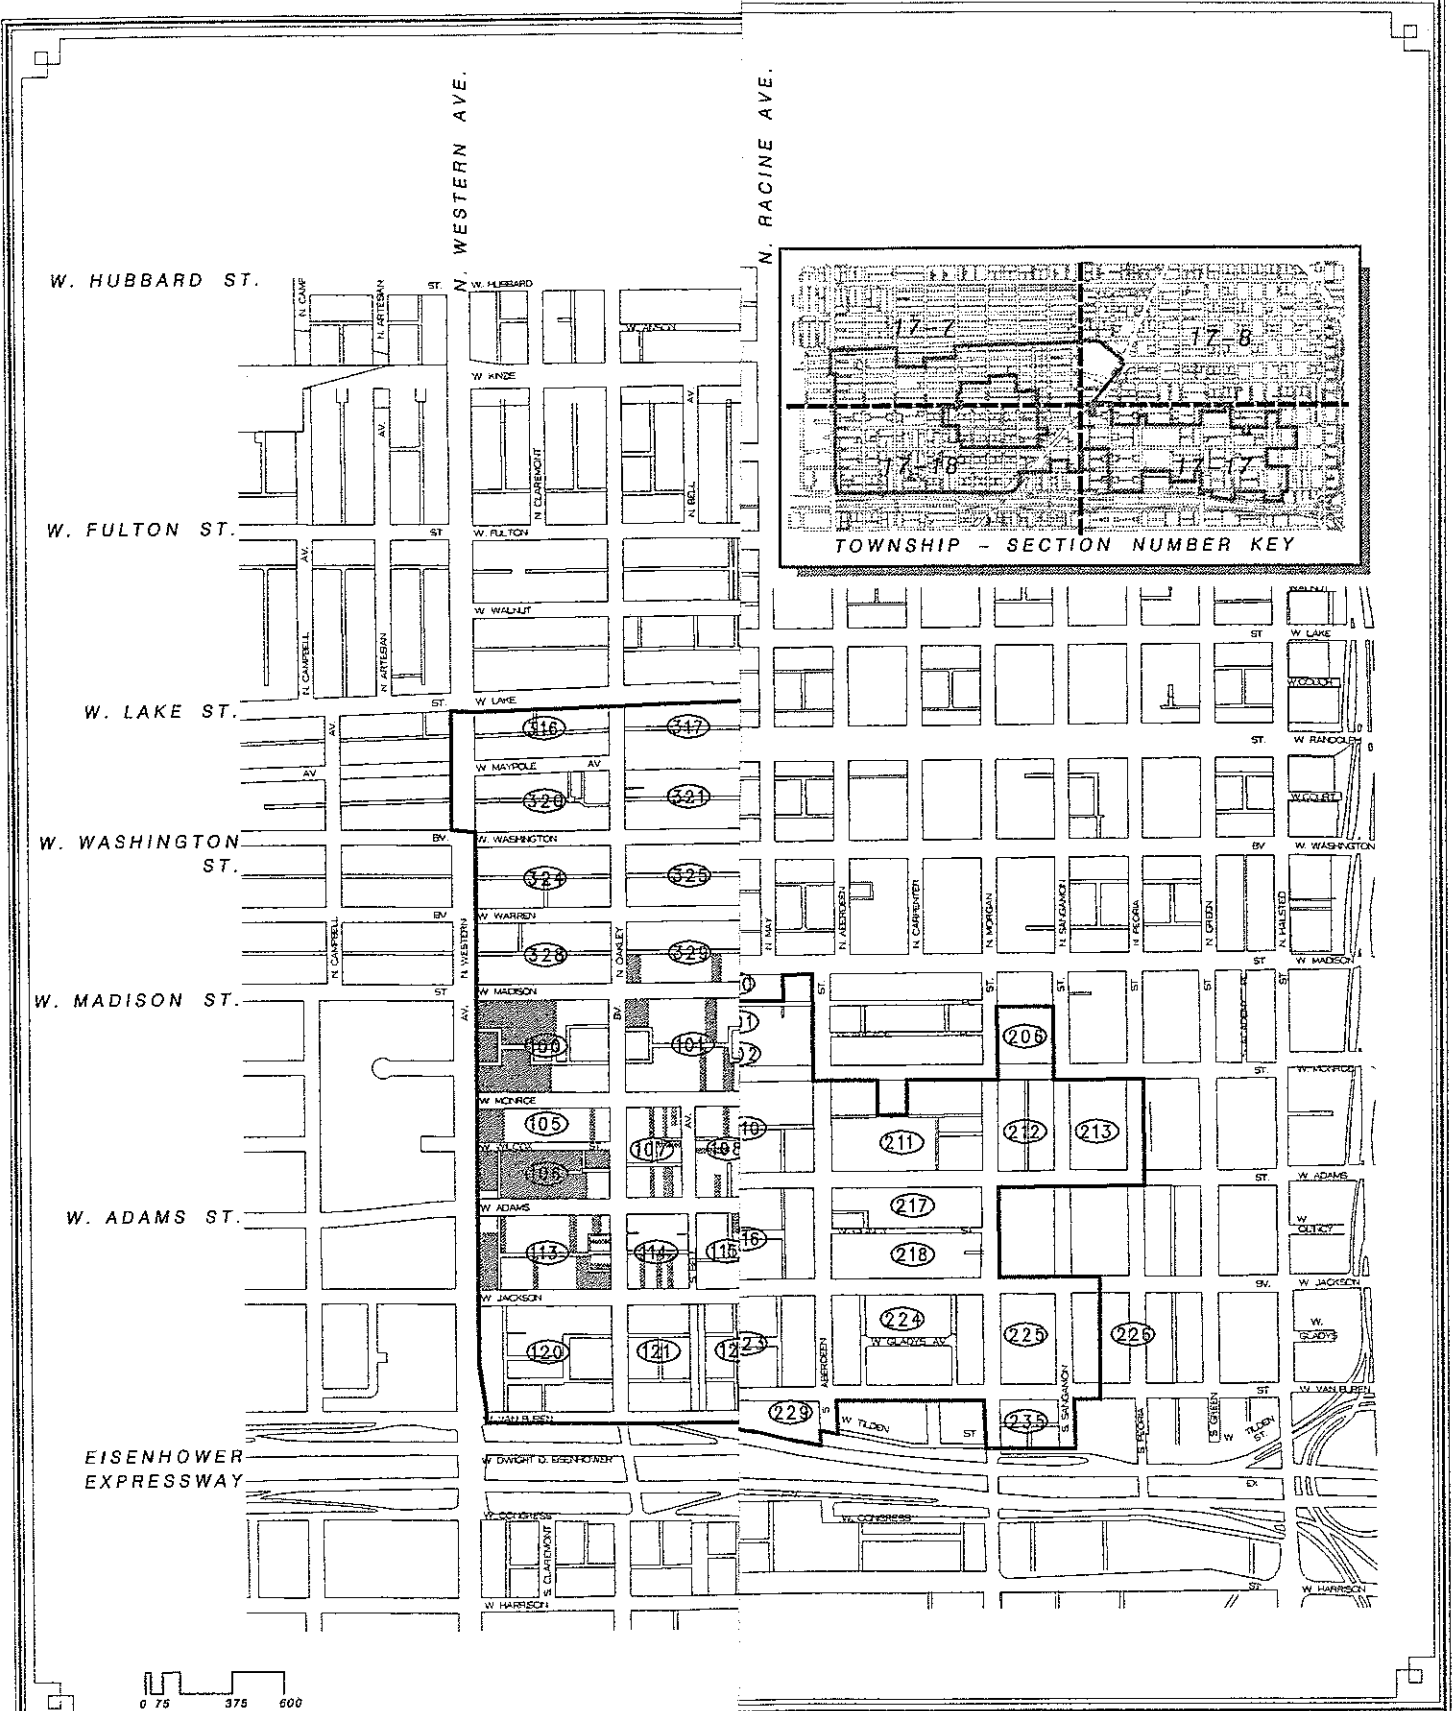

1. **Implement Public Improvements.** A series of public improvements throughout the Central West RPA may be designed and implemented to help define and create an identity for the area, prepare sites for anticipated private investment, and create a more conducive environment for retail, commercial, and residential development. These improvements may include new streetscaping, street and sidewalk lighting, resurfacing of alleys, sidewalks and

streets, improvement of underground water and sewer infrastructure, creation of parks and open space, and other public improvements consistent with the Redevelopment Plan. These public improvements may be completed pursuant to redevelopment agreements with private entities or intergovernmental agreements with other public entities, and may include the construction, rehabilitation, renovation, or restoration of public improvements on one or more parcels;

2. **Develop Vacant and Underutilized Sites.** The redevelopment of vacant and underutilized sites within the Central West RPA is expected to stimulate private investment and enhance the RPA. Development of vacant and underutilized sites is anticipated to have a positive impact on other properties beyond the individual project sites.
3. **Encourage Private Sector Activities and Support New Development.** The City may provide financial and other assistance to encourage the private sector to undertake redevelopment and rehabilitation projects within the RPA. In order to facilitate private investment, the City may enter into agreements within the limits of the Act to facilitate and support projects that support the goals, objectives, and strategies of this Redevelopment Plan.
4. **Facilitate Property Assembly, Demolition, and Site Preparation.** Vacant and underutilized sites listed in Appendix 3 may be acquired and assembled by the City to attract future private investment and development. The consolidated ownership of these sites will make them easier to market to potential developers and will streamline the redevelopment process. In addition, assistance may be provided to private developers seeking to acquire land and assemble sites in order to undertake projects supportive of this Redevelopment Plan.

Map 5, *Properties Previously Approved For Acquisition In Underlying Redevelopment Area Plans*, indicates those properties in the Central West RPA that have been identified for acquisition in previously adopted underlying Redevelopment Plans and Appendix 3 contains a list of these acquisition parcels by block and Permanent Index Number (PIN). The Central West Redevelopment Area Plan and the Madison-Western Redevelopment Area Plan and subsequent amendments to these plans established City authority to acquire and assemble property. Such acquisition and assembly under that authority is consistent with this TIF Redevelopment Plan. Nothing in this Redevelopment Plan shall be deemed to limit or adversely affect the authority of the City under the Central West Redevelopment Area Plan or the Madison-Western Redevelopment Area Plan to acquire and assemble property. Accordingly, incremental property taxes from the RPA may be used to fund the acquisition and assembly of property by the City under the authority of the Central West Redevelopment Area Plan and the Madison-Western Redevelopment Area Plan within the Central West Redevelopment Project Area.

In connection with the City exercising its powers to acquire real property not currently identified on Map 5 and listed in Appendix 3, including the exercise of the power of eminent domain, under the Act in implementing the Redevelopment Plan, the City will follow its customary procedures of having each such acquisition recommended by the Community Development Commission (or any successor commission) and authorized by the City

OCTOBER 1999

Council of the City. Acquisition of such real property as may be authorized by the City Council does not constitute a change in the nature of this Redevelopment Plan.

