1. Executive Summary

In June 2016, the 99th Illinois General Assembly passed legislation amending the Illinois Tax Increment Allocation Redevelopment Act, 65 ILCS 5/11-74.4-1 et seq. (the “Act”). That amendment was signed into law and became effective on August 12, 2016. In May 2021, the 102nd Illinois General Assembly passed an additional amendment to the Act, which was signed into law and became effective on August 27, 2021.

The Act, as amended in 2021, authorizes the City of Chicago (the “City”) to:

- First, designate a transit planning area, known as a “Transit Facility Improvement Area” (“TFIA”), for various public transit infrastructure improvement purposes, including the Chicago Transit Authority’s Red Line Extension (“RLE”) Program.
- Then, establish within the TFIA one or more Redevelopment Project Areas (“RPAs”), commonly known as “TIF Districts” to finance some or all of the RLE Program and other authorized public transit infrastructure improvement projects. An RPA established within an authorized TFIA (often known as a “Transit TIF District”) satisfies the contiguity requirements of the Act regardless of whether all of the parcels in the RPA are adjacent to one another.
- Finally, use a portion of incremental property tax revenues arising from any increases in assessed property values within such an RPA within a TFIA after its establishment (“Available TIF Funds”) solely for the purpose of the construction, reconstruction, rehabilitation, remodeling or repair of any existing or proposed transit passenger stations; transit maintenance, storage or service facilities; and rights-of-way for use in providing transit (together, known as “Transit Facilities”). Available TIF Funds may be used for such purposes whether the Transit Facilities are located within or outside the boundaries of an RPA within a TFIA. No other use of Available TIF Funds for an RPA within a TFIA is allowed under the Act. The portion of incremental property tax revenues that comprise the Available TIF Funds, and the remaining portion of incremental property tax revenues distributed to taxing districts, in accordance with the Act, are described further in *Sources of Funds to Pay Costs* in **Section 5** of this document.

The City sought to determine the feasibility of designating an area (the “Red Line Extension RPA” or the “RLE RPA”) as an RPA within a TFIA to partially finance CTA’s RLE Project. The “RLE Project” is a 5.6-mile rail extension of the CTA Red Line from 95th Street Terminal to the new terminal station near 130th Street, including four new fully accessible stations, a new storage yard and shop, and park and ride facilities near each new station. The goal and objectives of the RLE RPA are discussed in **Section 4**.

The CTA, in cooperation with the City, engaged SB Friedman Development Advisors, LLC (the “Consultant”) to complete the Feasibility Study and prepare a Redevelopment Plan and Project for the proposed RLE RPA, including an eligibility report that provides the basis for the eligibility of the proposed RLE RPA as an RPA within a TFIA under the Act (together, the “Redevelopment Plan”).

This document serves as the Redevelopment Plan and includes the Feasibility Study and the eligibility report for determining whether the proposed RLE RPA qualifies as an RPA within a TFIA. It summarizes the analyses and findings of the Consultant’s work, which, unless otherwise noted, is the responsibility of the Consultant.

The City is entitled to rely on the findings and conclusions of this Redevelopment Plan in designating the proposed RLE RPA as an RPA within a TFIA under the Act. The Consultant has prepared this Redevelopment Plan with the understanding that the City would rely on: 1) the findings and conclusions of the Redevelopment Plan in proceeding with the designation of the proposed RLE RPA as an RPA within a TFIA, and the adoption and implementation of the Redevelopment Plan; and 2) the fact that the Consultant has obtained the necessary information so that the Redevelopment Plan will comply with the Act.

Proposed RLE TFIA and RLE RPA

The proposed RLE TFIA is generally described as an area within one-half mile in any direction from the centerline within the existing or proposed right-of-way of the CTA Red Line from Madison Street on the north to 134th Street on the south. The proposed RLE TFIA primarily includes transit facilities as well as residential, commercial, industrial, open space, mixed-use (commercial/residential) and institutional uses. The proposed RLE TFIA is shown in **Map 1**.

The proposed RLE RPA, shown in **Map 2**, includes 7,726 parcels of land (associated with 36,767 Property Index Numbers) and encompasses approximately 1,445 acres of land. The proposed RLE RPA consists of eight subareas within the RLE TFIA from Madison Street on the north to Pershing Road on the south. The subareas are shown in **Map 3A** and **Map 3B**.

Red Line Extension Project

The RLE Project includes the following elements that will benefit the proposed RLE RPA:

- Heavy Rail Rapid Transit Extension (Mainline Corridor Guideway and Structure) – The Red Line will be extended 5.6 miles from the current terminal station at 95th Street to a new terminal station near 130th Street. The extended Red Line tracks will be elevated between 95th Street and 119th Street and street-level from 119th Street to 130th Street.
- New Stations – Four new fully accessible stations will be constructed at 103rd Street (near Eggleston Avenue), 111th Street (near Eggleston Avenue), Michigan Avenue (near 116th Street), and 130th Street (near Altgeld Gardens).
- Park & Ride Facilities – To accommodate passengers arriving by automobile, park & ride facilities will be constructed near each RLE station. Multimodal connections at each new station will also include bus, bike and pedestrian facilities.
- CTA Yard and Shop – A new railcar storage yard and maintenance facility will be constructed at 120th Street.

Redevelopment Plan Goal and Objectives

The goal of this Redevelopment Plan is to utilize Available TIF Funds to partially finance the construction, reconstruction, rehabilitation, remodeling or repair of existing or proposed Transit Facilities associated with the RLE Project. Accordingly, this Redevelopment Plan will provide a comprehensive strategy to extend transit service towards the southern boundary of the City and achieve the objectives outlined below:

Objectives. Six (6) main objectives support the overall goal of the Redevelopment Plan:

1. Extend CTA rail service to the South Side of the City with 5.6 miles of new track and four new fully accessible stations;
2. Reduce commute times for residents on the South Side of Chicago;
3. Improve mobility and accessibility for transit-dependent residents in the area to be served by the RLE Project;
4. Improve rapid transit rail service to isolated areas and provide viable linkages between affordable housing (e.g., the Altgeld Gardens neighborhood), jobs, services, and educational opportunities, thereby enhancing livability and neighborhood vitality;
5. Provide a modern, efficient railcar storage yard and shop facility to provide storage and cost-effective preventive maintenance for railcars associated with the RLE Project, railcars currently stored in the existing 98th Street Yard and Shop, and railcars supporting additional Red Line expansion of service; and;
6. Foster economic development in the area to be served by the RLE Project, where new stations may serve as catalysts for neighborhood revitalization and help reverse decades of disinvestment in local business districts.

This Redevelopment Plan supports the goals and objectives of other overlapping plans, including but not limited to, the forthcoming *RLE Transit Supportive Development Plan* and *ON TO 2050* (2018), the long-range comprehensive plan prepared by the Chicago Metropolitan Agency for Planning (CMAP) for the Chicago region. CMAP adopted the RLE Project as a fiscally-constrained Regionally Significant Project in *ON TO 2050*. The RLE Project is also included in the regional Transportation Improvement Program (TIP).

Determination of Eligibility of Proposed RLE RPA

The proposed RLE RPA is found to be eligible for designation as an RPA within a TFIA based on the findings that the proposed RLE RPA meets the following criteria for determination as an RPA within a TFIA pursuant to the Act, including Sections 5/11-74.4-3.3 and 5/11-74.4-4 of the Act:

- The proposed RLE RPA will be located within the RLE TFIA that will be established by the City pursuant to Section 5/11-74.4-3.3 of the Act; the proposed RLE TFIA will include property within one-half mile in any direction from the centerline within the existing or proposed right-of-way of the CTA Red Line from Madison Street on the north to 134th Street on the south;
- The proposed RLE RPA is being established for the purpose of developing new Transit Facilities, expanding or rehabilitating existing Transit Facilities, or both;
- The proposed RLE RPA is identified in the CTA's Red Line Extension Program;
- All parcels within the RLE TFIA, including those that are part of the RLE RPA, are anticipated to benefit substantially from the extension of the Red Line;

- The RLE RPA will be established within the RLE TFIA and therefore is deemed to satisfy the contiguity requirements of the Act, regardless of whether all of the parcels of real property included in the RLE RPA are adjacent to one another; and
- The land uses within the Redevelopment Plan are anticipated to be approved by the City's Plan Commission.

