This page provides a monthly movement time breakdown of juveniles by JISC personnel. Prior to December 11, 2021, movement time is based on the difference between arrest time and arrival time at JISC, given in minutes. A small number of arrests have one or more incorrect time entered. Some movement time outliers (times greater than 300 minutes) are the result of these data inaccuracies. Beginning in April, 2022, movement time is based on the difference between arrest time and the date and time entered in the Arrest Juvenile Work Queue by a processing Juvenile Detective indicating when a juvenile arrived at Area 1. Only entries containing completed arrival times will appear.
Movement time is not provided between December 11, 2021, and April 1, 2022.
Totals can be filtered by arrest year, month, and district. Data run some time apart may result in slightly different totals due to expungements.