Redevelopment Plan Elements

There are three (3) general categories of activities that may be supported by tax increment funds under the provisions of the Act:

1. **Development/Redevelopment/Rehabilitation Activities**, such as:
 - Site assembly, demolition and site preparation
 - Interest subsidies
 - Rehabilitation costs
 - Relocation costs
 - Environmental remediation

2. **Public Improvements**, such as:
 - Provision or rehabilitation of public improvements, including open space and taxing district facilities
 - Capital costs, as they are incurred as a result of, or in furtherance of, the redevelopment plan

3. **Administrative Support and Financing**, such as:
 - Job training and related educational programs
 - Analysis, administration, studies, legal, etc.
 - Financing costs

The City may enter into redevelopment agreements with public or private entities for the furtherance of these activities. A number of key types of projects, activities and improvements were identified for the Central West RPA and are described below. These activities are those which could be undertaken as resources become available. As community needs and market conditions change, it is likely that additional projects may be suggested throughout the life of the Central West RPA. To the extent that these projects are consistent with the goals of this Redevelopment Plan and the related costs are eligible under the Act, these projects may be considered for funding.

Site Assembly, Demolition, and Preparation. Land may be acquired for the purposes of land assembly for future redevelopment in accordance with the “Facilitate Property Assembly, Demolition, and Site Preparation,” under the Strategies section of this report on page 31. Relocation assistance may be provided in order to facilitate redevelopment of portions of the Central West RPA, and to meet other City objectives. Business or households legally occupying properties to be acquired by the City may be provided with relocation advisory and/or financial assistance as determined by the City. Site preparation may include demolition of existing improvements and environmental remediation, where appropriate.

Marketing. In conjunction with site assembly activities, the City may market sites to commercial and retail developers, by means of site signage, direct mailings, audio/visual

marketing materials, and site brochures.

Public Improvements. Public improvements within the Central West RPA along all arterial and collector streets, and railroad and public right-of-way overpasses may be undertaken to facilitate redevelopment activities, including but not limited to, the following:

- Street, alley and sidewalk resurfacing;
- Street lighting;
- Traffic signalization;
- Reconstruction of street curbs and gutters;
- Underground water and sanitary systems;
- Streetscaping; and
- Open space

These public improvements should be designed to enhance the area for private commercial and retail investment.

Environmental Remediation of Redevelopment Sites. Many of the improved and vacant redevelopment opportunity sites within the Central West RPA at one time accommodated commercial or residential structures, and the possibility exists that these parcels may contain hazardous building materials that were left on-site which must be removed prior to any new construction.

Commercial, Residential, Industrial, and Institutional Rehabilitation. Existing commercial and industrial properties may be targeted for rehabilitation to improve their market competitiveness, stabilize the commercial and industrial segments within the Central West RPA, and provide opportunities for commercial and industrial job retention and attraction. Residential properties also may benefit from TIF assistance to repair structural and/or mechanical elements. Similarly, community institutional resources also may be eligible to receive TIF assistance to improve their facilities to better serve the surrounding communities.

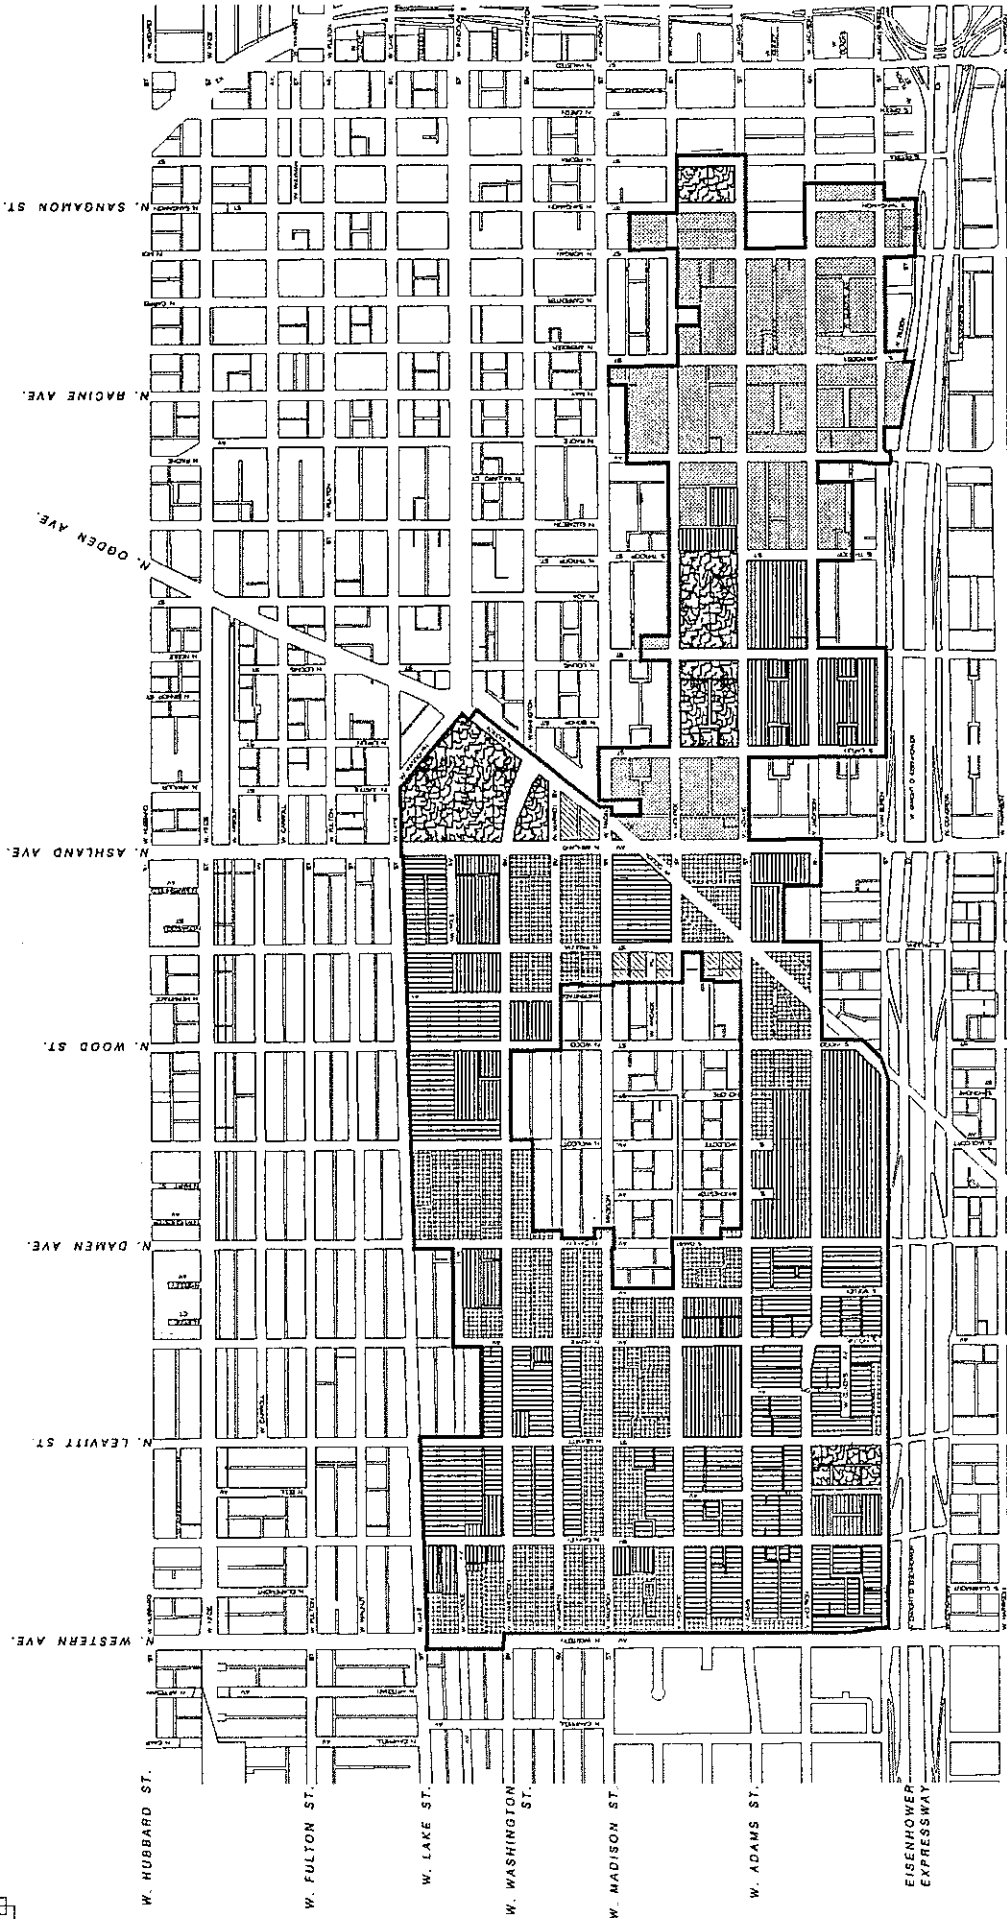

These activities are representative of the types of projects contemplated to be undertaken during the life of the Central West RPA. Market forces are critical to the completion of these projects. Phasing of projects will depend on the interests and resources of both public and private sector parties. Not all projects will necessarily be undertaken. Further, additional projects may be identified throughout the life of the Central West RPA. To the extent that these projects meet the goals of this Redevelopment Plan and the requirements of the Act and budget outlined in the next section, these projects may be considered for tax increment funding.

The City requires that developers who receive TIF assistance for market rate housing set aside 20% of the units to meet affordability criteria established by the City's Department of Housing. Generally, this means that affordable for-sale housing units should be priced at a level that is affordable to persons earning no more than 120% of the area median income, and affordable rental units should be affordable to persons earning no more than 80% of the area median income.

Proposed Future Land Use

The proposed future land use of the Central West RPA reflects the objectives of the Redevelopment Plan, which work to provide direction for the marketing of vacant sites in the RPA to redevelopment activities. The proposed objectives are compatible with historic land use patterns and support current development trends in the area.

These proposed future land uses are detailed on Map 6.

Housing Impact and Related Matters

The Area contains 129 single-family buildings, 266 multi-family buildings, and 18 mixed-use buildings with upper story residential for an estimated total of 4,744 residential units. It is estimated that 3,414 of the 4,744 residential units in the Area are inhabited. Because the Area includes a significant number of residential units, information is provided regarding this Plan's potential impact on housing.

Included in the Plan are the following maps: (1) "Properties Previously Approved for Acquisition in Underlying Redevelopment Project Area Plans" (Map 5), and (2) "Proposed Land Use" (Map 6). Some of these maps indicate parcels of real property on which there are buildings containing residential units that may be removed if the Plan is implemented in this regard, and that to the extent those units are inhabited, the residents thereof might be displaced. The Plan also includes information on the condition of buildings within the Area. Some of the residential buildings exhibit characteristics such as dilapidation or a combination of deterioration, excessive vacancies, and obsolescence which might result in a building's removal and the displacement of residents, during the time that this Plan is in place.

