Dear Friends:

Everywhere, people are reinventing what it means to age. This renewed focus is about owning your age — and embracing the opportunities to live your best life at every age.

Since 1963, Older Americans Month has been a time to celebrate older Americans, their stories, and their contributions. This year’s theme, “Engage at Every Age,” emphasizes that you are never too old (or young) to take part in activities that can enrich your physical, mental, and emotional well-being. It also celebrates the many ways in which older adults make a difference in our communities.

Come Engage at Every Age at your local DFSS senior center as you participate in a new class, explore a volunteer opportunity, make a new friend, or by taking charge of your health and staying independent for as long as possible. No matter where you are in your life, there is no better time than now to start and no better place than your nearest senior center.

Sincerely,

Lisa Morrison Butler, Commissioner
Chicago Department of Family and Support Services

Dear Fellow Seniors:

Wasn’t that a long Winter? But, as promised, Spring is here! The season can remind us of the cycle of our lives and that is why I love living in a region where we can experience them all. In the Midwest, we watch renewal each Spring no matter how dismal the Winter has been. I think it reminds us that there are reasons to have hope even in the midst of the darkest trial. I wish you all renewal of mind, body and spirit. Use the centers and satellites to further that renewal. Remember, we are here for you all. Take advantage of what you need, you deserve the best.

Blessings,
Joyce
Chicago Department of Family & Support Services – Senior Services Area Agency on Aging

Chicago Department of Family and Support Services - Area Agency on Aging is designated by the United States government under the Older Americans Act, and by the Illinois Department on Aging, as the “Area Agency on Aging” for the City of Chicago. Area Agencies on Aging are part of a nationwide network of State and local programs that help older people to plan and care for their life long needs. With the goal of keeping seniors living independently in their own homes for as long as possible, Senior Services- Area Agency on Aging provide a wide range of options that allow older adults, ages 60 and over, access to services and programs that allow them to remain healthy, safe, and independent.

Information & Assessment Services
Information and Assessment is the key element to accessing all programs and services for senior citizens, and is a “one stop link” to elder care service providers in the city of Chicago and throughout the nation. By placing a call to (312)744-4016, an older person or caregiver receives information about the services offered by the Chicago Department of Family and Support Services and the aging network. Central Information and Assessment is located in City Hall, 121 North LaSalle St., Room 100, with five (5) community locations in the Regional Senior Centers.

Regional and Satellite Senior Centers
DFSS Senior Centers offer a variety of social, educational, cultural, recreational activities for seniors and their informal caregivers. There are twenty-one (21) senior centers located throughout the city. Contact information for each of the centers is listed on the back page of the brochure. Each center is tailored to the needs and interests of the local community. All centers offer resources for caregivers, Life Enrichment activities, computer learning centers including internet access, fitness programming, congregate dining, and more.

You’re getting a new Medicare card!
Cards will be mailed between April 2018 – April 2019

You asked, and we listened. You’re getting a new Medicare card! Between April 2018 and April 2019, we’ll be removing Social Security numbers from Medicare cards and mailing each person a new card. This will help keep your information more secure and help protect your identity.

You’ll get a new Medicare Number that’s unique to you, and it will only be used for your Medicare coverage. The new card won’t change your coverage or benefits. You’ll get more information from Medicare when your new card is mailed.

Here’s how you can get ready:

- Make sure your mailing address is up to date. If your address needs to be corrected, contact Social Security at ssa.gov/myaccount or 1-800-772-1213. TTY users can call 1-800-325-0778.

- Beware of anyone who contacts you about your new Medicare card. We’ll never ask you to give us personal or private information to get your new Medicare Number and card.

- Understand that mailing everyone a new card will take some time. Your card might arrive at a different time than your friend’s or neighbor’s.
10 things to know about your new Medicare card

Medicare is mailing new Medicare cards starting in April 2018. Here are 10 things to know about your new Medicare card:

1. **Mailing takes time:** Your card may arrive at a different time than your friend’s or neighbor’s.

2. **Destroy your old Medicare card:** Once you get your new Medicare card, destroy your old Medicare card and start using your new card right away.