Other Determinations

Pursuant to the requirements of the Act, this Redevelopment Plan:

- Establishes an itemized list of estimated redevelopment project costs related to Transit Facility construction, reconstruction, rehabilitation, remodeling or repair, pursuant to the Act;
- Assesses any potential financial impact or increase in demand for services resulting from the proposed RLE RPA on taxing districts;
- Identifies sources of funds to pay costs, the nature and term of obligations, and the estimated dates of completion of the RLE Project and retirement of obligations;
- Provides the most recent equalized assessed value ("EAV") and estimated EAV at the expiration of the proposed RLE RPA; and
- Commits to fair employment practices and an affirmative action plan as it relates to the RLE Project.

Under the provisions of the Act, a Housing Impact Study is not required for an RPA within a TFIA project that is subject to the process for evaluation of environmental effects under the National Environmental Policy Act of 1969, 42 U.S.C. § 4321 et seq. (NEPA). The RLE Project is subject to the process for evaluation of environmental effects under NEPA, as described below and documented by the CTA. The impacts of property displacements were studied as one component of the RLE Draft Environmental Impact Statement (EIS), published in October 2016. This process required disclosure of all potential displacements, study of adverse impacts, incorporation of public comment through public hearings, and identification of mitigation measures. The Final EIS, expected to be published in August 2022, updates the analyses of displacements and relocations to include affected parcels for right-of-way necessary for the RLE Project, as described in the Final EIS.

CTA's Draft and Final EIS are available at: <https://www.transitchicago.com/rle/>.

The CTA is also required to comply with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (42 United States Code [USC] § 4601, et seq.), which mandates 1) just compensation for tangible personal property loss as a result of relocation or discontinuance of operations; reestablishment expenses; moving costs; and costs incurred in finding a replacement site; and 2) relocation services and just compensation be made available to eligible residents, business owners and tenants, and non-profit organizations displaced as a direct result of any project undertaken by a federal agency or with federal financial assistance.

Based on the findings that the RLE Project is subject to and complying with the process for evaluation of environmental effects under NEPA, a Housing Impact Study is not required, and thus has not been prepared for this Redevelopment Plan.

Feasibility of RPA Designation

The use of TIF is feasible for the proposed RLE RPA. Based on the total 2020 EAV of the RLE RPA and projections of anticipated EAV through 2057, it appears that the Available TIF Funds will be sufficient to fund the redevelopment project costs identified in **Table 1** (in **Section 5** of this document), and the use of TIF is feasible for the proposed RLE RPA. The use of TIF is appropriate for transit-related improvements in the RLE RPA.

2. Introduction

The Act

If the corporate authorities of a municipality designate an area within the territorial limits of the municipality as a TFIA, then that municipality may establish one or more RPAs within that TFIA for the purpose of developing new Transit Facilities, expanding or rehabilitating existing Transit Facilities, or both.

Based upon the requirements of the Act and the completion of the Consultant's research and analyses, it has been determined that the proposed RLE RPA meets the requirements of the Act to be eligible to be designated an RPA within a TFIA, as discussed further in **Section 3**.

The Proposed Red Line Extension (RLE) Redevelopment Project Area

This document serves as the Redevelopment Plan for the proposed RLE RPA. The CTA, in cooperation with the City, engaged the Consultant to conduct the Feasibility Study and prepare this Redevelopment Plan.

This Redevelopment Plan summarizes the analyses and findings of the Consultant's work, which, unless otherwise noted, is solely the responsibility of the Consultant. The City is entitled to rely on the findings and conclusions of this Redevelopment Plan in designating the proposed RLE RPA as an RPA within a TFIA. The Consultant has prepared this Redevelopment Plan with the understanding that the City would rely on: 1) the findings and conclusions of the Redevelopment Plan in proceeding with the designation of the proposed RLE RPA as an RPA within a TFIA and the adoption and implementation of this Redevelopment Plan; and 2) the fact that the Consultant has obtained the necessary information so that the Redevelopment Plan will comply with the Act.

The proposed RLE RPA is comprised of 10 subareas that are within one-half mile in any direction from the centerline within the existing or proposed right-of-way of the CTA Red Line, south of Madison Street and north of Pershing Road. The existing Red Line is visibly apparent within the Interstate-90/94 expressway from Pershing Road until south of West Cermak Avenue, where the rail line transitions to an elevated structure. North of West Cermak Avenue, the elevated structure begins a decline and transitions to an underground subway at approximately West 16th Street. The Red Line then runs underground, following a general path northeast to State Street at West 14th Street, and from West 14th Street, the Red Line continues on a general path north, under State Street, to West Madison Avenue. The RLE RPA will not include any property that is located within an existing redevelopment project area created under the Act.

The proposed RLE RPA is shown in **Map 3A and 3B**. A formal legal description of the proposed RLE RPA is included in **Appendix 1**.

History of the CTA Red Line Extension

The Red Line Extension was originally envisioned in a 1958 plan as a rail transit option that would provide a connection from downtown to 119th Street. In 1969, when the South Red Line opened for service with a terminal

station at 95th Street, Mayor Richard J. Daley pledged that the Red Line would eventually be extended southward to the city limit. In 2004, 38,000 residents in the 9th and 34th Wards (wards which were in the area to be served by the RLE Project at the time of the referendum) passed a non-binding ballot referendum supporting the RLE Project. The Red Line Extension is, and has always been, a community-driven project.

Today, CTA's Red Line serves as the transit backbone of the City of Chicago. It provides 24-hour north-south service and is CTA's most heavily used rail line, supporting more than 67 million entries in 2019. The current 95th Street Terminal is among CTA's busiest stations. However, the Red Line does not extend to the City's Far South Side, which limits transit options for thousands of riders who live south of the 95th Street Terminal. Many residents in the area surrounding the Red Line Extension (generally, an area bounded by 95th Street on the north, Ashland Avenue on the west, Stony Island Avenue on the east, and the Calumet-Sag Channel/Little Calumet River and 134th Street on the south) use connecting bus service to transfer to the Red Line at the 95th Street station. Longer bus trips, with more time spent in traffic, can lead to lengthy travel times.

The RLE Project is a major component of CTA's Red Ahead Program, a priority CTA initiative to maintain, modernize, and expand the entire Red Line. The RLE Project will connect predominately Black/African American communities to the broader CTA transit network, including destinations and job centers within the RLE RPA, as well as increase transit connectivity in the surrounding neighborhoods. The RLE Project will foster economic development in the area around the RLE Project, as new stations can serve as catalysts for neighborhood revitalization, spur the development of more livable, transit-supportive communities, and help reverse decades of disinvestment in local business districts. Increased transit access would attract customers and visitors from outside the community to local businesses, landmarks and cultural centers, bolstering community investment.

To address these issues and prepare for future transit and mobility needs, the CTA is taking steps to implement the RLE Project, which is described in more detail in **Section 4**.