The number and type of residential buildings in the Area potentially affected by the Plan were identified during the building condition and land use survey conducted as part of the eligibility analysis for the Area. A good faith estimate and determination of the number of residential units within each such building whether such residential units were inhabited and whether the inhabitants were low-income or very low-income households were based on a number of research and analytical tools including, where appropriate, physical building surveys, data received from building owners and managers and data bases maintained by the City's Department of Planning and Development, Cook County tax assessment records or census data.

Any buildings containing residential units that may be removed and any displacement of residents of inhabited units projected in this Plan are expressly intended to be within the contemplation of the comprehensive program intended or sought to be implemented pursuant to this Plan. To the extent that any such removal or displacement will affect households of low-income and very low-income persons, there shall be provided affordable housing and relocation assistance not less than that which would be provided under the Federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and the regulations thereunder, including the eligibility criteria. Affordable housing may either be existing or newly constructed housing and the City shall make a good faith effort to ensure that the affordable housing is located in or near the Area. For the purposes hereof, "low-income households", "very low-income households", and "affordable housing" shall have the meanings set forth in the Illinois Affordable Housing Act.

Map and Survey Overview

The map of "Properties Previously Approved for Acquisition in Underlying Redevelopment Project Area Plans" (Map 5) indicates those properties in the Area that have been identified for acquisition in a previously adopted underlying redevelopment plan. The "Central West Redevelopment Plan"

and the "Madison-Western Redevelopment Plan" ("Underlying Redevelopment Area Plans") and their subsequent amendments established City authority to acquire and assemble property. Such acquisition and assembly under that authority is consistent with this Plan. Nothing in this Plan shall be deemed to limit or adversely affect the authority of the City under the Underlying Redevelopment Area Plans to acquire and assemble property. Accordingly, incremental property taxes from the Area may be used to fund the acquisition and assembly of property by the City under the authority of the Underlying Redevelopment Area Plans within the Area.

There are six residential properties consisting of 30 residential units, 24 of which are occupied, listed on the "Properties Previously Approved for Acquisition in Underlying Redevelopment Project Area Plans" map (Map 5) which might be removed under the Underlying Redevelopment Area Plans, but funded by incremental property taxes from the Area. Of the 24 occupied units, one is estimated to be occupied by residents classified as low-income, and 22 are estimated to be occupied by residents classified as very low-income.

Based on the Plan's "Proposed Land Use" map (Map 6), where compared to the "Existing Predominant Land Use" map (Map 3) included herein, there are certain parcels of property currently containing residential uses and units that, if the Plan is implemented in that regard, could result in such buildings being removed. There are 172 residential units potentially affected by land use changes as reflected on the "Proposed Land Use" map (Map 6) of which 171 are occupied. Of this number, none are estimated to be occupied by residents classified as low-income, and 168 units are estimated to be occupied by residents classified as very low-income.

In addition to the various maps discussed previously, the building condition survey revealed that 43 residential or mixed use buildings exhibit characteristics such as dilapidation or a combination of deterioration, functional and economic obsolescence, and excessive vacancies. These conditions, if left unchecked, may result in the removal of buildings and the displacement of residents. Based on the building conditions survey, it is possible that 148 residential units could be removed of which 19 are estimated to be occupied. Of this number, two are estimated to be occupied by residents classified as low-income, and 15 are estimated to be occupied by residents classified as very low-income. Some of the vacant units could become occupied in the future and residents could potentially be displaced. Such units may be located anywhere within the Area, but will be limited to a total of 79 to be removed without amendment of this Plan in accordance with the requirements of the Act.

Appendix 4 "Summary of EAV (by PIN)" contains references to reflect the parcels containing buildings and units of residential housing that are impacted by the discussion presented in the previous paragraphs. The methodology and results of the building condition survey are included in Section 3 of the Plan, "Eligibility Analysis".

Other Public Entities

It is possible that a variety of other governmental agencies may acquire and demolish residential units that happen to be located within the boundaries of the Area to accommodate public purposes

including the construction or expansion of schools, parks, libraries, and other public facilities. The Chicago Housing Authority has announced that it plans to demolish 772 units, none of which are currently occupied, as part of the Henry Horner Homes Redevelopment . While these demolitions will not be assisted with tax increment financing, they have been publicly announced and, as such, are disclosed herein.

5. *Financial Plan*

Eligible Costs

The Act outlines several categories of expenditures that can be funded using tax increment revenues. These expenditures, referred to as eligible redevelopment project costs, include all reasonable or necessary costs incurred or estimated to be incurred, and any such costs incidental to this plan pursuant to the Act. The City proposes to realize its goals and objectives of redevelopment through public finance techniques, including, but not limited to, tax increment financing, and by undertaking certain activities and incurring certain costs. Some of the costs listed below will become eligible costs under the Act pursuant to an amendment to the Act which will become effective November 1, 1999. Such costs may include, without limitation, the following:

1. Costs of studies, surveys, development of plans and specifications, implementation and administration of the Redevelopment Plan, including but not limited to, staff and professional service costs for architectural, engineering, development advisors, development managers, legal, marketing sites within the area to prospective businesses, developers, and investors, financial, planning or other services, related hard and soft costs, and other related expenses; provided however, that no such charges for professional services may be based on a percentage of the tax increment collected;
2. Property assembly costs, including but not limited to, acquisition of land and other property, real or personal, or rights or interest therein, demolition of buildings, and clearing and grading of land, site preparation, site improvements that serve as an engineered barrier addressing ground level or below ground environmental contamination, including, but not limited to parking lots and other concrete or asphalt barriers;
3. Costs of rehabilitation, reconstruction or repair or remodeling of existing public or private buildings or fixtures and leasehold improvements;
4. Up to 50% of the cost of construction, renovation, and/or rehabilitation of all low- and very low-income housing units (for ownership or rental) as defined in Section 3 of the Illinois Affordable Housing Act. If the units are part of a residential redevelopment project that includes units not affordable to low- and very low-income households, only the low- and very low-income units shall be eligible for this benefit under the Act;
5. Costs of the construction of public works or improvements including the costs of replacing an existing public building if pursuant to the implementation of a redevelopment project, the existing public building is to be demolished to use the site for private investment or devoted to a different use requiring private investment;
6. Costs of job training and retraining projects including the costs of “welfare to work” programs implemented by businesses located within the redevelopment project area;
7. Financing costs, including but not limited to, all necessary and incidental expenses related

- to the issuance of obligations and which may include payment of interest on any obligations issued hereunder including interest accruing during the estimated period of construction of any redevelopment project for which such obligations are issued and for not exceeding 36 months thereafter and including reasonable reserves related thereto and interest accruing during a construction period;
8. All or a portion of a taxing district's capital costs resulting from the redevelopment project necessarily incurred or to be incurred in furtherance of the objectives of the Redevelopment Plan and project, to the extent the municipality by written agreement accepts and approves such costs;
 9. An elementary, secondary, or unit school district's increased costs attributable to assisted housing units will be reimbursed as provided in the Act;
 10. Relocation costs to the extent that a municipality determines that relocation costs shall be paid or is required to make payment of relocation costs by federal or state law;
 11. Payment in lieu of taxes;
 12. Costs of job training, retraining, advanced vocational education or career education, including but not limited to, courses in occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts, provided that such costs (i) are related to the establishment and maintenance of additional job training, advanced vocational education or career education programs for persons employed or to be employed by employers located in the redevelopment project area; and (ii) when incurred by a taxing district or taxing districts other than the municipality, are set forth in a written agreement by or among the municipality and taxing district(s), which agreement describes the program to be undertaken, including but not limited to, the number of employees to be trained, a description of the training and services to be provided, the number and type of positions available or to be available, itemized costs of the program and sources of funds to pay for the same, and the term of the agreement. Such costs include, specifically, the payment by the community college district of costs pursuant to Sections 3-37, 3-38, 3-40 and 3-41.1 of the Public and Community College Act as cited in the Act and by the school districts of cost pursuant to Section 10-22.20a and 10-23.3a of the School Code as cited in the Act.
 13. Interest costs incurred by a developer related to the construction, renovation or rehabilitation of a redevelopment project provided that:
 - a. Such costs are to be paid directly from the special tax allocation fund established pursuant to the Act;
 - b. Such payments in any one (1) year may not exceed thirty percent (30%) of the annual interest costs incurred by the developer/user with regard to the development project during that year;

- c. If there are not sufficient funds available in the special tax allocation fund to make the payment pursuant to this paragraph (13) then the amount so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund;
 - d. The total of such interest payments paid pursuant to the Act may not exceed thirty percent (30%) of the total of (i) cost paid or incurred by the developer for the redevelopment project plus (ii) redevelopment project costs excluding any property assembly costs and any relocation costs incurred by a municipality pursuant to the Act; and
 - e. The percentage increases from thirty percent (30%) to seventy-five percent (75%) for the interest cost incurred by a redeveloper for the financing of rehabilitated or new housing units for low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act.
14. The cost of day care services for children of employees from low-income families working for businesses located within the redevelopment project area and all or portion of the cost of operation of day care centers established by redevelopment project area businesses to serve employees from low-income families working in businesses located in the redevelopment project area. For the purposes of this paragraph, “low-income families” means families whose annual income does not exceed 80% of the City, county, or regional median income as determined from time to time by the United States Department of Housing and Urban Development.
15. Unless explicitly stated in the Act and as provided for in relation to low- and very low-income housing units, the cost of construction of new privately owned buildings shall not be an eligible redevelopment project cost.

Estimated Redevelopment Project Costs

The estimated eligible costs of this Redevelopment Plan are shown in Table 1. The total eligible cost provides an upper limit on expenditures that are to be funded using tax increment revenues, exclusive of capitalized interest, issuance costs, interest, and other financing costs. Within this limit, adjustments may be made in line items without amendment to this Redevelopment Plan. Additional funding in the form of State and Federal grants, private developers contributions and other outside sources may be pursued by the City as a means of financing improvements and facilities which are of benefit to the general community.

TABLE 1: ESTIMATED TIF ELIGIBLE COSTS

Project/Improvements	Estimated Project Costs*
Professional Services	\$3,000,000
Property Assembly: land assembly, demolition, site preparation, environmental remediation	\$17,000,000
Eligible Construction Costs (3)	\$5,000,000
Rehabilitation Costs	\$18,000,000
Public Works or Improvements (1)	\$32,000,000
Relocation	\$2,000,000
Job Training, Including Welfare To Work (3)	\$4,000,000
Interest Costs (3)	\$12,000,000
Day Care (3)	\$5,000,000
TOTAL REDEVELOPMENT COSTS (2)	\$98,000,000

*Exclusive of capitalized interest, issuance costs, and other financing costs

(1) This category also may include the reimbursement of capital costs of taxing districts including schools resulting from the redevelopment project necessarily incurred in the furtherance of the objectives of the Redevelopment Project Area Plan and Project to the extent the City by written agreement accepts and approves such costs.