3. **Guard your card:** Only give your new Medicare Number to doctors, pharmacists, other health care providers, your insurers, or people you trust to work with Medicare on your behalf.

4. **Your Medicare Number is unique:** Your card has a new number instead of your Social Security Number. This new number is unique to you.

5. **Your new card is paper:** Paper cards are easier for many providers to use and copy, and they save taxpayers a lot of money. Plus, you can print your own replacement card if you need one!

6. **Keep your new card with you:** Carry your new card and show it to your health care providers when you need care.

7. **Your doctor knows it’s coming:** Doctors, other health care facilities and providers will ask for your new Medicare card when you need care.

8. **You can find your number:** If you forget your new card, you, your doctor or other health care provider may be able to look up your Medicare Number online.

9. **Keep your Medicare Advantage Card:** If you’re in a Medicare Advantage Plan (like an HMO or PPO), your Medicare Advantage Plan ID card is your main card for Medicare — you should still keep and use it whenever you need care. However, you also may be asked to show your new Medicare card, so you should carry this card too.

10. **Help is available:** If you don’t get your new Medicare card by April 2019, call 1-800-MEDICARE (1-800-633-4227). TTY users can call 1-877-486-2048.

You have the right to get Medicare information in an accessible format, like large print, Braille, or audio. You also have the right to file a complaint if you feel you’ve been discriminated against. Visit CMS.gov/about-cms/agency-information/aboutwebsite/ commondiscriminationnotice.htm, or call 1-800-MEDICARE (1-800-633-4227) for more information. TTY users can call 1-877-486-2048.
New Medicare Card
Mailing Strategy

The Centers for Medicare & Medicaid Services (CMS) is required to remove Social Security Numbers (SSNs) from all Medicare cards by April 2019. A new, unique Medicare Number will replace the SSN-based Health Insurance Claim Number (HICN) on each new Medicare card. Starting April 2018, CMS will begin mailing new Medicare cards to all people with Medicare on a flow basis by geographic location and other factors.

These mailings will follow the sequence outlined below. Additional details on timing will be available as the mailings progress. Starting in April 2018, people with Medicare will be able to check the status of card mailings in their area on Medicare.gov.

Participating in Activities You Enjoy—
More Than Just Fun and Games

Tips from the National Institute on Aging

There are many things you can do to help yourself age well: exercise and be physically active, make healthy food choices, and don’t smoke. But did you know that participating in activities you enjoy may also help support healthy aging?

As people get older, they often find themselves spending more and more time at home alone. The isolation can lead to depression and is not good for your health. If you find yourself spending a lot of time alone, try adding a volunteer or social activity to your routine.

June feels great. She enjoys gardening, playing cards with friends at the senior center, and taking a water aerobics class at the county indoor pool. She turns 78 this year, but feels like she’s still in her 50s. Research shows that staying active can help older adults like June stay healthy.

Benefits of an Active Lifestyle

Engaging in social and productive activities you enjoy, like taking an art class or becoming a volunteer in your community or at your place of worship, may help to maintain your well-being.

Research tells us that older people with an active lifestyle:

- **Are less likely to develop certain diseases.** Participating in hobbies and other social and leisure pursuits may lower risk for developing some health problems, including dementia.

- **Have a longer lifespan.** One study showed that older adults who reported taking part in social activities (such as playing games, belonging to social groups, or traveling) or meaningful, productive activities (such as having a paid or unpaid job, or gardening) lived longer than people who did not. Researchers are further exploring this connection.

- **Are happier and less depressed.** Studies suggest that older adults who participate in what they believe are meaningful activities, like volunteering in their communities, say they feel happier and healthier. One study placed older adults from an urban community in their neighborhood public elementary schools to tutor children 15 hours a week. Volunteers reported personal satisfaction from the experience. The researchers found it improved the volunteers’ cognitive and physical health, as well as the children’s school success.
Researchers think it might also have long-term benefits, lowering the older adults’ risk of developing disability, dependency, and dementia in later life.