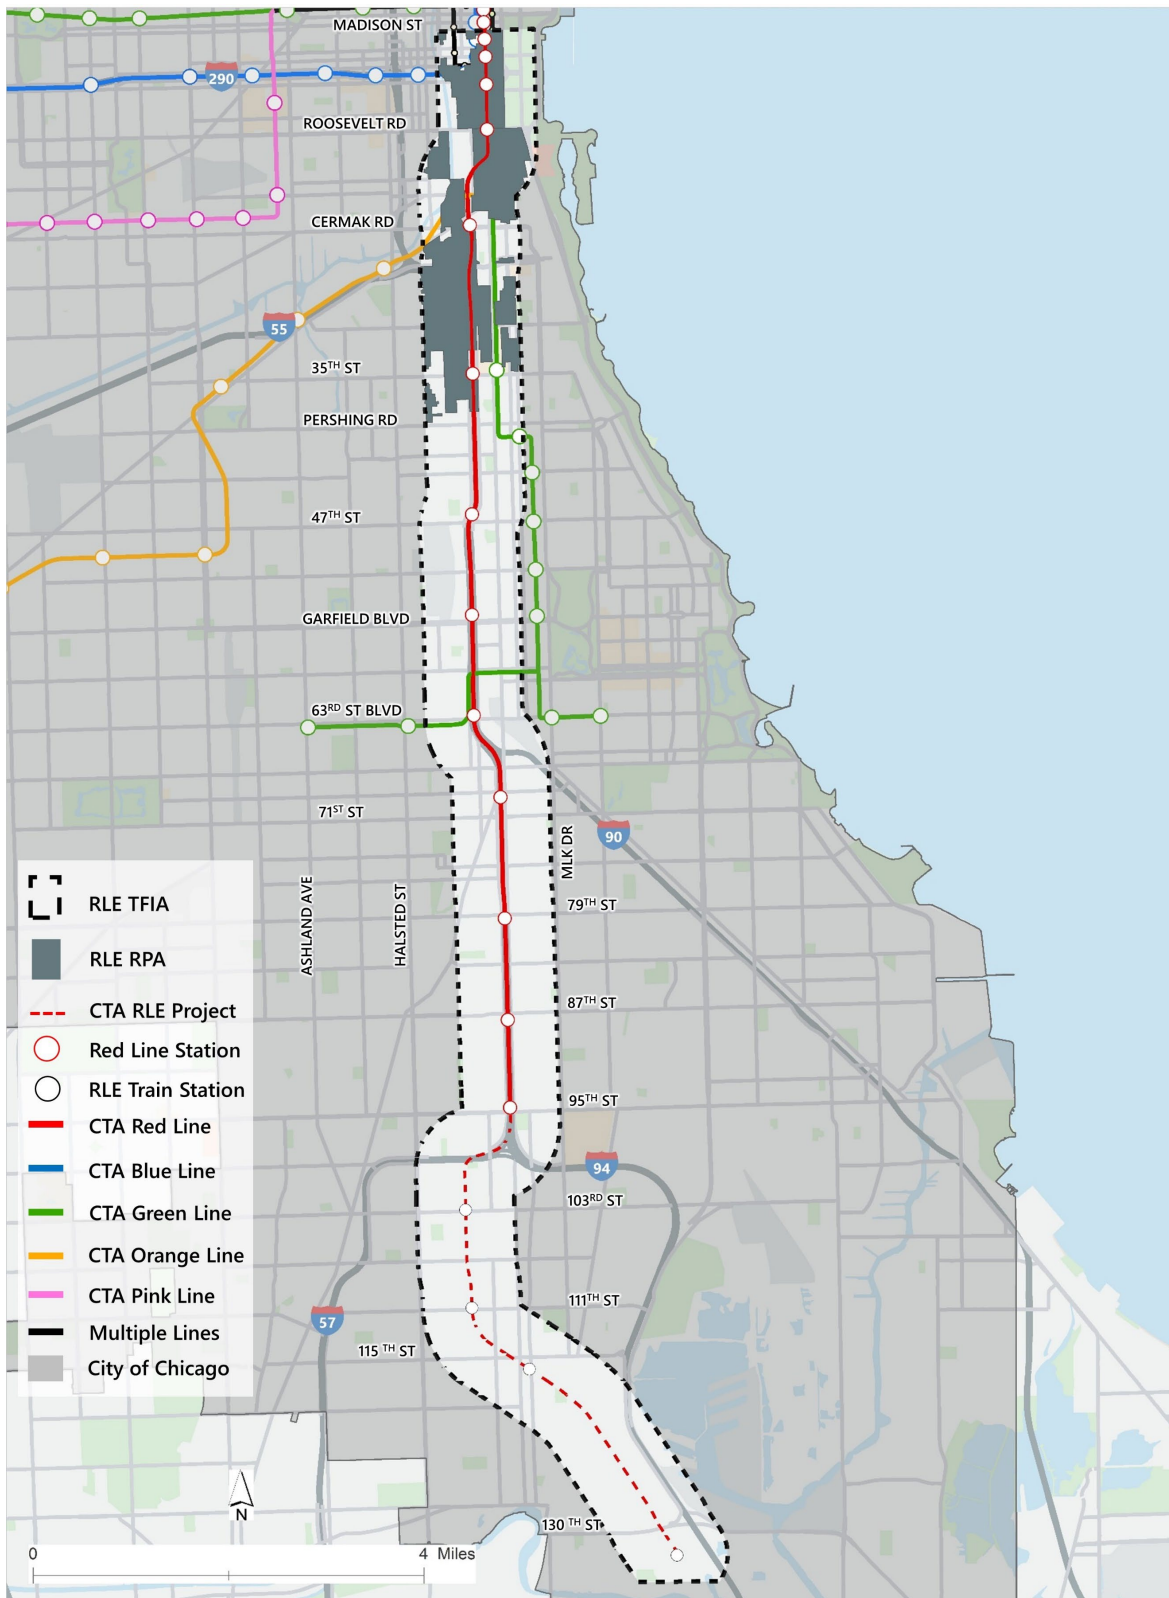

Public investments in this important infrastructure project are expected to result in numerous benefits, including:

- Up to 30-minute time savings for trips from 130th Street to the Loop;
- Expanded access to frequent Red Line service as well as the entire CTA network;
- Improved access to jobs throughout the City and region; and
- Improved sustainability and mitigation of climate change through growing the City's transit ridership.

3. Eligibility Study

The purpose of this section is to determine whether the proposed RLE RPA qualifies for designation as an RPA within a TFIA within the requirements of the Act.

Provisions of the Act

The statutory definitions that guide the determination of eligibility as an RPA within a TFIA are as follows, as outlined in the Act:

“Transit” means any one or more of the following transportation services provided to passengers: inter-city passenger rail service; commuter rail service; and urban mass transit rail service, whether elevated, underground, or running at grade, and whether provided through rolling stock generally referred to as heavy rail or light rail.

“Transit Facility” means an existing or proposed transit passenger station, an existing or proposed transit maintenance, storage or service facility, or an existing or proposed right of way for use in providing transit services.

“Transit Facility Improvement Area” means an area whose boundaries are no more than one-half mile in any direction from the location of a transit passenger station, or the existing or proposed right of way of [sic] transit facility, as applicable; provided that the length of any existing or proposed right of way or a transit passenger station included in any transit facility improvement area shall not exceed: 9 miles for the Chicago Transit Authority’s Blue Line Modernization and Extension Program; 17 miles for the Chicago Transit Authority’s Red and Purple Modernization Program (running from Madison Street North to Linden Avenue); and 20 miles for the Chicago Transit Authority’s Red Line Extension Program (running from Madison Street South to 134th Street (as extended)).

“Redevelopment Project Area” means the area identified in: the Chicago Union Station Master Plan; the Chicago Transit Authority’s Red and Purple Modernization Program; the Chicago Transit Authority’s Red Line Extension Program; and the Chicago Transit Authority’s Blue Line Modernization and Extension Program, each as may be amended from time to time after the effective date of this amendatory Act of the 99th General Assembly, and, in each case, regardless of whether all of the parcels of real property included in the redevelopment project area are adjacent to one another.

