Memorandum

 Re: Request for Emergency Contract for Lumber

On December 1, 2010, Arrow Lumber Co. was debarred from doing business with the City. On March 15, 2011 an emergency contract with Maywood Industries was terminated.

DGS manages over 400 facilities citywide. It is critical to DGS operations that we have a means to purchase lumber for routine maintenance and repairs at these facilities until such time that a new term agreement is advertised and awarded. Failure to make these needed repairs may result in costly damage to the structure and equipment, as well as jeopardize the safety of city employees and the general public.

On September 15, 2010, DGS entered requisition no. 53054 for a new 5-year term agreement for the Purchase of Lumber. Attached is a project checklist for the new specification which is currently in the pre-approved status.

In light of these circumstances, DGS requests an Emergency Contract to purchase lumber until such time that the new term agreement is awarded. Please find attached a draft Scope of Services and Bid Solicitation document for your approval.

Based upon past spending, as well as existing and future project needs, DGS projects that it will require \$40,000 for this contract, depending upon bid submittals. This amount was calculated as follows:

DGS Spending through Arrow Lumber contract Feb. 2007 – Dec. 2010.	\$64,693.05
Average Annual Spending	\$16,876.00
Projected Spending through Emergency Contract	\$40,000.00

Please find attached a draft specification for the Emergency Contract. DGS will solicit bids from 10 reputable local companies, two of which are certified target market vendors. DGS requests DPS authorization to solicit these proposals as soon as possible.

Thank you for your assistance.