- *Are better prepared to cope with loss.* Studies suggest that volunteering can help with stress and depression from the death of a spouse or other loved one. Among people who experienced a loss, those who took part in volunteer activities felt more positive about their own abilities (reported greater self-efficacy).

- *May be able to improve their thinking abilities.* Another line of research is exploring how participating in creative arts might help people age well. For example, studies have shown that older adults’ memory, comprehension, creativity, and problem-solving abilities improved after an intensive, 4-week (8-session) acting course. Other studies are providing new information about ways that creative activities like music or dance can help older adults.

---

**Activities to Consider**

Would you like to get more involved in your community or be more socially active? There are plenty of places to look for opportunities, depending on your interests. Here are some ideas:

**Get out and about**

- Visit a senior center and take part in its events and activities
- Play cards or other games with friends
- Go to the theater, a movie, or a sporting event
- Travel with a group of older adults, such as a retiree group
- Visit friends and family
- Try different restaurants
- Join a group interested in a hobby like knitting, hiking, birdwatching, painting, or wood carving
- Reconnect with old friends through your high school or college alumni association
- Visit local museums. Many offer free group tours.

**Learn something new**

- Take a cooking, art, dance, language, or computer class. Get in touch with your local community college. Many offer free or discounted courses for older adults.
- Form or join a book or film club
- Try yoga, tai chi, or another new physical activity
- Learn (or relearn) how to play a musical instrument

---

Melvin has not quite felt like himself since his retirement. He misses his customers and teaching new employees the trade. Linn used to care for her grandchildren while her daughter was at work. Now that her grandchildren are in school, she has a lot of extra time on her hands. Melvin and Linn miss waking up with a feeling of purpose. They think joining a volunteer group might help. Research shows that people who are sociable, generous, and goal-oriented may feel happier and less depressed than other people.
When Maria was younger, she took part in rallies for local issues and even went to Washington, D.C., to hear Martin Luther King, Jr.’s “I Have a Dream” speech. Recently, she has been learning about problems with the environment and wants to get involved in finding a solution. She thinks it will be a good way to volunteer her time.

**Become more active in your community**

- Serve meals or organize clothing donations for people in need
- Help an organization send care packages to soldiers stationed overseas
- Care for dogs and cats at an animal shelter
- Volunteer to run errands for people with disabilities
- Join a committee or volunteer for an activity at your place of worship
- Volunteer at a school, library, museum, or hospital
- Help with gardening at a community garden or park
- Organize a park clean-up through your local recreation center or community association
- Sing in a community choral group, or play in a local band or orchestra
- Take part in a local theater troupe
- Get a part-time job
- Rediscover a favorite childhood pastime or teach it to a new generation—embroidery, photography, building models, chess, baking, woodworking, calligraphy, or quilting

**Be physically active**

- Garden or do yard work
- Take an exercise class or do exercises at home
- Go dancing
- Join a sports group for older adults, like a bowling club or bocce league
- Walk or bicycle with a friend or neighbor
- Take a swimming class
- Join a local hiking or mountain biking group. Try rowing, canoeing, or kayaking at a nearby lake or river.
- Start a weekly basketball or tennis game with friends
- Join a mall-walking group
- Play with your grandchildren. Teach them a game or dance you remember from childhood.

For more information about physical activity, check out **Go4Life**. This exercise and physical activity campaign from the National Institute on Aging has exercises and free videos and print materials at [www.nia.nih.gov/Go4Life](http://www.nia.nih.gov/Go4Life).

Two years ago, Ted began volunteering at his senior center, then he started some clubs at the center. Now he volunteers 3 days a week, leads the center’s theater group, and plays in a weekly dominoes game. He also recently joined a committee for his apartment building that meets twice a month. Ted is rushing all the time and thinks he might need to cut back.
Find the Right Balance
Everyone has different limits to the amount of time they can spend on social or other activities. What is perfect for one person might be too much for another. Be careful not to take on too much at once.

You might start by adding one or two activities to your routine and see how you feel. You can always add more.

Remember—participating in activities you enjoy should be fun, not stressful.

ABOUT OUR TRIPS AND EVENTS

WAIVERS: Every trip/event participant must register by completing and signing a Senior Services Emergency Contact/Waiver.