If the City designates an area within its territorial limits as a TFIA, then the City may establish one or more RPAs within that TFIA for the purpose of developing new Transit Facilities, expanding or rehabilitating existing Transit Facilities, or both.

Methodology Overview

The proposed RLE RPA was analyzed to determine its adherence to each of the definitions in the Act that apply to the qualification of an RPA within a TFIA. Surveys and analyses conducted by the Consultant included:

- Identification of the boundary of the RLE TFIA, using geographic information system (GIS) measurements of one-half mile (2,640 feet) limit from the centerline within the existing or proposed right-of-way of the Red Line track and its proposed extension, as provided by CTA, and limited to the area between Madison Street on the north and 134th Street on the south;
- Delineation of the proposed RLE RPA boundary, which extends no more than 2,640 feet from the centerline within the existing or proposed right-of-way of the Red Line track and its proposed extension, as determined using GIS, Sidwell property tax maps, CTA surveyed track centerlines, analysis of property deeds, and 2020 Cook County GIS parcels;
- Review and analysis of legal descriptions, tax parcels, 2020 property tax codes, and Sidwell tax maps of parcels within the proposed RLE TFIA boundary for identification and exclusion of existing TIF districts;
- Analysis of potential incremental tax revenue (and correspondingly, Available TIF Funds) that could be generated by the proposed RLE RPA over its 35-year life;
- Review of CTA plans, studies and reports for the RLE Project; and
- Review of local and regional plans, studies, and reports.

Determination of Eligibility

The proposed RLE RPA is eligible for designation as an RPA within a TFIA because it satisfies the following requirements for such designation under the Act, including the requirements of Sections 5/11-74.4-3.3 and 5/11-74.4-4 of the Act:

- The proposed RLE RPA will be located within the RLE TFIA that will be established by the City pursuant to Section 5/11-74.4-3.3 of the Act; the proposed RLE TFIA will include property within one-half mile in any direction from the centerline within the existing or proposed right-of-way of the CTA Red Line from Madison Street on the north to 134th Street on the south;
- The proposed RLE RPA is being established for the purpose of developing new Transit Facilities, expanding or rehabilitating existing Transit Facilities, or both;
- The proposed RLE RPA is identified in the CTA's Red Line Extension Program;
- All parcels within the RLE TFIA, including those that are part of the RLE RPA, are anticipated to benefit substantially from the extension of the Red Line;
- The RLE RPA will be established within the RLE TFIA and therefore is deemed to satisfy the contiguity requirements of the Act, regardless of whether all of the parcels of real property included in the RLE RPA are adjacent to one another; and
- The land uses within the Redevelopment Plan are anticipated to be approved by the City's Plan Commission.

4. Redevelopment Plan and Project

Comprehensive Program for the Proposed RLE RPA

This Redevelopment Plan identifies the tools for the City to support the extension of critical public transit infrastructure. This section presents the comprehensive program that is anticipated to be undertaken by the CTA with the support from the City in furtherance of this Redevelopment Plan. These investments in public transit both benefit property owners in the proposed RLE TFIA and increase access to employment and desirable destinations, serving the best interests of the residents of the proposed RLE RPA, RLE TFIA, and the City as a whole. The Redevelopment Project, as outlined in this section, includes land uses that are anticipated to be approved by the City's Plan Commission and also conforms to City and regional plans, including the forthcoming *RLE Transit Supportive Development Plan* and *ON TO 2050*.

The overall goal and objectives discussed below have been developed to address these needs and to facilitate the sustainable redevelopment of the proposed RLE RPA.

Red Line Extension Project

The RLE Project includes the following elements that will benefit the proposed RLE RPA:

- Heavy Rail Rapid Transit Extension (Mainline Corridor Guideway and Structure) – The Red Line will be extended 5.6 miles from the current terminal at 95th Street to a new terminal station near 130th Street. The extended Red Line tracks will be elevated between 95th Street and 119th Street and street-level from 119th Street to 130th Street.
- New Stations – Four new fully accessible stations will be constructed at 103rd Street (near Eggleston Avenue), 111th Street (near Eggleston Avenue), Michigan Avenue (near 116th Street), and 130th Street (near Altgeld Gardens).
- Park & Ride Facilities – To accommodate passengers arriving by automobile, park & ride facilities will be constructed near each RLE station. Multimodal connections at each new station will also include bus, bike, and pedestrian facilities.
- CTA Yard and Shop – A new railcar storage yard and maintenance facility at 120th Street.

This Redevelopment Plan assumes that the City will designate an RPA that will include property within the RLE TFIA, as required by the Act.

Redevelopment Plan Goal and Objectives

The goal of this Redevelopment Plan is to utilize Available TIF Funds from the proposed RLE RPA to finance the development, expansion or rehabilitation of new or existing Transit Facilities. Accordingly, this Redevelopment Plan will provide a comprehensive strategy to extend transit service to the southern boundary of the City and achieve the objectives outlined below:

Objectives. Six (6) main objectives support the overall goal of the Redevelopment Plan:

1. Extend CTA rail service to the South Side of the City with 5.6 miles of new track and four new fully accessible stations;
2. Reduce commute times for residents on the South Side of Chicago;
3. Improve mobility and accessibility for transit-dependent residents in the area to be served by the RLE Project;
4. Improve rapid transit rail service to isolated areas and provide viable linkages between affordable housing (e.g., the Altgeld Gardens neighborhood), jobs, services, and educational opportunities, thereby enhancing livability and neighborhood vitality;
5. Provide a modern, efficient railcar storage yard and shop facility to provide storage and cost-effective preventive maintenance for railcars associated with the RLE Project, railcars currently stored in the existing 98th Street Yard and Shop, and railcars supporting additional Red Line expansion of service; and;
6. Foster economic development in the area to be served by the RLE Project, where new stations may serve as catalysts for neighborhood revitalization and help reverse decades of disinvestment in local business districts.

This Redevelopment Plan supports the goals and objectives of other overlapping plans, studies, and initiatives, including but not limited to, the forthcoming *RLE Transit Supportive Development Plan* and *ON TO 2050* (2018), the long-range comprehensive plan prepared by the Chicago Metropolitan Agency for Planning (CMAP) for the Chicago region. CMAP adopted the RLE Project as a fiscally constrained Regionally Significant Project in *ON TO 2050*. The RLE Project is also included in the regional Transportation Improvement Program (TIP).

Proposed Future Land Use

The proposed future land uses within the proposed RLE RPA reflect the objectives of the Redevelopment Plan, which support the construction, reconstruction, rehabilitation, remodeling or repair of Transit Facilities within the proposed RLE TFIA. This Redevelopment Plan does not affect the zoning currently in place within the proposed RLE RPA. The RLE Project, as described in this Redevelopment Plan, is limited to Transit Facilities. As such, the current land uses, which contain predominantly residential, commercial, industrial, open space, mixed-use (commercial/residential) and institutional uses, are anticipated to remain substantially the same. The Future Land Use Plan is anticipated to be approved by the City's Plan Commission.

The Future Land Use Plan, shown on **Map 4A through 4D**, indicates the current and proposed Transit Facilities within the proposed RLE TFIA.

Housing Impact and Related Matters

As set forth in the Act, if a redevelopment plan is for an RPA within a TFIA established pursuant to Section 11-74.4-3.3, and the applicable project is subject to the process for evaluation of environmental effects under NEPA, then a Housing Impact Study is not required.

