Estimated Cost: \$700,000.00  
Specification Number: FH Paschen - 34535  
Funding Source: GOB Funds

Dear Ms. Lumpkin:

We request that the above referenced project be contracted under the Job Order Contracting (JOC) Method. Attachment A describes the scope of work and the appropriateness for using JOC for this project.

If you concur with our recommendation, please sign below and return a copy for our files.

Sincerely,

Cheri Heramb  
Acting Commissioner

### Attachment A

#### Utilizing JOC For City Construction Projects

Project Number: 06-84-7-034

Department: Transportation

Project Manager: Scott Waldinger

Telephone #: (312) 744-5887

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3,4 and 5. Attach to MOA (JOC Approval Letter)

**1. Please describe the major features of this project.**

Old Town Pocket Parks involve the refurbishment of 2 public park spaces on former ROW space in Old Town

**2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.**

This project is a time-sensitive construction and installation at a small scale. As such, the urgency and efficiency needed to complete the project during the 2006 construction year can best be managed via the JOC process. Old Town Pocket Parks were requested by Alderman Daley.

**3. If the project is a one trade project, please provide additional explanation of why it would be in the city's best interest to do the project under JOC:**

This project involves the use of multiple trades for construction and installation.

**4. If it is anticipated that over 25% of the project will consist of Non-prepriced items, please provide an explanation on why JOC should be used.**

N/A

**5. If some elements of the proposed JOC project scope of work are covered by city term agreements, explain why they are included in this JOC project instead of being procured through the term agreements.**

The use of the JOC process would assist in the management and implementation of this time-sensitive project. By utilizing the JOC process, efficient timing of construction and installation can be maintained for completion during the 2006 construction year.