RESERVATIONS: Reservations are not guaranteed until the ticket is paid for. Please do your best to register as early as possible, since many of our trips and events fill up quickly.

REFUNDS: In order to make programs available to as many people as possible, we do our best to keep costs low. We base the cost per person by dividing the cost of the outing by the number of people we expect on the bus. We therefore regret we are unable to give refunds or discounts. However, if we have a waiting list and are able to sell your seat on or before the day of the trip, we will be happy to refund your money. Otherwise, we suggest you give your ticket to a friend as an “early” birthday or holiday present. Naturally we will refund your money if an event is canceled or significantly altered by Senior Services.

WHEELCHAIRS: If you use a wheelchair and would like to participate, please contact us at (312) 746-4798 to discuss arrangements.

TELEPHONE NUMBERS: When you register, make sure that you provide us with your phone number. Sometimes, in order to fill buses, we need to combine two locations. This can result in a change in the date of your program. If we have your phone number, we can contact you to work out these details.

PROMPTNESS: Most of our events and trips are on tight time schedules, and it is our policy to leave promptly at the stated departure time. This makes us unable to wait for latecomers. We regret that no refunds can be given to tardy participants who miss a bus.

NAME TAGS: We require participants to wear name tags as identifiers as part of our safety procedures.

COURTESY: Participants who go on our outings are expected to cooperate with group leaders, bus drivers and staff, as well as key persons in charge at the point of destinations. Any seniors or group leaders who are uncooperative - by being late, refusing to accommodate reasonable requests, or showing rude or anti-social behavior will be denied access to future trips, programs and events for the safety and comfort of the rest of the participants.
ABOUT OUR TRIPS AND EVENTS CONT...

GROUP ISSUES: Group leaders must obtain reservation numbers to register for trips. Payment must be made by the Money Due Date given at time of registration. Unless otherwise designated, Group leaders are given one complimentary ticket when leading 19 or more participants. When two groups share a bus, the first group boarding the bus should fill in the driver's side of the bus, leaving the passenger side for group two. Front seats by the driver are reserved for the group’s leader or Family & Support Services staff. Group leaders are responsible for taking attendance to make sure everyone is accounted for and for bringing emergency forms for each participant. Group leaders must immediately let staff know of any accidents or incidents that occurs during the trip. (We salute the energy and dedication of our group leaders! We couldn’t host these programs without them).

ACCOMMODATIONS FOR PERSONS WITH HEARING IMPAIRMENTS: If you need a sign language interpreter for any of our lectures, programs or classes, please let us know as soon as possible so we can make the necessary arrangements. You can let us know by either calling your center on your TTY, writing a letter, stopping in or asking a friend to contact us. We welcome your participation.

PARKING: The five Regional Senior Centers have adjacent free parking. Regrettably, Renaissance Court has NO free parking, but plenty of public transportation options.

PREPARATION: Since some of our outings require walking, climbing or varying amounts of stamina, participants are responsible for learning about programs and trips before signing up for them, paying close attention to all trip details and any trip advisories or cautions. Proper footwear and clothing are the participant’s responsibility.

Diabetics may want to consider bringing their own snacks should they have concerns about an event’s meal service time.

EXTREME WEATHER WARNING: In case of severely hot, cold or extreme weather please call centers to confirm trips and events.

DISCLAIMER: Senior Services is not responsible for opinions or recommendations of vendors or facilitators.

The most important component of the Wellness Program is YOU! Healthy living helps to prevent chronic disease and certain disabilities. It can ensure that today’s older persons as well as future generations not only live longer, but also live better. It’s never too late to adopt healthy lifestyle habits. The Wellness Program can help you start a personal wellness program or provide you the support you need to maintain your wellness goals.

- The Wellness Program at Central West, Southeast (Atlas) and the Southwest Senior Centers is provided by the Bowman Center/Rush University Medical Center.
- The Wellness Program at the Northeast (Levy) Senior Center, Northwest (Copernicus) Senior Center, and Renaissance Court is provided by White Crane Wellness Center.