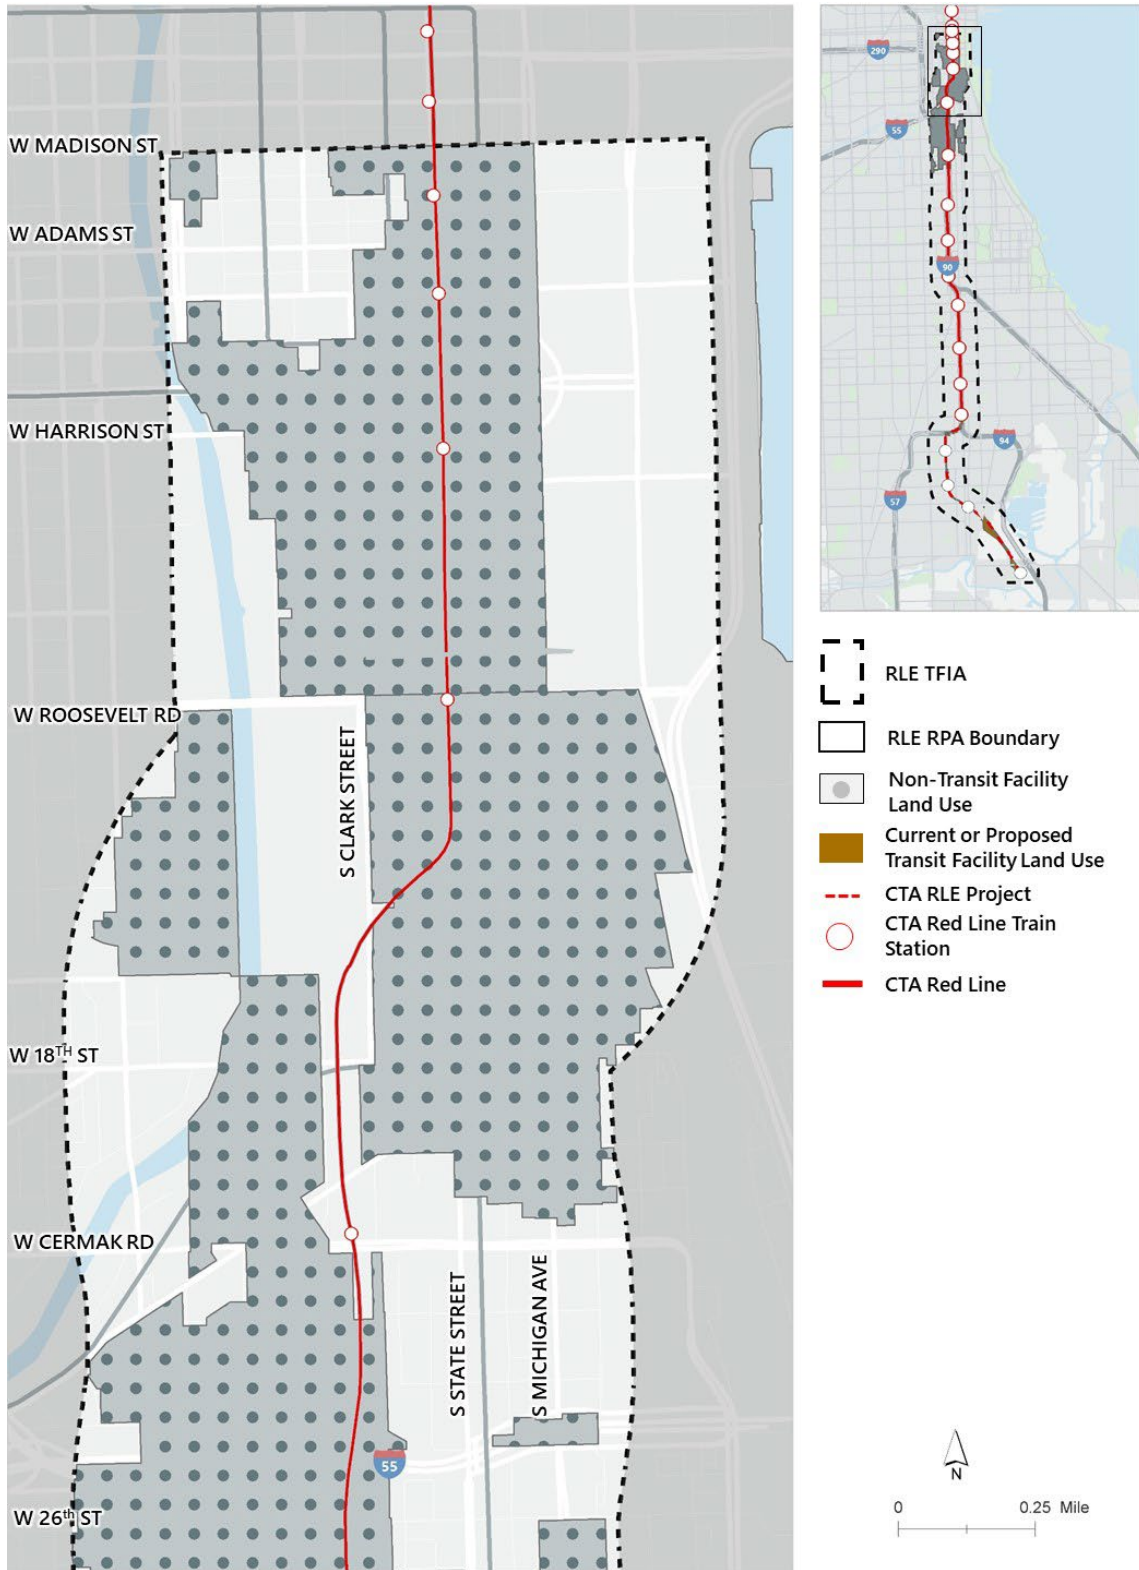

The RLE Project is subject to the process for evaluation of environmental effects under NEPA, as described below and documented by the CTA. The impacts of property displacements were studied as one component of the RLE Draft Environmental Impact Statement (EIS), published in October 2016. This process required disclosure of all potential displacements, study of adverse impacts, incorporation of public comment through public hearings, and identification of mitigation measures. The Final EIS, expected to be published in August 2022, updates the analyses of displacements and relocations to include affected parcels for right-of-way necessary for the implementation of the RLE Preferred Alignment.

CTA's Draft and Final EIS are available at: <https://www.transitchicago.com/rle/>.

The CTA is also required to comply with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (42 United States Code [USC] § 4601, et seq.), which mandates 1) just compensation for tangible personal property loss as a result of relocation or discontinuance of operations; reestablishment expenses; moving costs; and costs incurred in finding a replacement site; and 2) relocation services and just compensation be made available to eligible residents, business owners and tenants, and non-profit organizations displaced as a direct result of any project undertaken by a federal agency or with federal financial assistance.