(2) All costs are in 1999 dollars and may be increased by the rate of inflation reflected in the Consumer Price Index (CPI) for All Urban Consumers for All Items for the Chicago-Gary-Kenosha, IL-IN-WI CMSA, published by the U. S. Department of Labor. In addition to the above stated costs, each issue of obligations issued to finance a phase of the Redevelopment Project may include an amount of proceeds sufficient to pay customary and reasonable charges associated with the issuance of such obligations, including interest costs.

(3) Certain costs included in this line item will be eligible costs as of November 1, 1999 pursuant to an amendment to the Act.

Adjustments to the estimated line item costs in Table 1 are expected and may be made by the City without amendment to the Plan. Each individual project cost will be re-evaluated in light of projected private development and resulting incremental tax revenues as it is considered for public financing under the provisions of the Act. The totals of line items set forth above are not intended to place a limit on the described expenditures. Adjustments may be made in line items within the total, either increasing or decreasing line item costs as a result of changed redevelopment costs and needs.

Phasing and Scheduling of the Redevelopment

Each private project within the Central West RPA shall be governed by the terms of a written redevelopment agreement entered into by a designated developer and the City and approved by the

City Council. Where tax increment funds are used to pay eligible redevelopment project costs, to the extent funds are available for such purposes, expenditures by the City shall be coordinated to coincide on a reasonable basis with the actual redevelopment expenditures of the developer(s). The Redevelopment Plan shall be completed, and all obligations issued to finance redevelopment costs shall be retired, no later than December 31st of the year in which the payment to the City treasurer as provided in the Act is to be made with respect to ad valorem taxes levied in the twenty-third year calendar year following the year in which the ordinance approving this redevelopment project area is adopted (by December 31, 2024).

Sources of Funds to Pay Costs

Funds necessary to pay for redevelopment project costs and/or municipal obligations which may be issued or incurred to pay for such costs are to be derived principally from tax increment revenues and/or proceeds from municipal obligations which have as a repayment source tax increment revenue. To secure the issuance of these obligations and the developer's performance of redevelopment agreement obligations, the City may require the utilization of guarantees, deposits, reserves, and/or other forms of security made available by private sector developers. The City may incur Redevelopment Project Costs which are paid from the funds of the City other than incremental taxes, and the City may then be reimbursed for such costs from incremental taxes.

The tax increment revenue which will be used to fund tax increment obligations and eligible redevelopment project costs shall be the incremental real property tax revenues. Incremental real property tax revenue is attributable to the increase of the current equalized assessed valuation of each taxable lot, block, tract, or parcel of real property in the redevelopment project area over and above the certified initial equalized assessed value of each such property. Without the use of such incremental revenues, the redevelopment project area is not likely to redevelop.

Other sources of funds which may be used to pay for development costs and associated obligations issued or incurred include land disposition proceeds, state and federal grants, investment income, private investor and financial institution funds, and other sources of funds and revenues as the municipality and developer from time to time may deem appropriate.

The Central West RPA is contiguous to the Kinzie Industrial RPA and the Near West RPA, and may, in the future, be contiguous to, or be separated only by a public right-of-way from, other redevelopment areas created under the Act. The City may utilize net incremental property tax revenues received from the Central West RPA to pay eligible redevelopment project costs, or obligations issued to pay such costs, in other contiguous redevelopment project areas, or those separated only by a public right-of-way, and vice versa. The amount of revenue from the Central West RPA made available to support such contiguous redevelopment project areas, or those separated only by a public right-of-way, when added to all amounts used to pay eligible Redevelopment Project Costs within the Central West RPA, shall not at any time exceed the total Redevelopment Project Costs described in Table 1 of this Redevelopment Plan.

The Central West RPA may become contiguous to, or separated only by a public right-of-way from,

other redevelopment project areas created under the Illinois Industrial Jobs Recovery Law, (65 ILCS 5/11-74.61-1 et. seq.). If the City finds that the goals, objectives and financial success of such contiguous redevelopment project areas or those separated only by a public right-of-way are interdependent with those of the Central West RPA, the City may determine that it is in the best interests of the City and in furtherance of the purposes of the Plan that net revenues from the Central West RPA be made available to support any such redevelopment project areas, and vice versa. The City, therefore, proposes to utilize net incremental revenues received from the Central West RPA to pay eligible redevelopment projects costs (which are eligible under the Industrial Jobs Recovery Law referred to above) in any such areas, and vice versa. Such revenues may be transferred or loaned between the Central West RPA and such areas. The amount of revenue from the Central West RPA so made available, when added to all amounts used to pay eligible Redevelopment Project Costs within the Central West RPA or other areas as described in the preceding paragraph, shall not at any time exceed the total Redevelopment Project Costs described in Table 1 of this Redevelopment Plan.

If necessary, the redevelopment plans for other contiguous redevelopment project areas that may be or already have been created under the Act may be drafted or amended as applicable to add appropriate and parallel language to allow for sharing of revenues between such districts.

Issuance of Obligations

To finance project costs, the City may issue bonds or obligations secured by the anticipated tax increment revenue generated within the Central West RPA, or such other bonds or obligations as the City may deem as appropriate. The City may require the utilization of guarantees, deposits or other forms of security made available by private sector developers to secure such obligations. In addition, the City may provide other legally permissible credit enhancements to any obligations issued pursuant to the Act.

All obligations issued by the City pursuant to this Redevelopment Plan and the Act shall be retired within the time frame described above. Also, the final maturity date of any such obligations which are issued may not be later than 20 years from their respective dates of issue. One or more of a series of obligations may be sold at one or more times in order to implement this Redevelopment Plan. The amounts payable in any year as principal and interest on all obligations issued by the City shall not exceed the amounts available from tax increment revenues, or other sources of funds, if any, as may be provided by ordinance. Obligations may be of parity or senior/junior lien nature. Obligations issued may be serial or term maturities, and may or may not be subject to mandatory, sinking fund, or optional redemptions.

In addition to paying redevelopment project costs, tax increment revenues may be used for the scheduled and/or early retirement of obligations, and for reserves, bond sinking funds and redevelopment project costs. To the extent that real property tax increment is not required for such purposes, revenues shall be declared surplus and become available for distribution annually to area taxing districts in the manner provided by the Act.

Most Recent Equalized Assessed Valuation of Properties in the Redevelopment Project Area

The purpose of identifying the most recent equalized assessed valuation ("EAV") of the Central West RPA is to provide an estimate of the initial EAV which the Cook County Clerk will certify for the purpose of annually calculating the incremental EAV and incremental property taxes of the Central West RPA. The 1998 EAV of all taxable parcels in the Central West RPA is approximately \$63,800,000. This total EAV amount by PIN is summarized in Appendix 4. The EAV is subject to verification by the Cook County Clerk. After verification, the final figure shall be certified by the Cook County Clerk, and shall become the Certified Initial EAV from which all incremental property taxes in the Redevelopment Project Area will be calculated by Cook County. If the 1999 EAV shall become available prior to the date of adoption of the Redevelopment Plan by the City Council, the City may update the Redevelopment Plan by replacing the 1998 EAV with the 1999 EAV without further City Council action.

Anticipated Equalized Assessed Valuation

By 2023, the EAV for the Central West RPA will be approximately \$201,400,000. This estimate is based on several key assumptions, including: 1) an inflation factor of 2% per year on the EAV of all properties within the Central West RPA, with its cumulative impact occurring in each triennial reassessment year; 2) an equalization factor of 2.1799; and 3) a tax rate of 8.872% for the duration of the Central West RPA.

6. Required Findings and Tests

Lack of Growth and Private Investment

The City is required to evaluate whether or not the RPA has been subject to growth and private investment and must substantiate a finding of lack of such investment prior to establishing a tax increment financing district.

First, while some market-based investment has occurred in the Central West RPA between 1994 and 1998, this investment has been minimal in scope and not part of any coordinated development strategy. Much of the growth in Equalized Assessed Valuation (“EAV”) during this period of time was limited to a small number of high-growth parcels whose 1998 assessed values were greater than \$100,000 and whose assessments grew 30% or more during the study period. These high-growth parcels represent less than one percent (.7%) of all parcels within the RPA and account for approximately 26% of the RPA’s total growth in EAV. An additional 3% of the parcels within the RPA grew in value as a result of public subsidy. These properties accounted for 13% of the total growth in EAV during this period of time. Combined, the high-growth and publically subsidized parcels have had minimal impact on the taxable value of surrounding properties. Excluding these parcels, the compound annual growth rate of EAV in the RPA was 2.88% between 1994 and 1998. This is 6% lower than the 3.06% growth experienced by the City of Chicago during this period and 23% lower than the 3.74% growth rate experienced by West Chicago Township.

As another method to examine the scope of new investment in the Central West RPA, *S. B. Friedman & Company* examined building permit data provided by the City of Chicago Department of Buildings for the period January 1994 to December 1998. This data revealed that 501 permits totaling \$67.7 million were issued within the Central West RPA. Approximately 90 of these permits were for building demolition and 32 were for Code Compliance. The remaining 379 were for new construction, rehabilitation, mechanical upgrades, or minor repairs not in response to code violations. Of these, approximately \$39.3 million (60%) was publicly initiated and \$13.4 million (21%) required some type of public assistance. Overall, it is estimated that approximately \$12.5 million of the \$65.2 million in new investment (excluding demolitions and code compliance permits) in the RPA (19 %) was completed by the private sector on its own, without public mandate or subsidy. This represents \$2.5 million per year, or approximately 2.6% of the total market value of all property within the TIF district. At this rate, it would take a substantial amount of time to replace all of the existing value in the RPA.

The impact on surrounding properties of the property investment on which building permits were issued has been minimal. These new investments and existing property improvements have not stimulated widespread new private investment in the Central West RPA.

Finding: The Redevelopment Project Area (Central West RPA) on the whole has not been subject to growth and development through investment by private enterprise and would not reasonably be anticipated to be developed without the adoption of the Redevelopment Plan.

But for....

The City is required to find that, but for the designation of the TIF district and the use of tax increment financing, it is unlikely that significant investment will occur in the Central West RPA.

Without the support of public resources, the redevelopment objectives of the Central West RPA would most likely not be realized. The scope of area-wide improvements and development assistance resources needed to rehabilitate the Central West RPA as a viable mixed-use district are expensive, and the private market, on its own, is not likely to absorb all of these costs. Resources to assist with site assembly and preparation, public infrastructure improvements, and private property rehabilitation are needed to leverage private investment and facilitate area-wide redevelopment consistent with the Redevelopment Plan. TIF funds will be used to fund land assembly, site preparation, infrastructure improvements, and building rehabilitation. Accordingly, but for creation of the Central West RPA, these projects, which would contribute substantially to area-wide redevelopment, are unlikely to occur without TIF designation for the Central West RPA.

Finding: But for the adoption of this Redevelopment Plan, critical resources will be lacking that would otherwise support the redevelopment of the Central West RPA and the Central West RPA would not reasonably be anticipated to be developed.

Conformance to the Plans of the City

The Central West RPA and Redevelopment Plan must conform to the comprehensive plan for the City, conform to the strategic economic development plans, or include land uses that have been approved by the Chicago Plan Commission.

The proposed land uses described in this Redevelopment Plan will be approved by the Chicago Plan Commission prior to its adoption by the City Council.