At each senior center, the latest information on healthy living and disease prevention is provided through monthly talks with the wellness nurse, social worker, dietitian, and pharmacist.

Take a look at the wellness schedule at the center nearest you and meet the wellness team. It is the first step to a healthier lifestyle.
## WELLNESS TEAM OF PROFESSIONALS

### WELLNESS NURSE

The Wellness Nurse is available weekly at each center. The Wellness Nurse is knowledgeable about health issues and provides education, guidance and insight. The Wellness Nurse provides blood pressure and other health screenings, support groups, and monthly health talks to help you manage your health.

### SOCIAL WORKER

The Social Worker is available one half day several times each month by appointment for private, one-on-one consultations. See the Wellness Social Worker for advice and information on resources for those times when you are faced with life’s challenging issues. The Wellness Social Worker also leads a discussion group on a variety of topics focusing on contemporary issues of aging.

### DIETITIAN

The Dietitian is available monthly to assist you in achieving your nutritional goals with one-on-one consultations, nutritional health talks, and discussion groups. The Wellness Dietitian shares insights about dietary needs, strategies to make positive lifestyle changes as well as the relationship between nutrition and your health.

### PHARMACIST

A Pharmacist is available at each center one half-day each month. In addition to informative presentations and question and answer sessions on medications and health-related issues, the pharmacist is available by appointment for private, one-on-one consultations to address your concerns. Make an appointment for a “brown-bag” medication review (bring all of your medications into the pharmacist for review) to receive help with timing your medications or bring in your lab results for discussion. See each center’s postings for available appointment times.

Health Promotion, Wellness – What YOU Need to Know!
With the implementation of the Patient Protection and Affordable Care Act (PPACA) of 2010, there has been
a greater emphasis on the importance of preventative health care. One specific preventative health initiative
of the bill designed for older individuals is the Medicare Wellness Visit (MWV). Come to this session to learn
more about what to expect from your annual prevention oriented wellness visit. The role of the health care
team in performing the various health risk assessments (HRA’s) including medication management will be
discussed.

DIETITIAN PRESENTATIONS

**Bulking Up Your Brain!**
You have heard many catch phrases over the years toting what you NEED to eat: “Be sure to drink your Ovaltine”; “An apple a day keeps the doctor away”. In fact, these phrases go as far back as Hippocrates: “Let food be thy medicine and medicine be thy food”. However, is there really any magic to an apple or Ovaltine or any foods for that matter to save your brain? Well, magic has nothing to do with it. But what foods you choose can leave you thinking as clearly as possible. Come learn what to eat to bulk up your brain power.

PHARMACIST PRESENTATIONS

**Memory Loss – Should I Be Screened?**
Dementia is the loss of brain function due to certain medical conditions such as stroke, brain tumor, or Alzheimer’s disease. It may make it hard for you to remember, learn, and communicate. With early screening and detection, SOME types of dementia are REVERSIBLE with treatment, while with others; we can SLOW down the progression of the disease. Come to this session to learn about screening for memory impairment, common symptoms of dementia, ways to address these symptoms, possible treatment options, and available resources for you and your family/caregivers.

Choosing Healthy Meals as You Get Older

1. Drink Plenty of Liquids
   With age, you may lose some of your sense of thirst. Drink water often. Low-fat or fat-free milk or 100% juice also helps you stay hydrated. Limit beverages that have lots of added sugars or salt. Learn which liquids are better choices.

2. Make Eating a Social Event
   Meals are more enjoyable when you eat with others. Invite a friend to join you or take part in a potluck at least twice a week. A senior center or place of worship may offer meals that are shared with others. There are many ways to make mealtimes pleasing.

3. Plan Healthy Meals
   Find trusted nutrition information from ChooseMyPlate.gov and the National Institute on Aging. Get advice on what to eat, how much to eat, and which foods to choose, all based on the Dietary Guidelines for Americans. Find sensible, flexible ways to choose and prepare tasty meals so you can eat foods you need.

4. Know How Much to Eat
   Learn to recognize how much to eat so you can control portion size. MyPlate’s SuperTracker shows amounts of food you need. When eating out, pack part of your meal to eat later. One restaurant dish might be enough for two meals or more.