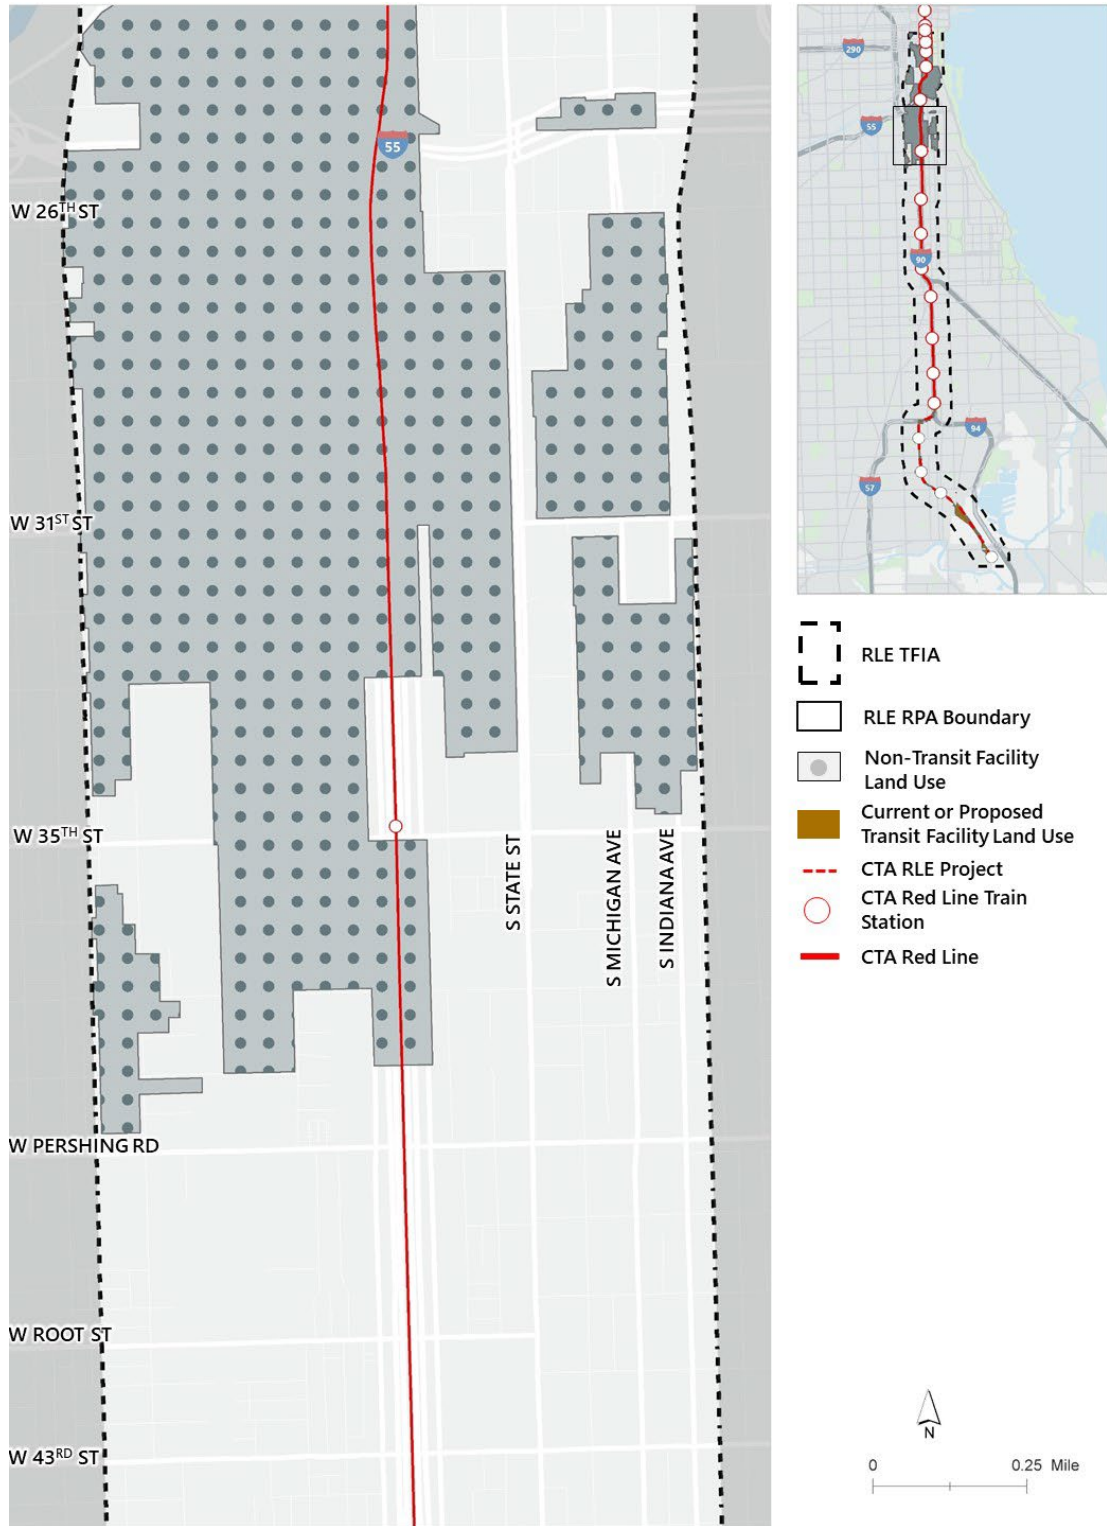

Based on the findings that the RLE Project is subject to and complying with the process for evaluation of environmental effects under NEPA, a Housing Impact Study is not required, and thus has not been prepared for this Redevelopment Plan.

5. Financial Plan

Eligible Costs

The Act outlines several categories of expenditures that can be funded using Available TIF Funds. These expenditures, referred to as eligible “redevelopment project costs” under the Act, include, for a general TIF district, all reasonable or necessary costs incurred or estimated to be incurred, and any such costs incidental to a redevelopment plan pursuant to the Act. The City proposes to realize its goals and objectives of redevelopment through public finance techniques, including but not limited to TIF, and by undertaking certain activities and incurring certain costs.

For an RPA within a TFIA established pursuant to Section 11-74.4-3.3 of the Act, redevelopment project costs mean those costs described in subsection 11-74.4-3(q) of the Act that are related to the construction, reconstruction, rehabilitation, remodeling, or repair of any existing or proposed Transit Facility. Eligible redevelopment project costs the RLE Project may generate include the following as identified in the Act:

1. Costs of studies, surveys, development of plans and specifications, and implementation and administration of the Redevelopment Plan, including but not limited to staff and professional service costs for architectural, engineering, legal, financial, planning or other services (excluding lobbying expenses), provided that no charges for professional services are based on a percentage of the tax increment collected;
2. Property assembly costs, including but not limited to: acquisition of land and other property, real or personal, or rights or interests therein; demolition of buildings; site preparation; site improvements that serve as an engineered barrier addressing ground level or below ground environmental contamination, including but not limited to parking lots and other concrete or asphalt barriers; and the clearing and grading of land;
3. Costs of rehabilitation, reconstruction, or repair or remodeling of existing public buildings, fixtures and leasehold improvements; and the cost of replacing an existing public building if pursuant to the implementation of a redevelopment project the existing public building is to be demolished to use the site for private investment or devoted to a different use requiring private investment;
4. Costs of the construction of public works or improvements, subject to the limitations in Section 11-74.4-3(q)(4) of the Act;
5. Costs of job training and retraining projects;
6. Financing costs, including but not limited to all necessary and incidental expenses related to the issuance of obligations, which may include payment of interest on any obligations issued thereunder, including interest accruing during the estimated period of construction of any redevelopment project for which such obligations are issued and for a period not exceeding 36 months following completion and including reasonable reserves related thereto;

7. Relocation costs to the extent that the City determines that relocation costs shall be paid or is required to make payment of relocation costs by federal or state law or by Section 74.4-3(n)(7) of the Act;
8. Interest costs incurred by the CTA related to the construction, renovation or rehabilitation of a redevelopment project provided that:
 - a. Such costs are to be paid directly from the special tax allocation fund established pursuant to the Act;
 - b. Such payments in any one year may not exceed 30 percent of the annual interest costs incurred by the CTA with regard to the redevelopment project during that year;
 - c. If there are not sufficient funds available in the special tax allocation fund to make the payment pursuant to this provision, then the amounts so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund; and
 - d. The total of such interest payments paid pursuant to the Act may not exceed 30 percent of the total: (i) cost paid or incurred by the CTA for such redevelopment project, plus (ii) redevelopment project costs excluding any property assembly costs and any relocation costs incurred by the City pursuant to the Act.