Dates of Completion

The dates of completion of the project and retirement of obligations are described under "Phasing and Scheduling of the Redevelopment" in Section 5 above.

Financial Impact of the Redevelopment Project

As explained above, without the adoption of this Redevelopment Plan and tax increment financing, the Central West RPA is not expected to be redeveloped by private enterprise. Additionally, there is a genuine threat that blighting conditions will continue to exist and spread, and that the entire area will become a less attractive place to maintain and improve existing buildings and sites. The lagging growth of property values also may lead to a decline of property values in surrounding areas and could lead to a reduction of real estate tax revenue to all taxing districts.

This document describes the comprehensive redevelopment program proposed to be undertaken by

the City to create an environment in which private investment can reasonably occur. The redevelopment program will be staged gradually over the life of the Central West RPA. If a redevelopment project is successful, various new projects will be undertaken that will assist in alleviating blighting conditions, creating new jobs, and promoting rehabilitation and development in the Central West RPA.

This Redevelopment Plan is expected to have short- and long-term financial impacts on the affected taxing districts. During the period when tax increment financing is utilized, real estate tax increment revenues from the increases in EAV over and above the certified initial EAV (established at the time of adoption of this document by the City) may be used to pay eligible redevelopment project costs for the Central West RPA. At the time when the Central West RPA is no longer in place under the Act, the real estate tax revenues resulting from the redevelopment of the Central West RPA will be distributed to all taxing district levying taxes against property located in the Central West RPA. These revenues will then be available for use by the affected taxing districts.

Demand on Taxing District Services and Program to Address Financial and Service Impact

The City intends to monitor development in the areas and with the cooperation of the other affected taxing districts will attempt to ensure that any increased needs are addressed in connection with any particular development. The following major taxing districts presently levy taxes on properties located within the Central West RPA and maintain the listed facilities within the boundaries of the RPA, or within close proximity (three to four blocks) to the RPA boundaries:

- = those facilities located within the boundaries of the RPA
- = those facilities located within close proximity (but outside the boundaries) of the RPA

County of Cook

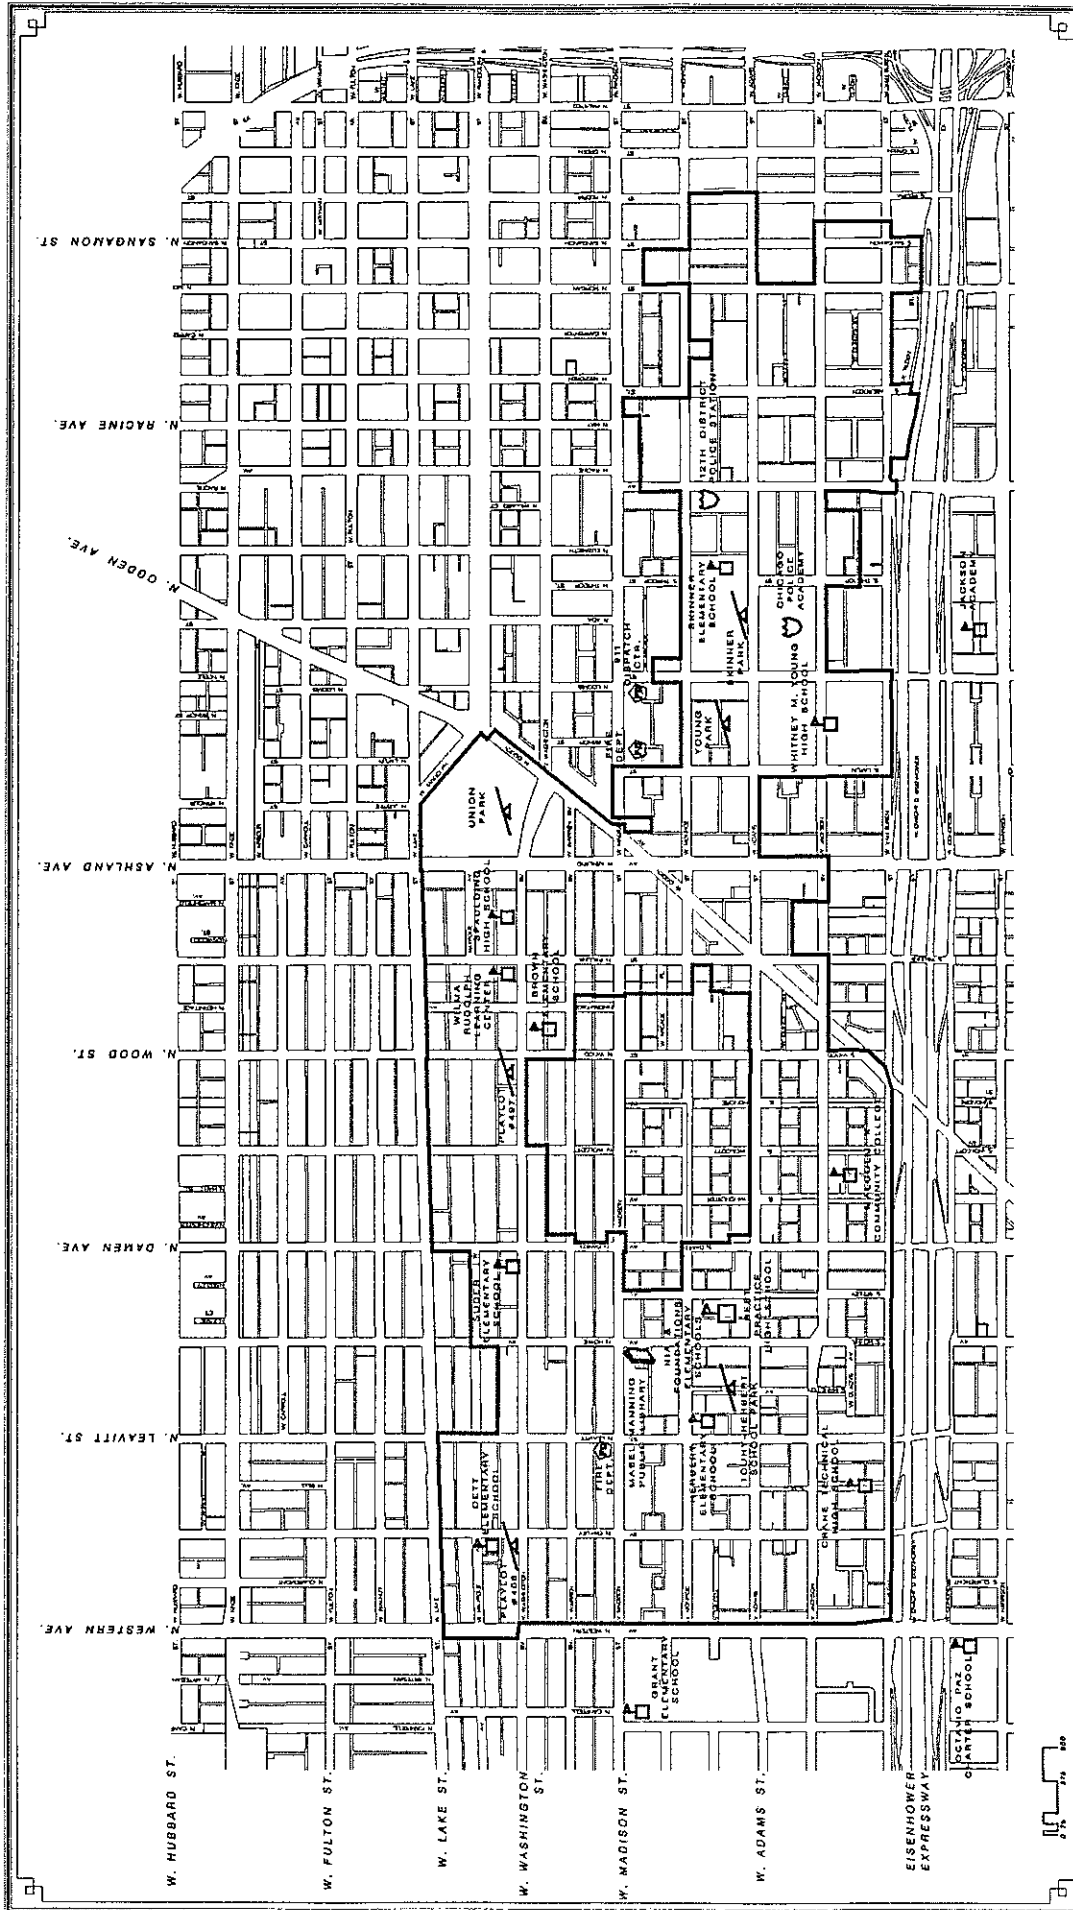

Cook County Forest Preserve District

Map 7 illustrates the locations of facilities operated by the above listed taxing districts within or in close proximity to the Central West RPA.

Redevelopment activity may cause increased demand for services from one or more of the above listed taxing districts. In 1994, the Act was amended to require an assessment of any financial impact of the Redevelopment Project Area on, or any increased demand for service from, any taxing district affected by the Redevelopment Plan, and a description of any program to address such financial impacts or increased demand.

The anticipated nature of increased demands for services on these taxing districts, and the proposed activities to address increased demand are described below.

City of Chicago. The City is responsible for a wide range of municipal services, including: police and fire protection; capital improvements and maintenance; water supply and distribution; sanitation service; and building, housing and zoning codes.

Replacement of vacant and under-utilized buildings and sites with active and more intensive uses may result in additional demands on services and facilities provided by the districts. Additional costs to the City for police, fire, library circulation, and recycling and sanitation services arising from residential and non-residential development may occur. However, it is expected that any increase in demand for the City services and programs associated with the Central West RPA can be handled adequately by City police, fire protection, library, sanitary collection and recycling services, and programs maintained and operated by the City. In addition to several public service facilities operated by the City within the Central West RPA, there also are public facilities in close proximity to the area. Therefore, no special programs are proposed for the City. In addition, to the extent that the revitalization efforts result in reduced crime and physical improvements which reduce the risk of fire, the Redevelopment Plan may actually result in some cost savings.

Chicago Board of Education and Associated Agencies. General responsibilities of the Board of Education include the provision, maintenance and operation of educational facilities and the provision of education services for kindergarten through twelfth grade.

It is likely that some families who purchase housing or rent new apartments in the Central West RPA will send their children to public schools, putting increased demand on area school districts. However, it is unlikely that the scope of new residential construction would exhaust existing capacity. Many of the new home owners or renters may come from the immediate neighborhood or may send their children to private schools, which would not impact the public school system. Existing absorption capacity was verified through data provided by the Office of Planning & Educational Programming at the Chicago Public Schools (CPS). These data reveal that for all the public schools that serve the area immediately surrounding the Central West RPA for which capacity data was available, existing enrollment is at approximately 50% of existing capacity. This means that an increase in the number of students in the area can be supported. The City intends to monitor development in the Central West RPA and, with the cooperation of the Board of Education, will attempt to ensure that any increased demands for the services and capital improvements provided by the Board of Education are addressed in connection with each new residential project.

