**BOOK 2**

- 1) See Schedule of Prices: Revision of ITEM 5. REPLACE Revised Schedule of Prices from Addendum #3 with attached Revised Schedule of Prices Addendum #4 page 17.

**RFI CLARIFICATIONS**

- 1) Question: I'm writing to formally inquire about the expense we should expect for the street opening permits per location regarding the Private Drain Projects.  
**Answer:** The cost of the street opening permit is waived for DWM.
  
- 2) Question: We wish to bid on the Private Drain Repair Program projects. Our financial falls within the range to qualify as a mid-sized business, but we don't have the SBA Specialty Area or NAICS code to enter into the "Affidavit of Mid-Sized Business Status" document. Would we have the option to apply for these two items if we are the low bidder, or must they be in place at the time of the bid?  
**Answer:** Applicable construction NAICS codes can be found on the U.S. Small Business Administration website [www.sba.gov](http://www.sba.gov) You may type the following link to the U.S. Business Administration Table of Small Business Size Standards Matched to North American Industry Classification System Codes.  
[https://www.sba.gov/sites/default/files/files/Size\\_Standards\\_Table.pdf](https://www.sba.gov/sites/default/files/files/Size_Standards_Table.pdf)  
Neither qualification as a Mid-Sized Business, nor the applicable NAICS code you identify on the Affidavit of Mid-Sized Business Status is considered an application process. By executing the Affidavit of Mid-Sized Business Status, you are self-certifying that you meet the criteria for both. The Department of Procurement Services will confirm the low bidder has met both.