Pursuant to the Act, Available TIF funds generated by RLE RPA can be applied to eligible redevelopment project costs incurred anywhere within the RLE TFIA.

Estimated Redevelopment Project Costs

The estimated eligible redevelopment project costs of this Redevelopment Plan are shown in **Table 1** on the following page. The “Total Redevelopment Costs” in **Table 1** provides an upper limit on expenditures that may be funded using Available TIF Funds, exclusive of any interest or capitalized interest to be paid by the City on the principal amount of any obligation issued by the City, all as described in **Table 1**. Other sources of funds may also be used to defray RLE Project costs within the proposed RLE TFIA. Additional funding, including but not limited to state and federal grants, sales taxes, land disposition proceeds, and other outside sources, may be pursued and used as a means of financing improvements and facilities within the RLE TFIA. Expenditures paid for by such additional funding may be in addition to the expenses funded from Available TIF Funds and may be in addition to the budget shown in **Table 1**, which is limited to expenditure of Available TIF Funds only.

Adjustments to the estimated individual line-item costs in **Table 1** are expected and may be made by the City without amendment to this Redevelopment Plan. The estimated amount of an individual line item set forth below is not intended to place a limit on the expenditures within that line item; adjustments may be made to such an estimated amount, either increasing or decreasing the estimated line-item costs as a result of changed redevelopment project costs and needs, provided, however, that the total of all such adjustments, when added to the original estimates for the line items, shall not exceed the Total Redevelopment Costs identified in **Table 1**.

Table 1: Estimated Redevelopment Project Costs

Eligible Expense [1]	Estimated Project Costs
Costs of Studies, Surveys, Plans, etc.	\$1,800,000
Property Assembly and Site Preparation Costs	\$67,338,000
Rehabilitation of Existing Public Buildings, Fixtures, Improvements	\$2,754,000
Construction of Public Facilities and Improvements	\$844,004,000
Job Training	\$5,000,000
Financing Costs	\$250,000
Relocation Costs	\$37,754,000
CTA Interest Costs [2]	\$100,000
TOTAL REDEVELOPMENT PROJECT COSTS [3] [4] [5]	\$959,000,000

[1] Described in more detail in Eligible Costs Section.

[2] Only contemplated if CTA incurs interest costs related to interim financing, if any.

[3] Total Redevelopment Project Costs exclude any additional financing costs, including any interest expense, capitalized interest, costs of issuance, and costs associated with optional redemptions. These costs are subject to prevailing market conditions and are in addition to Total Redevelopment Project Costs.

[4] The amount of the Total Redevelopment Project Costs that can be incurred in the proposed RLE TFIA will be reduced by the amount of redevelopment project costs incurred in contiguous RPAs, or those separated from the proposed RLE RPA only by a public right-of-way, that are permitted under the Act to be paid, and are paid, from incremental property taxes generated in the proposed RLE RPA, but may not be reduced by the amount of redevelopment project costs incurred in the proposed RLE RPA that are paid from incremental property taxes generated in contiguous RPAs or those separated from the proposed RLE RPA only by a public right-of-way.

[5] Increases in estimated Total Redevelopment Project Costs of more than 5%, after adjustment for inflation from the date of this Redevelopment Plan adoption, are subject to this Redevelopment Plan’s amendment procedures, as provided under the Act.

In the event that, after the date of the approval of this Redevelopment Plan by the City Council, the Act is amended to: (a) include new eligible redevelopment project costs, or (b) expand the scope or increase the amount of existing eligible redevelopment project costs (such as by increasing the amount of incurred interest costs that may be paid under 65 ILCS 5/1-74.4-3(q)(11)), this Redevelopment Plan shall be deemed to incorporate such additional, expanded or increased eligible costs as eligible costs under the Redevelopment Plan. In the event of such amendment(s) to the Act, the City may add any new eligible redevelopment project costs as a line item in **Table 1**, or otherwise adjust the line items in **Table 1** without amendment to this Redevelopment Plan. In no instance, however, shall such additions or adjustments result in any increase in the Total Redevelopment Costs without a further amendment to this Redevelopment Plan.

Phasing and Scheduling of RLE Project

Under the Act, the City may enter into a redevelopment agreement with a developer and, pursuant to that agreement, reimburse the developer, from Available TIF Funds, for eligible redevelopment project costs incurred by the developer. That reimbursement may be made through the issuance by the City of notes or other obligations secured by Available TIF Funds. With respect to the RLE Project and the proposed RLE RPA, the CTA will be the sole developer. The City intends to enter into one or more redevelopment agreements with the CTA to reimburse the CTA, from Available TIF Funds, for eligible redevelopment project costs incurred by the CTA in completing the proposed RLE Project.

As provided in the Act, this Redevelopment Plan shall be completed, and all obligations issued to finance redevelopment project costs shall be retired, no later than December 31 of the year in which the payment to the City Treasurer is to be made with respect to ad valorem taxes levied in the 35th calendar year following the year in which the ordinance approving the proposed RLE RPA is adopted (by December 31, 2058, if the ordinances establishing the proposed RLE RPA are adopted in 2022).

Sources of Funds to Pay Costs

Funds necessary to pay for redevelopment project costs are to be derived from Available TIF Funds or proceeds from municipal obligations, which have Available TIF Funds as a repayment source.

Available TIF Funds are derived from the incremental real property tax revenue attributable to the increase of the current EAV of each taxable lot, block, tract or parcel of real property in the proposed RLE RPA over and above the Certified Initial EAV (defined in the *Most Recent Equalized Assessed Values of Properties in the Redevelopment Project Area* subsection) of each such property.

If a municipality with a population of 1,000,000 or more has adopted by ordinance tax increment allocation financing for an RPA within a TFIA established pursuant to Section 11-74.4-3.3 of the Act, for each year after the effective date of the establishing ordinances until redevelopment project costs and all municipal obligations financing redevelopment project costs have been paid, the ad valorem taxes, if any, arising from the levies upon the taxable real property in that redevelopment project area by taxing districts and tax rates, determined in the manner provided in paragraph (c) of Section 11-74.4-9, shall be divided as follows:

1. *That portion of the taxes levied upon each taxable lot, block, tract or parcel of real property which is attributable to the lower of (i) the current EAV or "current EAV as adjusted" or (ii) the initial EAV of each such taxable lot, block, tract or parcel of real property existing at the time tax increment financing was adopted, minus the total current homestead exemptions under Article 15 of the Property Tax Code in the redevelopment project area, shall be allocated to and when collected shall be paid by the county collector to the respective affected taxing districts in the manner required by law in the absence of the adoption of tax increment allocation financing.*
2. *That portion, if any, of such taxes which is attributable to the increase in the current EAV of each taxable lot, block, tract or parcel of real property in the redevelopment project area, over and above the initial EAV of each property existing at the time tax increment financing was adopted, minus the total current homestead exemptions pertaining to each piece of property provided by Article 15 of the Property Tax Code in the redevelopment project area, shall be allocated to and when collected shall be paid by the county collector as follows:*
 - a. *First, that portion which would be payable to a school district whose boundaries are coterminous with such municipality in the absence of the adoption of tax increment allocation financing, shall be paid to such school district in the manner required by law in the absence of the adoption of tax increment allocation financing; then*
 - b. *80% of the remaining portion shall be paid to the municipal Treasurer, who shall deposit said taxes into a special fund called the special tax allocation fund of the municipality for the purpose of paying redevelopment project costs and obligations incurred in the payment thereof (this 80% constitutes the Available TIF Funds); and then*

- c. *20% of the remaining portion shall be paid to the respective affected taxing districts, other than the school district described in clause (a) above, in the manner required by law in the absence of the adoption of tax increment allocation financing.*

The Available TIF Funds identified in 2(b) above are only for the proposed RLE Project. The CTA may use other sources of funds to pay for some of the costs of the RLE Project, including state and federal grants, sales taxes, investment income, private investor and financial institution funds, land disposition proceeds, and other sources of funds and revenues as it from time to time may deem appropriate.