Chicago Park District. The Park District is responsible for the provision, maintenance and operation of park and recreational facilities through the City and for the provision of recreation programs.

The replacement of vacant and underutilized properties with residential and non-residential development may result in an increase in population within the Central West RPA, which may result in additional demand for services from the district. It is expected that the households that may be added to the Central West RPA may generate additional demand for recreational services and programs and may create the need for additional open spaces and recreational facilities operated by the Chicago Park District. The City intends to monitor development in the Central West RPA and, with the cooperation of the Chicago Park District, will attempt to ensure that any increased demands for the services and capital improvements that may be provided by the Chicago Park District are addressed in connection with any particular residential development.

Community College District #508. This district is a unit of the State of Illinois' system of public community colleges, whose objective is to meet the educational needs of residents of the City and other students seeking higher education programs and services.

It is expected that any increase in demand for services from Community College District 508 can be handled adequately by the district's existing service capacity, programs and facilities. Therefore, at this time no special programs are proposed for this taxing district. Should demand increase, the City will work with the affected district to determine what, if any, program is necessary to provide adequate services.

Metropolitan Water Reclamation District. This district provides the main trunk lines for the collection of waste water from Cities, Villages and Towns, and for the treatment and disposal thereof.

It is expected that any increase in demand for treatment of sanitary and storm sewage associated with the Central West RPA can be handled adequately by existing treatment facilities maintained and operated by the Metropolitan Water Reclamation District of Greater Chicago. Therefore, no special program is proposed for the Metropolitan Water Reclamation District of Greater Chicago.

County of Cook. The County has principal responsibility for the protection of persons and property, the provision of public health services and the maintenance of County highways.

It is expected that any increase in demand for Cook County services can be handled adequately by existing services and programs maintained and operated by the County. Therefore, at this time, no special programs are proposed for these taxing districts. Should demand increase, the City will work with the affected taxing districts to determine what, if any, program is necessary to provide adequate services.

Cook County Forest Preserve District. The Forest Preserve District is responsible for acquisition, restoration and management of lands for the purpose of protecting and preserving open space in the City and County for the education, pleasure and recreation of the public. It is expected that any increase in demand for Forest Preserve services can be handled adequately by existing facilities and programs maintained and operated by the District. No special programs are proposed for the Forest Preserve.

Given the preliminary nature of the Redevelopment Plan, specific fiscal impacts on the taxing districts and increases in demand for services provided by those districts cannot accurately be assessed within the scope of this plan.

7. Provisions for Amending Action Plan

This Redevelopment Plan and Project document may be amended pursuant to the provisions of the Act.

8. Commitment to Fair Employment Practices and Affirmative Action Plan

The City is committed to and will require developers to follow and affirmatively implement the following principles with respect to this Redevelopment Plan. However, the City may implement programs aimed at assisting small businesses which may not be subject to these requirements.

- A. The assurance of equal opportunity in all personnel and employment actions with respect to this Redevelopment Plan and project, including, but not limited to, hiring, training, transfer, promotion, discipline, fringe benefits, salary, employment working conditions, terminations, etc. without regard to race, color, religion, sex, age, handicapped status, national origin, sexual preference, creed, or ancestry.
- B. Meeting City standards for participation of Minority Business Enterprise and Women Business Enterprise businesses as required in redevelopment agreements.
- C. The commitment to affirmative action and non-discrimination will ensure that all members of the protected groups are sought out to compete for all job openings and promotional opportunities.
- D. Meeting City standards for the hiring of City residents to work on redevelopment project construction projects.

THENCE SOUTH ALONG SAID EAST LINE OF S. LOOMIS STREET TO THE SOUTH LINE OF W. VAN BUREN STREET;

THENCE WEST ALONG SAID SOUTH LINE OF W. VAN BUREN STREET TO THE WEST LINE OF S. LAFLIN STREET;

THENCE NORTH ALONG SAID WEST LINE OF S. LAFLIN STREET TO THE SOUTH LINE OF W. ADAMS STREET;

THENCE WEST ALONG SAID SOUTH LINE OF W. ADAMS STREET TO THE EAST LINE OF S. ASHLAND AVENUE;

THENCE SOUTH ALONG SAID EAST LINE OF S. ASHLAND AVENUE TO THE SOUTH LINE OF W. JACKSON BOULEVARD;

THENCE WEST ALONG SAID SOUTH LINE OF W. JACKSON BOULEVARD TO THE SOUTHERLY EXTENSION OF THE WEST LINE OF THE EAST 10 FEET OF LOT 13 IN WALKER & KREIGH'S RESUBDIVISION OF BLOCK 16 AND 19 IN S. F. SMITH'S SUBDIVISION OF THE NORTHEAST QUARTER OF THE NORTHEAST QUARTER OF SECTION 18, TOWNSHIP 39 NORTH, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN;

THENCE NORTH ALONG SAID SOUTHERLY EXTENSION AND THE WEST LINE OF THE EAST 10 FEET OF LOT 13 IN WALKER & KREIGH'S RESUBDIVISION TO THE NORTH LINE OF SAID LOT 13, SAID NORTH LINE OF LOT 13 BEING ALSO THE SOUTH LINE OF THE ALLEY NORTH OF W. JACKSON BOULEVARD;

THENCE WEST ALONG SAID SOUTH LINE OF THE ALLEY NORTH OF W. JACKSON BOULEVARD TO THE EAST LINE OF S. PAULINA AVENUE;

THENCE SOUTH ALONG SAID EAST LINE OF S. PAULINA AVENUE TO THE SOUTH LINE OF W. JACKSON BOULEVARD;

THENCE WEST ALONG SAID SOUTH LINE OF W. JACKSON BOULEVARD TO THE EAST LINE OF S. WOOD STREET;

THENCE SOUTH ALONG SAID EAST LINE OF S. WOOD STREET TO THE SOUTHEASTERLY LINE OF OGDEN AVENUE;

THENCE SOUTHWESTERLY ALONG SAID SOUTHEASTERLY LINE OF OGDEN AVENUE TO THE SOUTH LINE OF W. VAN BUREN STREET;

THENCE WEST ALONG SAID SOUTH LINE OF W. VAN BUREN STREET TO THE EAST LINE OF S. WESTERN AVENUE;

THENCE NORTH ALONG SAID EAST LINE OF S. WESTERN AVENUE AND ALONG THE EAST LINE OF N. WESTERN AVENUE TO THE NORTH LINE OF W. WASHINGTON BOULEVARD;

THENCE WEST ALONG SAID NORTH LINE OF W. WASHINGTON BOULEVARD TO THE WEST LINE OF N. WESTERN AVENUE;

THENCE NORTH ALONG SAID WEST LINE OF N. WESTERN AVENUE TO THE SOUTHERLY LINE OF W. LAKE STREET;

THENCE EASTERLY ALONG SAID SOUTHERLY LINE OF W. LAKE STREET TO THE EAST LINE OF N. LEAVITT STREET;

THENCE SOUTH ALONG SAID EAST LINE OF N. LEAVITT STREET TO THE SOUTH LINE OF LOT 60 IN THOMAS STENSON'S SUBDIVISION OF BLOCK 54 OF THE CANAL TRUSTEE'S SUBDIVISION OF SECTION 7, TOWNSHIP 39 NORTH, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN, SAID SOUTH LINE OF LOT 60 BEING ALSO THE NORTH LINE OF THE ALLEY SOUTH OF W. MAYPOLE AVENUE;

THENCE EAST ALONG SAID NORTH LINE OF THE ALLEY SOUTH OF W. MAYPOLE AVENUE TO THE EAST LINE OF LOT 41 IN SAID THOMAS STENSON'S SUBDIVISION OF BLOCK 54 OF THE CANAL TRUSTEE'S SUBDIVISION, SAID EAST LINE OF LOT 41 BEING ALSO THE WEST LINE OF N. HOYNE AVENUE;

THENCE NORTH ALONG SAID WEST LINE OF N. HOYNE AVENUE TO THE WESTERLY EXTENSION OF THE NORTH LINE OF LOT 2 IN STREGER'S RESUBDIVISION OF LOT 10 TO 12 IN A. D. TAYLOR'S SUBDIVISION OF THE SOUTHWEST QUARTER OF BLOCK 54 OF THE CANAL TRUSTEE'S SUBDIVISION OF SECTION 7, TOWNSHIP 39 NORTH, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN, SAID NORTH LINE OF LOT 2 BEING ALSO THE SOUTH LINE OF W. MAYPOLE AVENUE;

THENCE EAST ALONG SAID SOUTH LINE OF W. MAYPOLE AVENUE TO THE WEST LINE OF N. DAMEN AVENUE;

THENCE NORTH ALONG SAID WEST LINE OF N. DAMEN AVENUE TO THE SOUTHERLY LINE OF W. LAKE STREET;

THENCE EASTERLY ALONG SAID SOUTHERLY LINE OF W. LAKE STREET TO THE WEST LINE OF N. HERMITAGE AVENUE;

THENCE SOUTH ALONG SAID WEST LINE OF N. HERMITAGE AVENUE TO THE WESTERLY EXTENSION OF THE NORTH LINE OF LOT 6 IN BLOCK 1 (NORTH OF W. WASHINGTON BOULEVARD) IN PAGE & WOOD'S SUBDIVISION OF OUTLOTS 50, 63 AND 64 IN CANAL TRUSTEE'S SUBDIVISION OF SECTION 7, TOWNSHIP 39 NORTH, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN, SAID NORTH LINE OF LOT 6 BEING ALSO THE SOUTHERLY LINE OF W. LAKE STREET;

THENCE EASTERLY ALONG SAID WESTERLY EXTENSION AND THE SOUTHERLY LINE OF W. LAKE STREET TO THE SOUTHWESTERLY LINE OF W. RANDOLPH STREET (FORMERLY BRYAN PLACE);

THENCE SOUTHEASTERLY ALONG SAID SOUTHWESTERLY LINE OF W. RANDOLPH STREET (FORMERLY BRYAN PLACE) TO THE NORTHWESTERLY LINE OF OGDEN AVENUE;

THENCE SOUTHWESTERLY ALONG SAID NORTHWESTERLY LINE OF OGDEN AVENUE TO THE NORTHWESTERLY EXTENSION OF THE NORTHEASTERLY LINE OF LOT 1 IN WEBSTER'S SUBDIVISION OF LOT 6 TO 15, INCLUSIVE, OF BLOCK 2 IN UNION PARK ADDITION TO CHICAGO, A SUBDIVISION OF LOTS 5 AND 6 IN THE CIRCUIT COURT PARTITION OF THE SOUTHWEST QUARTER OF SECTION 8, TOWNSHIP 39 NORTH, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN;

THENCE SOUTHEASTERLY ALONG SAID NORTHWESTERLY EXTENSION OF THE NORTHEASTERLY LINE OF LOT 1 IN WEBSTER'S SUBDIVISION TO THE SOUTHEASTERLY LINE OF SAID OGDEN AVENUE;

