TIMELINE

RACIAL EQUITY IMPACT ASSESSMENT

- ▶ Investigate the benefits and burdens of a project, especially as they relate to minority populations and those who have previously been underrepresented or left out of the decision-making process.

WHAT IS AN REIA?

A Racial Equity Impact Assessment (REIA) is a set of questions to investigate the benefits and burdens of a policy or practice.

STEP 1: DETERMINE OUTCOMES AND STAKEHOLDERS.

- Q1. What is the policy and what problem is it trying to solve?
- Q2. What other issues can this proposal impact?
- Q3. Who are the key groups impacted by this issue?
- Q4. How will these groups be involved in decision-making?

STEP 2: LOOK AT NUMBERS AND NARRATIVES.

- Q5. What data will we collect and look at? Why?
- Q6. Where do we see disparities in the numbers?
- Q7. What can we learn from histories and narratives to better understand these numbers?
- Q8. What questions still remain? What information do we wish we had?

STEP 3: MEASURE BENEFITS AND BURDENS.

- Q9. What are the benefits and who is most likely to receive them?
- Q10. What are the burdens and who is most likely to bear them?
- Q11. What are different options to make this policy racially equitable?

STEP 4: EVALUATE AND BE ACCOUNTABLE.

- Q12. How will we evaluate the impacts of your solution?
- Q13. How will our stakeholders engage in ensuring equitable outcomes?
- Q14. How will we report back on these outcomes?
- Q15. How will our evaluation impact improvements to the policy?