The proposed RLE RPA may be contiguous to, or be separated only by a public right-of-way from, other redevelopment project areas created under the Act. The City may utilize Available TIF Funds from the proposed RLE RPA to pay eligible redevelopment project costs for Transit Facilities, or obligations issued to pay such costs, as provided under the Act, including in such redevelopment project areas that are contiguous to, or separated only by a public right-of-way from, the RLE RPA. The amount of Available TIF Funds from the proposed RLE RPA used to support such contiguous or separated redevelopment project areas, when added to all Available TIF Funds used to pay eligible redevelopment project costs within the proposed RLE RPA, shall not exceed the Total Redevelopment Costs described in **Table 1** of this Redevelopment Plan.

Issuance of Obligations

The City may issue obligations secured by Available TIF Funds pursuant to Section 11-74.4-7 of the Act. All obligations issued by the City pursuant to this Redevelopment Plan and the Act shall be retired within the timeframe described under the *Phasing and Scheduling of RLE Project* subsection. Also, the final maturity date of any such obligations that are issued may not be later than the term provided in the Act (currently 20 years) from their respective dates of issue. One or more of a series of obligations may be sold at one or more times in order to implement this Redevelopment Plan. The amounts payable in any year as principal and interest on all obligations issued by the City shall not exceed the amounts available from Available TIF Funds, or other sources of funds, if any, as may be provided by ordinance. Obligations may be of parity or senior/junior lien nature. Obligations issued may be serial or term maturities, and may or may not be subject to mandatory, sinking fund or optional redemptions.

In addition to paying redevelopment project costs, Available TIF Funds may be used for the scheduled and/or early retirement of obligations, and for reserves and bond sinking funds. To the extent that Available TIF Funds are not required for such purposes or otherwise required, pledged, earmarked or designated for anticipated redevelopment project costs, they shall be declared surplus and become available for distribution annually to applicable taxing districts in the manner provided by the Act.

Estimated Dates of Completion

The estimated dates of completion of the RLE Project and retirement of obligations are described under the *Phasing and Scheduling of RLE* subsection above.

Most Recent Equalized Assessed Value of Properties in the Redevelopment Project Area

The purpose of identifying the most recent EAV of the proposed RLE RPA is to provide an estimate of the initial EAV, which the Cook County Clerk will certify for the purpose of annually calculating the incremental EAV, incremental property taxes and Available TIF Funds of the proposed RLE RPA. The total 2020 EAV of all taxable parcels in the proposed RLE RPA is approximately \$7,014,464,602. The total 2020 EAV is subject to verification by the Cook County Clerk. After verification, the final total 2020 EAV figure shall become the “Certified Initial EAV” from which all incremental property taxes (and Available TIF Funds) in the proposed RLE RPA will be calculated by Cook County.

Anticipated Equalized Assessed Value

By 2057 (collection year 2058), the EAV for the proposed RLE RPA is anticipated to be approximately \$27.7 billion. This estimate is based on three key assumptions: (1) projection of 2020 AV to 2021 AV based on anticipated 2021 reassessment results for the City of Chicago; (2) annual EAV growth of 1.0 percent for all properties within the proposed RLE RPA through 2023, and EAV growth of 2.66-5.27 percent annually from 2024 forward, realized during triennial reassessments; and (3) completion and full assessment of 30 new projects currently under construction or with building permits which would add more than \$400 million in EAV prior to 2023. Depending upon the actual redevelopment and EAV growth that occurs, EAV may be a higher or lower amount than indicated above.

6. Feasibility of RPA Designation

As described in **Section 3** of this report, the proposed RLE RPA meets the eligibility criteria required for designation as an RPA within a TFIA pursuant to the Act. The RLE Project will be substantially supported and its implementation facilitated through the use of TIF. Based on the total 2020 EAV of the proposed RLE RPA and projections of anticipated EAV through 2057, it appears that the Available TIF Funds will be sufficient to fund the RLE Project costs identified in **Table 1**, and the use of TIF is feasible for the proposed RLE RPA. The use of TIF is appropriate for transit-related improvements in the proposed RLE TFIA.

7. Fiscal Impact of the Redevelopment Project

Without the adoption of this Redevelopment Plan and the use of TIF, the CTA would not be able to undertake Transit Facility improvements of the scale and importance outlined in this Redevelopment Plan. If the RLE Project is successful, it will connect residents with jobs and opportunities for decades to come.

This Redevelopment Plan is expected to have short- and long-term financial impacts on the affected taxing districts. Generally speaking (and as more fully described in the Act), during the period when Available TIF Funds are utilized for the RLE Project, for all taxing districts except Chicago Public Schools, 80 percent of the increase in property tax revenue that would otherwise be available to those taxing districts, may instead be used to pay eligible redevelopment project costs for the RLE Project. On the other hand, Chicago Public Schools will receive the tax proceeds from increases in property value, as if the proposed RLE RPA had not been created. At the time when the proposed RLE RPA is no longer in place under the Act, the property tax revenues resulting from redevelopment in the proposed RLE RPA will be distributed to all taxing districts levying taxes against property located in the proposed RLE RPA. These revenues will then be available for use by the affected taxing districts.

Demand on Taxing District Services and Programs to Address Financial and Service Impact

Due to the nature of the RLE Project, a project dedicated solely to the development, expansion or rehabilitation of new or existing Transit Facilities, it is not anticipated that implementation of the Redevelopment Plan will result in any adverse financial impact on, or place additional demands on services and facilities provided by, affected taxing districts. Thus, at this time, no special programs are proposed for these taxing districts. No Available TIF Funds will be utilized for private development projects.

The City intends to monitor the RLE Project and, with the cooperation of the affected taxing districts, will attempt to ensure that any increased demands on the taxing districts in connection with any particular component of the RLE Project are addressed.

Therefore, while redevelopment activities in the proposed RLE RPA may have an indirect impact on the taxing districts, no significant impacts are currently anticipated. Should service demands increase, the City will work with the affected taxing districts to determine which, if any, programs are necessary to provide adequate services.

The following major taxing districts presently levy taxes on properties within the proposed RLE RPA:

1. Cook County
2. Chicago Board of Education
3. Forest Preserve District of Cook County
4. Metropolitan Water Reclamation District of Greater Chicago
5. City of Chicago
6. City of Chicago – Library Fund
7. Chicago Park District

8. City Colleges
9. City of Chicago School Building & Improvement Fund

8. Provisions for Amending Plan

This Redevelopment Plan and Project document may be amended pursuant to the provisions of the Act.

9. Commitment to Fair Employment Practices and an Affirmative Action Plan

The City is committed to and will affirmatively implement the following principles with respect to this Redevelopment Plan:

- A) Assurance of equal opportunity in all personnel and employment actions, with respect to the RLE Project, including but not limited to hiring, training, transfer, promotion, discipline, fringe benefits, salary, employment working conditions, termination, etc., without regard to race, color, sex, age, religion, disability, national origin, ancestry, sexual orientation, marital status, parental status, military discharge status, source of income, or housing status.
- B) CTA will comply with Disadvantaged Business Enterprise (DBE) goals as identified in and required by CTA's DBE program filed with the Federal Transportation Administration.
- C) Commitment to affirmative action and nondiscrimination to ensure that all members of the protected groups are sought out to compete for all job openings and promotional opportunities.
- D) CTA will comply with prevailing wage rates as required by applicable laws.