THENCE SOUTHWESTERLY ALONG SAID SOUTHEASTERLY LINE OF OGDEN AVENUE TO THE WEST LINE OF LOT 15 IN BLOCK 6 IN LAFLIN & LOOMIS' RESUBDIVISION OF BLOCKS 5, 18, 21, 30, 31, 32, 33, AND 41 AND THE SUBDIVISION OF BLOCKS 6, 9, 19 AND 20 IN THE CANAL TRUSTEE'S SUBDIVISION OF THE WEST HALF AND THE WEST HALF OF THE NORTHEAST QUARTER OF SECTION 17, TOWNSHIP 39 NORTH, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN, SAID WEST LINE OF LOT 15 BEING ALSO THE EAST LINE OF THE ALLEY EAST OF S. ASHLAND AVENUE;

THENCE SOUTH ALONG SAID WEST LINE OF LOT 15 IN BLOCK 6 IN LAFLIN & LOOMIS' RESUBDIVISION OF BLOCKS 5, 18, 21, 30, 31, 32, 33, AND 41 AND THE SUBDIVISION OF BLOCKS 6, 9, 19 AND 20 IN THE CANAL TRUSTEE'S SUBDIVISION TO THE SOUTH LINE OF SAID LOT 15, SAID SOUTH LINE OF LOT 15 BEING ALSO THE

NORTH LINE OF THE ALLEY SOUTH OF W. MADISON STREET;

THENCE EAST ALONG SAID NORTH LINE OF THE ALLEY SOUTH OF W. MADISON STREET TO THE EAST LINE OF LOT 12 IN SAID BLOCK 6 IN LAFLIN & LOOMIS' RESUBDIVISION OF BLOCKS 5, 18, 21, 30, 31, 32, 33, AND 41 AND THE SUBDIVISION OF BLOCKS 6, 9, 19 AND 20 IN THE CANAL TRUSTEE'S SUBDIVISION;

THENCE NORTH ALONG SAID EAST LINE OF LOT 12 IN BLOCK 6 IN LAFLIN & LOOMIS' RESUBDIVISION OF BLOCKS 5, 18, 21, 30, 31, 32, 33, AND 41 AND THE SUBDIVISION OF BLOCKS 6, 9, 19 AND 20 IN THE CANAL TRUSTEE'S SUBDIVISION AND ALONG THE NORTHERLY EXTENSION THEREOF TO THE NORTH LINE OF W. MADISON STREET;

THENCE EAST ALONG SAID NORTH LINE OF W. MADISON STREET TO THE NORTHERLY EXTENSION OF THE WEST LINE OF LOT 24 IN BLOCK 5 IN LAFLIN & LOOMIS' RESUBDIVISION OF BLOCKS 5, 18, 21, 30, 31, 32, 33, AND 41 AND THE SUBDIVISION OF BLOCKS 6, 9, 19 AND 20 IN THE CANAL TRUSTEE'S SUBDIVISION, SAID WEST LINE OF LOT 24 BEING ALSO THE EAST LINE OF S. LAFLIN STREET;

THENCE SOUTH ALONG SAID EAST LINE OF S. LAFLIN STREET TO THE NORTH LINE OF W. MONROE STREET;

THENCE EAST ALONG SAID NORTH LINE OF W. MONROE STREET TO THE WEST LINE OF S. LOOMIS STREET;

THENCE NORTH ALONG SAID WEST LINE OF S. LOOMIS STREET TO THE WESTERLY EXTENSION OF THE SOUTH LINE OF LOT 5 IN COUNTY CLERK'S DIVISION OF BLOCK 4 OF THE CANAL TRUSTEE'S SUBDIVISION OF THE WEST HALF AND THE WEST HALF TO THE NORTHEAST QUARTER OF SECTION 17, TOWNSHIP 39 NORTH, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN;

THENCE EAST ALONG SAID WESTERLY EXTENSION AND THE SOUTH LINE OF LOT 5 IN COUNTY CLERK'S DIVISION OF BLOCK 4 OF THE CANAL TRUSTEE'S SUBDIVISION TO A LINE 90 FEET EAST OF AND PARALLEL WITH THE EAST LINE OF S. LOOMIS AVENUE;

THENCE SOUTH ALONG SAID LINE 90 FEET EAST OF AND PARALLEL WITH THE EAST LINE OF S. LOOMIS AVENUE TO THE NORTH LINE OF W. MONROE STREET;

THENCE EAST ALONG SAID NORTH LINE OF W. MONROE STREET TO THE WEST LINE OF S. RACINE AVENUE;

THENCE NORTH ALONG SAID WEST LINE OF S. RACINE AVENUE TO THE WESTERLY EXTENSION OF THE SOUTH LINE OF LOT 25 IN HAYES' SUBDIVISION OF BLOCK 2 OF THE CANAL TRUSTEE'S SUBDIVISION OF THE WEST HALF AND THE WEST HALF TO THE NORTHEAST QUARTER OF SECTION 17, TOWNSHIP 39 NORTH, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN, SAID SOUTH LINE OF LOT 25 IN HAYES' SUBDIVISION BEING ALSO THE NORTH LINE OF W. RUNDELL PLACE;

THENCE EAST ALONG SAID WESTERLY EXTENSION AND ALONG THE NORTH LINE OF W. RUNDELL PLACE TO THE EAST LINE OF LOT 8 IN SAID HAYES' SUBDIVISION OF BLOCK 2 OF THE CANAL TRUSTEE'S SUBDIVISION;

THENCE NORTH ALONG SAID EAST LINE OF LOT 8 IN HAYES' SUBDIVISION OF BLOCK 2 OF THE CANAL TRUSTEE'S SUBDIVISION TO THE SOUTH LINE OF W. MADISON STREET;

THENCE EAST ALONG SAID SOUTH LINE OF W. MADISON STREET TO THE WEST LINE OF S. ABERDEEN STREET;

THENCE SOUTH ALONG SAID WEST LINE OF S. ABERDEEN STREET TO THE SOUTH LINE OF W. MONROE STREET;

THENCE EAST ALONG SAID SOUTH LINE OF W. MONROE STREET TO THE WEST LINE OF THE EAST 50 FEET OF LOT 2 IN THE ASSESSOR'S SUBDIVISION OF BLOCK 13 IN CANAL TRUSTEE'S SUBDIVISION OF THE WEST HALF AND THE WEST HALF TO THE NORTHEAST QUARTER OF SECTION 17, TOWNSHIP 39 NORTH, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN;

THENCE SOUTH ALONG SAID WEST LINE OF THE EAST 50 FEET OF LOT 2 IN THE ASSESSOR'S SUBDIVISION OF BLOCK 13 IN CANAL TRUSTEE'S SUBDIVISION TO THE NORTH LINE OF LOT 5 IN SAID ASSESSOR'S SUBDIVISION OF BLOCK 13 IN CANAL TRUSTEE'S SUBDIVISION;

THENCE EAST ALONG SAID NORTH LINE OF LOT 5 AND ALONG THE NORTH LINE OF LOT 6 IN SAID ASSESSOR'S SUBDIVISION OF BLOCK 13 IN CANAL TRUSTEE'S SUBDIVISION TO THE EAST LINE OF LOT 6 IN THE ASSESSOR'S DIVISION OF LOT 1 OF BLOCK 13 IN CANAL TRUSTEE'S SUBDIVISION OF THE WEST HALF AND THE WEST

HALF TO THE NORTHEAST QUARTER OF SECTION 17, TOWNSHIP 39 NORTH, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN;

THENCE NORTH ALONG SAID EAST LINE OF LOT 6 IN THE ASSESSOR'S DIVISION OF LOT 1 OF BLOCK 13 IN CANAL TRUSTEE'S SUBDIVISION TO THE SOUTH LINE OF W. MONROE STREET;

THENCE EAST ALONG SAID SOUTH LINE OF W. MONROE STREET TO THE EAST LINE OF S. MORGAN AVENUE;

THENCE NORTH ALONG SAID EAST LINE OF S. MORGAN AVENUE TO THE SOUTH LINE OF LOT 14 IN BLOCK 4 IN DUNCAN'S ADDITION TO CHICAGO, A SUBDIVISION OF THE EAST HALF OF THE NORTHEAST QUARTER OF SECTION 17, TOWNSHIP 39 NORTH, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN;

THENCE EAST ALONG SAID SOUTH LINE OF LOT 14 AND ALONG THE SOUTH LINE OF LOT 3 IN SAID BLOCK 4 IN DUNCAN'S ADDITION TO CHICAGO TO THE WEST LINE OF S. SANGAMON STREET;

THENCE SOUTH ALONG SAID WEST LINE OF S. SANGAMON STREET TO THE SOUTH LINE OF W. MONROE STREET;

THENCE EAST ALONG SAID SOUTH LINE OF W. MONROE STREET TO THE EAST LINE OF S. PEORIA STREET;

THENCE SOUTH ALONG SAID EAST LINE OF S. PEORIA STREET TO THE SOUTH LINE OF W. ADAMS STREET;

THENCE WEST ALONG SAID SOUTH LINE OF W. ADAMS STREET TO THE POINT OF BEGINNING AT THE EAST LINE OF S. MORGAN STREET.

EXCEPTING FROM THE FOREGOING ALL THAT PART OF THE SOUTH HALF OF SECTION 7 AND THE NORTH HALF OF SECTION 18, ALL IN TOWNSHIP 39 NORTH, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN BOUNDED AND DESCRIBED AS FOLLOWS:

BEGINNING AT THE POINT OF INTERSECTION OF THE EAST LINE OF S. SEELEY AVENUE WITH THE SOUTH LINE OF W. MADISON STREET;

THENCE EAST ALONG SAID SOUTH LINE OF W. MADISON STREET TO THE SOUTHERLY EXTENSION OF THE EAST LINE OF THE WEST 3.00 FEET OF LOT 74 OF THE PLAT OF SUBDIVISION OF BLOCK 61 OF THE CANAL TRUSTEE'S SUBDIVISION OF SECTION 17, TOWNSHIP 39 NORTH, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN;

THENCE NORTH ALONG SAID SOUTHERLY EXTENSION AND THE EAST LINE OF THE WEST 3.00 FEET OF LOT 74 OF SAID PLAT OF SUBDIVISION OF BLOCK 61 OF THE CANAL TRUSTEE'S SUBDIVISION OF SECTION 17 TO A LINE 47.5 FEET NORTH OF AND PARALLEL WITH THE NORTH LINE OF W. MADISON STREET;

THENCE WEST ALONG SAID LINE 47.5 FEET NORTH OF AND PARALLEL WITH THE NORTH LINE OF W. MADISON STREET TO THE EAST LINE OF N. DAMEN AVENUE;

THENCE NORTH ALONG SAID EAST LINE OF N. DAMEN AVENUE TO THE SOUTH LINE OF W. WARREN AVENUE;

THENCE EAST ALONG SAID SOUTH LINE OF W. WARREN AVENUE TO THE SOUTHERLY EXTENSION OF THE WEST LINE OF LOT 28 OF SAID PLAT OF SUBDIVISION OF BLOCK 61 OF THE CANAL TRUSTEE'S SUBDIVISION OF SECTION 17;