5. Vary Your Vegetables
   Include a variety of different colored vegetables to brighten your plate. Most vegetables are a low-calorie source of nutrients. Vegetables are also a good source of fiber.
6 eat for your teeth and gums
Many people find that their teeth and gums change as they age. People with dental problems sometimes find it hard to chew fruits, vegetables, or meats. Don’t miss out on needed nutrients! Eating softer foods can help. Try cooked or canned foods like unsweetened fruit, low-sodium soups, or canned tuna.

7 use herbs and spices
Foods may seem to lose their flavor as you age. If favorite dishes taste different, it may not be the cook! Maybe your sense of smell, sense of taste, or both have changed. Medicines may also change how foods taste. Add flavor to your meals with herbs and spices.

8 keep food safe
Don’t take a chance with your health. A food-related illness can be life threatening for an older person. Throw out food that might not be safe. Avoid certain foods that are always risky for an older person, such as unpasteurized dairy foods. Other foods can be harmful to you when they are raw or undercooked, such as eggs, sprouts, fish, shellfish, meat, or poultry.

9 read the Nutrition Facts label
Make the right choices when buying food. Pay attention to important nutrients to know as well as calories, fats, sodium, and the rest of the Nutrition Facts label. Ask your doctor if there are ingredients and nutrients you might need to limit or to increase.

10 ask your doctor about vitamins or supplements
Food is the best way to get nutrients you need. Should you take vitamins or other pills or powders with herbs and minerals? These are called dietary supplements. Your doctor will know if you need them. More may not be better. Some can interfere with your medicines or affect your medical conditions.

Prevent Isolation and Loneliness As You Age
How Widespread Is the Problem of Social Isolation?

- An estimated one in five adults over age 50—at least 8 million—are affected by isolation.
- Prolonged isolation can be as bad for your health as smoking 15 cigarettes a day.

What Are the Factors That Put You At Greater Risk?

- Living alone*
- Mobility or sensory impairment*
- Major life transitions or losses*
- Low income or limited financial resources
- Being a caregiver for someone with a serious condition
- Psychological or cognitive challenges
- Inadequate social support
- Rural, unsafe and/or inaccessible neighborhood
- Transportation access challenges
- Language barriers
- Age, racial, ethnic, sexual orientation and/or gender identity barriers

Caregivers: These risk factors may also provide you with clues to what to look for should you have a family member or neighbor who is isolated or lonely.

What Steps Can You Take to Stay Connected and Engaged?

Sometimes it takes effort to stay connected. You may have noticed that your social engagements have decreased or that you have gone days or weeks without speaking to or interacting with others. It never hurts to take stock of your network of activities and friends and to evaluate what you can do to make more connections.

Here are some actions you may want to consider taking to help you stay ahead of the “connection curve:”

- Nurture and strengthen existing relationships
- Invite people over for coffee or call them to suggest a trip to a museum or to see a movie.
- Schedule a time each day to call a friend or visit someone.
- Meet your neighbors—young and old.
- Don’t let being a non-driver stop you from staying active. Find out about your transportation options.
- Use social media like Facebook to stay in touch with long-distance friends or write an old-fashioned letter.
- Stay physically active and include group exercise in the mix, like joining a walking club.
- Take a class to learn something new and, at the same time, expand your circle of friends.
- Revisit an old hobby you’ve set aside and connect with others who share your interests.
- Volunteer to deepen your sense of purpose and help others.
- Visit your local community wellness or senior center and become involved in a wide range of interesting programs.
- Check out faith-based organizations for spiritual engagement, as well as to participate in activities and events.

Take the Selfie Challenge!

Older Americans Month is a great time to show the world you are never too old (or too young) to enrich your life and your community. This year, we want to see how you stay engaged so that you can help inspire others to do the same. Snap a selfie or have someone take your picture participating in activities that improve your mental and physical well-being. Then, post your image to social media using the hashtag #OAM18. Encourage your peers to do the same and you might just gain a little inspiration from others. No matter where you are in your life, there is no better time than now to start engaging in yourself and the world around you.