THENCE NORTH ALONG SAID SOUTHERLY EXTENSION AND THE WEST LINE OF LOT 28 OF THE PLAT OF SUBDIVISION OF BLOCK 61 OF THE CANAL TRUSTEE'S SUBDIVISION OF SECTION 17 TO THE NORTH LINE THEREOF, SAID NORTH LINE OF LOT 28 BEING ALSO THE SOUTH LINE OF THE ALLEY NORTH OF W. WARREN AVENUE;

THENCE EAST ALONG SAID SOUTH LINE OF THE ALLEY NORTH OF W. WARREN AVENUE TO THE EAST LINE OF S. WOLCOTT STREET;

THENCE NORTH ALONG SAID EAST LINE OF S. WOLCOTT STREET TO THE SOUTH LINE OF W. WASHINGTON BOULEVARD;

THENCE EAST ALONG SAID SOUTH LINE OF W. WASHINGTON BOULEVARD TO THE WEST LINE OF N. WOOD STREET;

THENCE SOUTH ALONG SAID WEST LINE OF N. WOOD STREET TO THE SOUTH LINE OF W. WARREN AVENUE;

THENCE EAST ALONG SAID SOUTH LINE OF W. WARREN AVENUE TO THE WEST

LINE OF THE EAST 30.1 FEET OF LOT 5 IN BLOCK 4 (SOUTH OF WASHINGTON BOULEVARD) IN PAGE & WOOD'S SUBDIVISION OF OUTLOTS 50, 63 AND 64 IN THE CANAL TRUSTEE'S SUBDIVISION OF SECTION 7, TOWNSHIP 39 NORTH, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN;

THENCE SOUTH ALONG SAID WEST LINE OF THE EAST 30.1 FEET OF LOT 5 IN BLOCK 4 (SOUTH OF WASHINGTON BOULEVARD) IN PAGE & WOOD'S SUBDIVISION TO THE SOUTH LINE OF SAID LOT 5;

THENCE SOUTHWESTERLY ALONG A STRAIGHT LINE TO THE NORTHWEST CORNER OF LOT 8 IN SAID BLOCK 4 (SOUTH OF WASHINGTON BOULEVARD) IN PAGE & WOOD'S SUBDIVISION;

THENCE SOUTH ALONG THE WEST LINE OF SAID LOT 8 IN SAID BLOCK 4 (SOUTH OF WASHINGTON BOULEVARD) IN PAGE & WOOD'S SUBDIVISION TO THE NORTH LINE OF W. MADISON STREET;

THENCE EAST ALONG SAID NORTH LINE OF W. MADISON STREET TO THE NORTHERLY EXTENSION OF THE WEST LINE OF THE PARCEL OF LAND BEARING PIN 17-18-501-012, SAID WEST LINE BEING THE WEST LINE OF LOT 4 IN BLOCK 22 IN SAMUEL F. SMITH'S SUBDIVISION OF THE NORTHEAST QUARTER OF THE NORTHEAST QUARTER OF SECTION 18, TOWNSHIP 39 NORTH, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN;

THENCE SOUTH ALONG SAID NORTHERLY EXTENSION AND THE WEST LINE OF LOT 4 IN BLOCK 22 IN SAMUEL F. SMITH'S SUBDIVISION AND ALONG THE SOUTHERLY EXTENSION THEREOF TO THE CENTERLINE OF THE ALLEY LYING SOUTH OF AND ADJOINING THE SOUTH LINE OF SAID LOT 4;

THENCE EAST ALONG SAID ALLEY CENTERLINE TO THE NORTHERLY EXTENSION OF THE EAST LINE OF LOT "A" IN GARRETT'S CONSOLIDATION OF SUNDRY LOTS IN BLOCKS 4, 22 AND 24 IN SAMUEL F. SMITH'S SUBDIVISION, ALSO SUNDRY LOTS IN CIRCUIT COURT SUBDIVISION, ALL IN THE NORTHEAST QUARTER OF THE NORTHEAST QUARTER OF SECTION 18, TOWNSHIP 39 NORTH, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN;

THENCE SOUTH ALONG SAID NORTHERLY EXTENSION AND THE EAST LINE OF LOT "A" IN GARRETT'S CONSOLIDATION AND ALONG THE SOUTHERLY EXTENSION THEREOF TO THE CENTERLINE OF ARCADE PLACE;

THENCE WEST ALONG SAID CENTERLINE OF ARCADE PLACE TO THE NORTHERLY EXTENSION OF THE EAST LINE OF THE WEST 14.77 FEET OF LOT 4 IN BLOCK 28 IN SAID SAMUEL F. SMITH'S SUBDIVISION OF THE NORTHEAST QUARTER OF THE NORTHEAST QUARTER OF SECTION 18, TOWNSHIP 39 NORTH, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN;

THENCE SOUTH ALONG SAID NORTHERLY EXTENSION AND THE EAST LINE OF THE WEST 14.77 FEET OF LOT 4 IN BLOCK 28 IN SAID SAMUEL F. SMITH'S SUBDIVISION AND ALONG THE SOUTHERLY EXTENSION THEREOF TO THE SOUTH LINE OF W. MONROE STREET;

THENCE EAST ALONG SAID SOUTH LINE OF W. MONROE STREET TO THE WEST LINE OF S. PAULINA STREET;

THENCE SOUTH ALONG SAID WEST LINE OF S. PAULINA STREET TO THE SOUTH LINE OF LOT 1 IN THE ASSESSOR'S DIVISION OF LOTS 8, 9 AND 10 OF BLOCKS 12 AND 13 IN SAMUEL F. SMITH'S SUBDIVISION OF THE NORTHEAST QUARTER OF THE NORTHEAST QUARTER OF SECTION 18, TOWNSHIP 39 NORTH, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN, SAID SOUTH LINE OF LOT 1 IN THE ASSESSOR'S DIVISION BEING ALSO THE NORTH LINE OF THE ALLEY SOUTH OF MONROE STREET;

THENCE WEST ALONG SAID NORTH LINE OF THE ALLEY SOUTH OF MONROE STREET TO THE NORTHERLY EXTENSION OF THE EAST LINE OF LOT 53 IN BLOCK 12 IN H. H. WALKER'S RESUBDIVISION OF BLOCKS 12 AND 13 IN SAID SAMUEL F. SMITH'S SUBDIVISION, SAID EAST LINE OF LOT 53 BEING ALSO THE WEST LINE OF THE ALLEY WEST OF S. PAULINA STREET;

THENCE SOUTH ALONG SAID NORTHERLY EXTENSION AND THE EAST LINE OF LOT 53 IN BLOCK 12 IN H. H. WALKER'S RESUBDIVISION TO THE SOUTH LINE OF SAID LOT 53, SAID SOUTH LINE OF LOT 53 BEING ALSO THE NORTH LINE OF THE ALLEY NORTH OF ADAMS STREET;

THENCE WEST ALONG SAID NORTH LINE OF THE ALLEY NORTH OF ADAMS STREET TO THE NORTHERLY EXTENSION OF THE WEST LINE OF THE EAST 6.00 FEET OF LOT 40 IN BLOCK 13 IN SAID H. H. WALKER'S RESUBDIVISION;

THENCE SOUTH ALONG SAID NORTHERLY EXTENSION AND THE WEST LINE OF THE EAST 6.00 FEET OF LOT 40 IN BLOCK 13 IN H. H. WALKER'S RESUBDIVISION TO THE

NORTH LINE OF W. ADAMS STREET;

THENCE WEST ALONG SAID NORTH LINE OF W. ADAMS STREET TO THE EAST LINE OF LOT 18 IN BLOCK 5 IN ASHLAND'S SECOND ADDITION TO CHICAGO, A SUBDIVISION OF THE WEST HALF OF THE NORTHEAST QUARTER OF SECTION 18, TOWNSHIP 39 NORTH, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN;

THENCE NORTH ALONG SAID EAST LINE OF LOT 18 IN BLOCK 5 IN ASHLAND'S SECOND ADDITION TO CHICAGO AND ALONG THE NORTHERLY EXTENSION THEREOF TO THE SOUTH LINE OF LOT 6 IN BOWEN'S SUBDIVISION OF LOTS 12 TO 16 IN BLOCK 5 OF ASHLAND'S SECOND ADDITION TO CHICAGO, A SUBDIVISION OF THE WEST HALF OF THE NORTHEAST QUARTER OF SECTION 18, TOWNSHIP 39 NORTH, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN, SAID SOUTH LINE OF LOT 6 BEING ALSO THE NORTH LINE OF THE ALLEY NORTH OF W. ADAMS STREET;

THENCE WEST ALONG SAID NORTH LINE OF THE ALLEY NORTH OF W. ADAMS STREET TO THE EAST LINE OF S. DAMEN AVENUE;

THENCE NORTH ALONG SAID EAST LINE OF S. DAMEN AVENUE TO THE NORTH LINE OF W. MONROE STREET;

THENCE WEST ALONG SAID NORTH LINE OF W. MONROE STREET TO THE EAST LINE OF S. SEELEY AVENUE;

THENCE NORTH ALONG SAID EAST LINE OF S. SEELEY AVENUE TO THE POINT OF BEGINNING FOR THIS EXCEPTION PARCEL AT THE SOUTH LINE OF W. MADISON STREET;

ALL IN THE CITY OF CHICAGO, COOK COUNTY, ILLINOIS.

Block-by-Block Distribution of Eligibility Factors

Number of Blocks	Stairwell Block Numbers	Age	Dilapidation	Obsolescence	Deterioration	Illegal Use	Below Minimum Code	Abandonment	Excessive Vacancies	Overcrowding	Lack of Vent, Light, or Sanitary Facilities	Inadequate Utilities	Land Coverage	Detracting Land Use or Layout	Depreciation	Lack of Community Planning
100	17 18 218	xx		x			xx							xx		
101	17 18 219	xx			xx		xx	x						xx		
102	17 18 220				xx											
103	17 18 221*				xx											
104	17 18 222*				xx											
105	17 18 223	xx		x			xx									
106	17 18 224*				xx											
107	17 18 225															
108	17 18 226															
109	17 18 227*															
110	17 18 501*				xx											

Notes:

- (1) xx signifies those factors present to a major extent.
- (2) x signifies those supporting factors present to minor extent.
- (3) Gray shaded columns indicate that these factors are not present within the proposed RPA to either a minor or major extent.
- (4) * indicates that those blocks do not contain buildings.

*This list indicates those parcels in the Central West RPA that have been identified for acquisition in previously adopted underlying Redevelopment Plans. The Central West Redevelopment Area Plan and the Madison-Western Redevelopment Area Plan and subsequent amendments to these plans, established City authority to acquire and assemble property. Such acquisition and assembly under that authority is consistent with this TIF redevelopment Plan. Nothing in this Redevelopment Plan shall be deemed to limit or adversely affect the authority of the City under the Central West Redevelopment Plan or the Madison-Western Redevelopment Plan to acquire and assemble property. Accordingly, incremental property taxes from the Project Area may be used to fund the acquisition and assembly of property by the City under the authority of the Central West Redevelopment Area Plan and the Madison-Western Redevelopment Area Plan within the Central West Redevelopment Project Area.
